WOMEN WHO SUFFER

Dr. Williams' Pink Pills Give Regularity and Good Health.

Every woman at some time needs a tonic. At special times unusual demands are made upon her strength. Where these are added to the worry and hard work which falls to her lot, weakness will result unless the blood is fortified to meet the strain.

Weak women find in Dr. Williams' Pink Pills the tonic exactly suited to their needs. Most of the ills with which they suffer are due to bloodlessness—a condition which the Pills readily cure. These pills save the girl who enters into womanhood in a bloodless condition from years of misery, and afford prompt and permanent relief to the woman who is bloodless, and therefore weak. Mrs. R. Fisher, Coates Mills, N. B., says: "Sometime ago my system was in a very anaemic condition as the result of an internal hemorrhage caused by an accident. Though I had the services of a skilled doctor for a time, I did not recover my strength, and gradually I grew so weak that I could not do any house-work. As I seemed to grow steadily weaker I became much discouraged, for previous to my accident I had always been a healthy woman. About this time I received a pamphlet telling me of the strengthening powers of Dr. Williams' Pink Pills. I procured a box at once and began using them, when they were gone I got three boxes more, and by the time I had used these I found myself somewhat stronger and my appetite much better. Before I began the pills I could scarcely walk up stairs, and could do no work at all. Now after taking three boxes I was able to walk out in the open air. I kept on with the pills, and after using six boxes was delighted to find that I could again attend to my household affairs. I took two more boxes of the pills, and I felt that I was as well as ever I had been, and equal to any kind of exertion. I have since recommended Dr. Williams' Pink Pills to friends with beneficial results."

Dr. Williams' Pink Pills are sold by all medicine dealers or will be sent by mail at 50 cents a box or six boxes for $2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

A DULL NIGHT.

"Did you enjoy Mabel's party last night?"

"Not at all. Nobody coaxed me to sing."

Small but Potent. — Parmelee's Vegetable Pills are small, but they are effective in action. Their fine qualities as a corrector of stomach troubles are known to thousands and they are in constant demand everywhere by those who know what a safe and simple remedy they are. They need no introduction to those acquainted with them, but to those who may not know them they are presented as the best preparation on the market for disorders of the stomach.

Towne—"Nonsense! Who told you Miss Pretty had a good disposition?" Brown—"Why she's always smiling. Doesn't that show a good disposition?" Towne—"Not necessarily; sometimes it merely shows good teeth and dimples.'

Chilled to the Bone? A teaspoonful of Painkiller in a cup of hot water sweetened will warm you and avert a cold. Avoid substitutes, there is but one "Painkiller"—Perry Davis'—25c and 50c.

He—"Well, I'm willing to admit that I was wrong." "She—"You'll have to do more than that." He—"What more can I do?" She—"Admit that I was right."

Mothers, Give the Children a Chance.

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W 720, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her to-day if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

Few people can talk on all subjects, yet a lot of them attempt it.

We Must Go from heated rooms to the cold air, and the change sets us coughing. Curing winter colds is not hard if you take Allen's Lung Balsam. A neglected cold is troublesome and dangerous.

CLEARING THE WAY.

The farmer had the toothache, and to save a trip to town and a dentist's fee he asked his man Jake to pull the aching tooth.

Jake led him to the barn, seated him on a bench, and took from the harness-room a pair of very large, rusty pincers.

"Here goes," he said, and bracing himself extracted a huge tooth.

The farmer clapped his hand to his jaw and pointed reproachfully to the large white tooth in the pincers.

"Why, Jake," he moaned, "that's the wrong one."

HAPPY CRIMINALS.

They Have a Glorious Time in a Swiss Prison.

Although the government has suppressed the luxurious jail at Thorburg, where the "convicts" did as they pleased, Switzerland has still another like it at Sarnen, in the Canton of Oswald. Here the happy criminals have a much better time than the "free" citizens who are forced to earn their daily bread. The men, who wear a dark blue uniform with white stripes, are to be seen walking about the village or in the cafes, while some work leisurely at whatever they please. The money earned by them in their own, and they may spend it as they like. One man, who is gardener for a local magistrate, sends his monthly salary to his wife and children.

