Arabian Pipe Line

The principal reason for an oil pipe line across Arabia to Mediterranean ports is the 3,000-mile tanker route by way of the Persian Gulf and the Red Sea, and the 18-cents-per-barrel toll through the Suez Canal.

KIDNEY ACIDS Rob your Rest..

Many people never seem to get a good night's rest. They turn and toss—blame it on 'nerves'—when it may be their kidneys. Healthy kidneys filter poisons and excess acids from the blood. If they fail and impurities stay in the system—disturbed rest often follows. If you don't rest well get and use Dodd's Kidney Pills. Dodd's help the kidneys so that you can rest better—and feel better. 136

On the Rocks . . . and Likes It—Apparently blissfully comfortable despite his hard resting place, this straw-hatted bather reclines atop some shore-line rocks and enjoys a sun bath.

Sports – And One Thing or Another

By FRANK MANN HARRIS
("A Sixbit Critic")

As these lines are written, the Brooklyn Dodgers are leading the National League by a respectable margin. More than that, they have been in a contending position ever since the start of the season; and their biggest gamble—brunet Jackie Robinson—has not only made good on all that was predicted of him, but has also become the greatest drawing-card in the senior circuit.

* * *

Thus, both from an artistic and a financial standpoint, the Dodgers couldn't be sitting much prettier if they had personally written the script. And somehow or other we can't help occasionally wondering just what Mr. Leo Durocher's private feelings must be as he watches his former charges sailing so merrily along without his guidance.

* * *

NICE PLAYMATE. Possibly for no good reason, Russia's Mr. Molotov keeps putting us in mind of a momma's pet named Eddie, up in Perth County when we were a kid. In the baseball season, for instance, Eddie would allow the rest of us to furnish bats, balls and all other paraphernalia, as well as get the diamond into shape. Then, if he felt like it, he'd condescend to play—provided we let him go to bat first and tossed him nothing but easy pitches. L.

* * *

The case of that race-mare running—and winning—under the name of her sister is still far from being satisfactorily settled. The chances are it never will be. Our turf solons, who are a law unto themselves, plastered two trainers and one owner with a sort of "Absolutely innocent but don't do it again" verdict. The owners of the steeds which ran second, third and fourth to WILLE-GIVIT will be taken care of, receiving the portions of the purse that would have been theirs had that lady stayed in the barn.

* * *

But what of that other "forgotten man"—meaning the two and five dollar piker who only pays the bills? Well, he's still forgotten, and serve him right. When you buy an article from any reputable establishment, you naturally expect them to make good if that article later turns out to be phony; but Jockey Clubs, even with their wealth of impressive and highly-paid officials, are evidently different. By their own admission they are so easy to deceive that they can give you no guarantee the goods they are peddling are as represented; and if you get fooled, well—that's horse-racing." A warning commonly seen on race-tracks runs "Don't Tear Up Mutuel Tickets Till After the OFFICIAL Sign is Posted." We hereby move that it be amended to read, "Save Your Mutuel Tickets for at Least a Couple of Years."

* * *

NEW DATA ON THE PROBLEM OF HAIR-RAISING Idly scanning the advertising columns of a daily paper on the way to Fort Erie, one well-known Turf adviser (hustler to you) was heard to remark to a companion, "It says here that some scientist claims a man's hair grows faster in summer than in winter. Do you believe it?" To which the other somewhat mournfully replied, "All I know is that nothing in the world will make a guy's hair grow so fast as being shy the price of a hair-cut."

* * *

First call for football talent to report for training has already gone out and before the Dog Days have properly set in, no doubt we shall be having pre-season exhibitions, to be followed by league games, with play-offs and post-playoffs ensuing right up to Christmas or, if the customers hold out, possibly Groundhog Day.

* * *

Of course it isn't any of our particular business and—as you are probably saying to yourself—if we don't like it we always have the privilege of staying away. But we still can't help feeling that an Athletic Commissioner might do worse—for the benefit of sport in general—than to apportion the year into definite segments and tell, for instance, the football folks not to slop too far over into hockey's territory, and vice versa.

* * *

WHAT WE WANT IS SERVICE; Tales of hitch-hikers and their agreeable ways are legion. Still, we rather relished this incident, as reported by a friend. Driving to his summer cottage with his family recently, they stopped for this hiker, managing to make room for him in the back seat. After half a mile or so the new passenger spoke. "Mister," he said to the man sitting beside the driver, "I wonder would you change places so that I can sit in front?" Then possibly feeling that a word of explanation was in order, he added, "You see, there'll be a pal of mine thumbing a couple of miles further along the road; and I want to be able to spot him in time so that we can pick him up too."

ITCH CHECKED in a Jiffy -or Money Back

ISSUE 30—1947

Russia Listens

Moscow radiocast said that more than 5,500,000 Russians have radios in their homes. The radiocast said the figure was more than before the war, but gave no comparative figure. Total population of Russia is slightly under 197,000,000.

(The United States had 60,000,000 radio sets in use last year, according to the 1947 World Almanac. The total population is 139,621,431.

Progress

Today, with the use of machines and science, the average Canadian farmer can work about 85 acres of improved land; in 1911 he was able to cultivate only 51 acres. To-day, the farmer can get about 60 bushels of hybrid corn per acre, where previously he got only 50 bushels from standard varieties. Cows yielding 5,000 pounds of milk annually are average cows, as compared with less than 3,000-pound producers at the turn of the present century.

Play at War

An Associated Press reporter fell into conversation with German children in bomb-ruined Munich. In the rubble they were building air-raid shelters, miniature West Walls, tunnels for ammunition storage. The gang had its little fuehrer, who was absolute boss, with power to "court-martial" his "men." The fuehrer ordered a seven-year-old girl to sit in front of a bunker and play the role of the civilian population. A boy threw sand in her face. That represented the civilians getting hit by a bomb.
