Creamery News

A new cream season is at hand Production is very satisfactory — considerably exceeding last year's make. As usual we are giving the cream producer the BEST possible possible service and the GREATEST possible returns.

Eggs

Recently a considerable decline in the grade of eggs has been noticeable — due to the warmer weather and to much grass being available to the laying hens. Cutting down on the daily grazing period of the hens, more frequent collections of eggs and rapid cooling of same is, in our opinion, the best solution for a better grade.

For your convenience, the Creamery will be open Wednesday and Saturday evenings ten o'clock.