The convicts are permitted to leave the prison early in the morning and find work around Sarnen. At nightfall they return of their own accord. They go about unaccompanied by wardens, and nothing prevents their escape. However, the men are so comfortably housed and so well fed that they have no wish to leave the prison.

Still, two or three convicts did escape a few weeks ago. They re-seconds and discharged.

condition, and were allowed to occupy their "apartments" after a severe reprimand. One man was discharged recently. He remained in Sarnen for the purpose of continuing to earn money as a bricklayer. But "colleagues" objected so strongly to his staying there that he begged for his prison dress and asked to be permitted to resume his status as a convict.

DEW WATER.

The ancient "dew ponds" of England have their modern counterparts on the Rock of Gibraltar, where drinking-water is obtained by the condensation of the abundant dew in specially prepared basins. The primitive process consists in making a hollow in the ground, and filling the bottom with dry straw, over which is placed a layer of clay. On a clear night the clay cools very rapidly, and the dew is condensed into water in the basin. The pond is improved by putting a layer of asphalt or Portland cement under the straw. At Gibraltar the present practise is to use wood instead of straw and sheet iron instead of clay.

So popular is Bickle's Anti-Consumptive Syrup as a medicine in the treatment of colds and coughs or ailments of the throat, due to exposure, to draughts, or sudden changes of temperature, that druggists and all dealers in patent medicines keep supplies on hand to meet the demand. It is pleasant to take, and the use of it guarantees freedom from throat and lung diseases.

"As I understand it, an X-ray will go straight through a man's head. There is nothing else quite so penetrating, is there?" "Oh, I don't know. Did you ever hear my daughter sing?"

PILES CURED IN 6 TO 14 DAYS.
PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

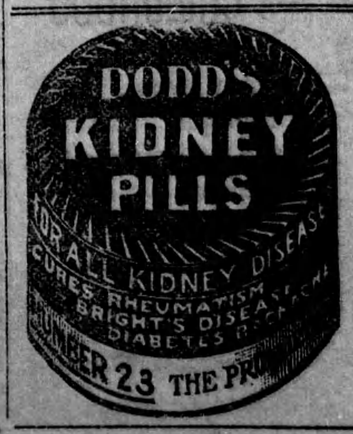
UNCLE EZRA SAYS.

"It is in the natu, uv things thet ef you go out uv your way to do some one a favor you'll either git run over else fall into a ditch."

To Know is to Prevent.—If the miners who work in cold water most of the day would rub their feet and legs with Dr. Thomas' Eclectric Oil they would escape muscular rheumatism and render their nether limbs proof against the ill effects of exposure to the cold. Those setting out for mining regions would do well to provide themselves with a supply before starting.

REMARKABLE DROVING FEAT

One of the most remarkable droving feats on record has lately been performed. A mob of 3,000 mixed cattle were droved across country from Wave Hill, in the Northern Territory, to Chareville, in Brisbane, Australia, a distance of 1,850 miles. Only twenty-four of the beasts were lost on the way. This record is worthy of the old days of the overlanders, when droving was an art much more practised and better understood than it is nowadays.



THE BANK OF OTTAWA.

Has Had a Prosperous Year.

The thirty-fifth Annual Report of the Bank of Ottawa directors shows most substantial progress during the year ending November 30th, 1909. Though the earlier part of the year still showed the effects of the financial depression of 1908, conditions have changed materially during the last three or four months and prospects for 1909 are bright.

The bank's net profits for the year were $421,065. After paying dividends, writing off $57,357 from the valuation of bank premises and furniture, and providing for the officers' pension fund, nearly $50,000 was added to the balance brought forward from the previous year, making the balance carried forward to next year $455,919.

During the year 5,000 shares of new stock were issued at a premium of 100 per cent., increasing the paid-up captial from $3,000,000 to $3,297,550. As the rest fund was increased by a similar amount the bank's capital and rest together now total $6,595,100.

The increase of $4,000,000 in the bank's interest-bearing deposits during the year is a further indication of the growth of the institution's business with the general public.

The total assets during the year have also increased very materially —from $33,524,891 to $39,212,189.

Altogether the Bank of Ottawa is to be congratulated on a very satisfactory year's business.

EASY TASK.

