CREAM

There is still a tremendous demand for butter and prices are good, and likely to stay that way. So, by a little extra care in the feeding of the herd, production can be stepped up, and by so doing, receive larger profits from the herd, and especially if you market your cream at the Flesherton Creamery, where you are guaranteed all that is in your cream. Bring in your eggs with the cream.

We are still in the market for fowl and chickens, alive or dressed, and will pay top market prices.
