A. McCAULEY Pro

County and District

The county jail is overflowing with tramps.

A Wiarton man has a tame crow that can speak several sentences quite distinctly.

There are thirteen cases of diphtheria in Wiarton, and the public school has been closed.

A valuable mare was stolen from the stable of Thos. Dowk's, Shelburne, one night last week.

John Ransier, Duntroon, who got his leg crushed in a hay press, died from the effects, blood poisoning having set in.

An accident occurred Monday afternoon at the corner of Place de La Marchand and Paterson street, which terminated in the death of Ethel Irene Brown, aged six years, only daughter of Mr. J. L. Brown, a fireman on the Grand Trunk. The little girl, accompanied by two other children, were playing around the trunk of a willow tree, which had been sawed off, when it commenced to roll. The children at once started to run away, but the little Brown child was caught by the trunk, which rolled on her. It took three men some time to get the child from under the trunk, which was very heavy, and medical assistance was at once called. Internal injuries were received, inflammation set in and the child died Thursday morning. Mr. and Mrs. Brown have the sympathy of the community in the loss of their daughter by the sad accident.—O. S. Advertiser.

MONEY ! MAKE IT YOURSELF !!

I have never seen anything in the paper about the People's Wind Mill; we call it the People's because the inventor never patented it, but let everybody use it free. Any farmer can make a mill himself, and all the material complete will not cost over $10. It is a splendid mill, will pump the deepest wells, and will last longer than any mill I ever had. Any person can get diagrams and compete directions free, as I did, by sending 18 two-cent stamps to pay postage, etc., to Francis Casey, St. Louis, Mo; He sells pumps also, and when you get your wind mill going would be glad to sell you a pump if you need it. It is certainly useless to pay $50 or $60 for a wind mill when you can make one just as good for $10. I think there could be big money made putting these mills up through the country as everybody would like them.

A READER.

Will Tuck, son of R. W. Tuck, of the Royal Hotel, Shelburne, had a narrow escape on Saturday last. He went out shooting alone and had entered the woods near Mrs. J. B. Dodds' residence and was standing looking around when all at once he got a charge of shot in both legs. Young Colley, son of Geo. Colley, shot at a rabbit and missed it and it happened to be right in line with where Tuck was standing. The injured boy was standing with his left side towards Colley and the shot entered both legs, some of the grains going clean through the fleshy part of the thigh and calf of the leg. Seventeen grains in all entered his legs, and one grain struck him near the heart but glanced off the rib. He was brought to Dr. Norton's office and put under chloroform but only two grains of shot were extracted. The wounds bled profusely. On Sunday another grain was taken out. If nothing serious takes place there is good hopes for his recovery.

A Chrun That Churns in One Minute

I have been in the dairy business all my life and have many times churned for an hour before butter would appear, so when I heard of a churn that would churn in a minute, I concluded to try it. Every day for a week I used it, and not only could I churn in a minute, but I got more and better butter than with the common churn. This is very important information to butter makers. The churn works easily and will churn an ordinary churing in less than sixty seconds. I have sold two dozen of these churns in the past month. Every buttermaker that has seen me churn in less than a minute bought one. You can obtain all desired information regarding the churn by addressing J. F. Casey & Co., St. Louis, Mo., and they will give you prompt and courteous attention. A DAIRYMAN.

A preacher was disturbed by the talking and giggling of some of the junior members of his congregation, says the Evening Wisconsin. Being a man of tact, he paused and said: Some years ago there happened to sit right in front of the pulpit a young man who was perpetually laughing and talking and making silly faces. I stopped short, and took him severely to task. At the close of the service a man stepped up to me and said: "Sir, you made a great mistake; that young man is an idiot." "Since that time I have not ventured to reprimand any persons who behave themselves indecorously in church, lest I should repeat the same mistake, and inflict censure upon an idiot." There was exemplary silence during the rest of the service.