New Bride — "Mamma says she does not think we will ever quarrel as she and papa do."

Groom—"Never, dearest."

New Bride—"No; she says you will be much easier to manage than papa was."

A Standard Medicine. — Parmelee's Vegetable Pills, compounded of entirely vegetable substances known to have a revivifying and salutary effect upon the digestive organs, have through years of use attained so eminent a position that they rank as a standard medicine. The ailing should remember this. Simple in their composition, they can be assimilated by the weakest stomach and are certain to have a healthful and agreeable effect on the sluggish digestive organs.

OPPORTUNITY.

He—"When I get interested in a subject, I don't stop till I have embraced it thoroughly."

She—"How perfectly delightful! Do—do you consider that I am an interesting subject?"

Be Sure you get the kind you have always had "The D & L" Menthol Plaster. For rheumatism, neuralgia, etc., nothing is better. Made only by Davis & Lawrence Company.

SAVING.

"He must have a wonderful amount of good nature," said Howdock.

"Never struck me that way," replied Billins.

"Perhaps not. But when you consider how little he uses, the stock on hand must be enormous.

Free to Our Readers.

Write Murine Eye Remedy Co., Chicago, for 48-page illustrated Eye Book Free. Try It in Your Eyes and in Baby's Eyes for Scaly Eyelids and Granulation.

Doctor (to patient)—"Your heart is rather irregular. Have you anything that is worrying you?" Patient—"Oh, not particularly. Only that just now, when you put your hand in your pocket I thought you were going to give me your bill."

No Reasonable Man expects to cure a neglected cold in a day. But time and Allen's Lung Balsam will overcome the cold and stave off consumption. Cough will cease and lungs be sound as a new dollar.

"Look, Henry; mamma has sent me her portrait. It's a very speaking likeness." "Good gracious! is it? Hang it in the attic, then."

Only One "BROMO QUININE"
That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Used the world over to Cure a Cold in One Day. 25c.

BALLOON DANGERS.

The enthusiasm with which the science of aerial navigation is now studied has led, among other things, to more careful observation of the effects of atmospheric electricity upon balloons and other airships. The recent experience of Lieutenant Gruber with a balloon held by a long wire cable indicates one of the dangers that are to be guarded against. The cable having been broken by a gust of wind, the aeronaut found himself carried rapidly up into a storm-cloud. Suddenly the balloon began to fall, and Gruber saw that the envelope was burning. Fortunately he reached the earth in safety. Monsieur Boulanger, president of the "Aero-club du Nord," recently took three passengers on a long flight, during which they found themselves involved in a storm-cloud. As long as the rain lasted about them they were subjected to electric shocks, and sparks played all over the balloon.

Save the Baby—Use

PISO'S CURE

THE BEST MEDICINE FOR COUGHS AND COLDS

Should be given at once when the little one coughs. It heals the delicate throat and protects the lungs from infection—guaranteed safe and very palatable.

All Druggists, 25 cents.

DOUBTLESS.

No doubt a lot more women would marry for home if they could do it without encumbering themselves with husbands.

There are a number of varieties of corns. Holloway's Corn Cure will remove any of them. Call on your druggist and get a bottle at once.

MUST BE CLEANED SOMEHOW.

Norah, the "green" cook, poked her head in at the dining-room door.

"Please, ma'am," she asked, "an' how will I be knowin' when th puddin' is cooked?"

"Stick a knife into it," said the young housewife, recalling the cookery-book instructions. "If the knife comes out clean, the pudding is ready to serve."

"Yis, ma'am!"

"And, oh, Norah!"

The young mistress had had an after-thought.

"If the knife does come out clean, you might stick all the rest of the knives into the pudding!"

Do not delay in getting relief for the little folks. Mother Graves' Worm Exterminator is a pleasant and sure cure. If you love your child why do you let it suffer when a remedy is so near at hand?

DRESSING SUSAN.

When Dorothy was four years old her mother said to her one day, "Now, dear, you are such a big girl that I think you should learn to dress yourself. That would help mother so much every morning, and every afternoon after your nap."

"Why, mother," replied Dorothy, "I don't believe I could do it, and besides, you know I have to dress Big Susan every morning."

Now "Big Susan" was the name of a great cloth doll, almost as large as Dorothy herself. Susan's clothes had once been Dorothy's own, until outworn or too small for the little girl, who delighted in dressing her big doll.

"O Dorothy," cried her mother, "I'll tell you how to do it! Let's play every morning that you are Big Susan, and then it will be as easy as can be to dress yourself."

Dorothy laughed, and thought that would be great fun. So the next morning she called herself Big Susan, and all the clothes went on so easily it was just like a game. Mother only did just a little buttoning, where Dorothy could not reach very well, and praised her small daughter for being so helpful.

And after that Dorothy dressed herself all alone every day. Although the big doll's clothes were sometimes not changed for days at a time, Susan never seemed to mind a bit.—"Youth's Companion."

TESTIMONIAL:

Dear Mr. Marlatt:

"About eleven years ago my hair commenced coming out in patches, and continued to do so until I was completely bald. I have now used your preparation for six months and have pleasure in stating that my head is completely covered with a good growth of hair. The gentleman who persuaded me first to come to you is surprised that I have obtained such good results in so short a time, although he had complete confidence in your preparation before I began its use.

"I consider Marlatt's Hair Promoter a wonder, and can fully recommend it to any person losing their hair or who is already bald. Enclosed please find two photos, one taken before treatment was commenced and the other six months later."

Yours very truly,
EDGOR McCARTHY,
629 Deleware Ave., Toronto.

We have Hundreds of Photos showing similar cases which will be cheerfully furnished on application.

J. W. MARLATT,

HEAR WHY WE SPEAK FOR Zam-Buk

THE GREAT HERBAL BALM

INJURED FOOT CURED.

"I speak for Zam-Buk because it cured me of a terribly bad foot," says Mrs. Alice Berryman of 190 John St. North, Hamilton. She adds: "The injury was caused by a wagon wheel, and the sore was on my right foot. It became very inflamed and swollen and so painful that I fainted away. In spite of treatment, the wound got no better and the foot became more and more swollen until it was several times its usual size. The flesh was terribly bruised and blackened and it was quite impossible for me to walk. My husband's mother at last brought me a box of Zam-Buk. This was applied to the foot and it was surprising how soon I found relief from the severe pain. A further supply of Zam-Buk was obtained and I persevered in using this balm alone. In a couple of days the swelling had gone down considerably, the discoloration was less distinct and the pain was banished. In four days I could go about as usual: the bruised and injured foot had been thoroughly cured by the timely use of Zam-Buk."

Did you ever ask yourself: "How is it that Zam-Buk is so popular?" It is because it is superior and different to other salves. Contrast them! Most salves are nine-tenths animal oil or fat. Zam-Buk hasn't a trace of animal fat in it. Most salves contain mineral coloring matter. Zam-Buk is absolutely without! Many salves contain poisonous astringents. Zam-Buk doesn't.

Zam-Buk is actually more powerfully antiseptic than crude carbolic acid. Yet it stops instead of causing pain and smarting when put on a wound.

It heals more quickly than any known substance, abscesses, ulcers, eczema, blood-poisoning, cuts, scalp sores, chaps and all skin injuries and diseases. All druggists and stores sell at 50c a box or Zam-Buk Co., Toronto, for price. Send 1c stamp for trial box.

POISONED FINGER HEALED.

Mrs. Frank St. Denis of 305 Thompson St., Winnipeg, speaks for Zam-Buk because it cured her of a poisoned finger, which had caused her days of agony. Hear her experience. She says:

"One morning, while washing, I felt a slight pain in the end of my finger. This gradually got more acute until by the evening of the next day the end of the finger had become swollen and hard and so blue I became alarmed.

"The pain from it was almost too much to bear. It made me turn quite sick! Poultices of first one kind and then another were applied, but seemed to give me no relief. My daughter-in-law, who had had some previous experience with Zam-Buk obtained a box for me. I anointed the sore place liberally with this balm, and in a few hours, the throbbing aching pains were subdued."

Further applications of Zam-Buk gave me more ease, so that I could get a little sleep. In a few days the nail came off, but after that Zam-Buk seemed to reduce the inflammation quickly. I continued its use until in the end it had brought about a complete cure.