Another Smart Woman

My husband is poor but proud and he does not want me to work; as I have nothing to do I get restless, and after reading in your paper Mrs. Russell's experience selling self-heating flatirons I concluded I would try it. I wrote to J. F. Casey & Co., St. Louis, Mo. and they treated me so nicely that I felt very much encouraged. As soon as I got my sample iron I started out and sold 8 irons the first day, clearing $12. I have not sold less than eight any day since, and one day I sold 17. I now have $225 clear money, and my husband does not know I have been working, but I am afraid he will be mad when I tell him. Have I done right or should I quit work and have him to struggle alone?

AN ANXIOUS WIFE.

You are doing just right, your husband should be proud of you, go right ahead and show the world what an energetic woman can do. That self-heating iron must be a wonderful seller, as we hear of so many that are succeeding selling it.

Edward Rennicks, of Amaranth, recently purchased a ticket for Larual at the C. P. R. station at Orangeville. The conductor forgot to stop the train at Laurel, which is only a flag station, and Rennicks was carried to Shelburne. He was told by the conductor to come back the next morning, but missed the early train and did not leave Shelburne until evening. Conductor Troyer was on board this trip and refused to pass Rennicks back to Laurel, Rennicks tendered the price of his fare when Troyer pulled the bell rope to stop the train, but he was put off nevertheless Now he is suing the C. P. R. company for $5,000 damages. The case has since been settled by the company paying costs and a few dollars damages.

THE NEW HOOK SPOON FREE TO ALL

I read in the Christian Standard that Miss A. M. Fritz, Station A., St. Louis, Mo, would give an elegant plated hook spoon to anyone sending her ten 2 cent stamps. I sent for one and found it so useful that I showed it to my friends, and made $13.00 in two hours, taking orders for the spoon. The hook spoon is a household necessity. It cannot slip into the dish or cooking vessel, being held in the place by a hook on the back. The spoon is something that housekeepers have needed ever since spoons were first invented. Anyone can get a sample spoon by sending ten 2-cent stamps to Miss Fritz, This is a splendid way to make money around home.

Very truly, JEANNETTES.

MARRY THIS GIRL QUICK

I saw in your paper that a 13 year old boy made $1.25 the first hour he worked selling the Perfection Metal Tip Lampwick. I ordered a sample and went to work and the first week I cleared $10, the second week I cleared $15. I expect to run up to $25 a week in the near future, as the Perfection Metal Tip Lampwick makes such a beautiful white light and does away with smokey chimneys and bad odor and save oil, it is easy to sell. If you wish to try it send 13 two cent stamps to Miss A. M. Fritz, Station A., St. Louis, Mo., and she will send you a sample outfit, this is a good way to make money around home MISS TINA W.

MAKE YOUR OWN LANTERN

Your home is incomplete without it, and the price is within reach of all. I ordered one for my own use—and it was so handy and convenient I went to taking orders for them and sold 51 in one day making over $5 clear. It gives a beautiful white light, chimney never breaks from heat, it is always clean and ready. Francis Casey, St. Louis, Mo, will send sample for 13 two cent stamps, write for one. I got my start from him.

GEORGE B.

HOW THE DIPPER SAVED THE FARM

Father was sick and the mortgage on the farm was coming due, I saw in the Christian Advocate where Miss A. M. Fritz of Station A, St. Louis, Mo., would send a sample combination dipper for 18 two cent stamps, and I ordered one. I saw the dipper could be used as a fruit jar filler; a plain dipper; a fine strainer; a funnel; a strainer funnel; a sick room warming pan and a pint measure These eight different uses makes the dipper such a necessary articles that I went to work with it and it sells at very near every house. And in four months I paid off the mortgage. I think I can clear as much as $200 a month. If you need work you can do well by giving this a trial. Miss A. M. Fritz, Station A, St. Louis, Mo., will send you a sample for 18 two cent stamps—write at once. JOHN G. N.
