Second Grade Cream Prices Are Lower

We would like by this means of notifying our Cream Patrons to take extra care of their cream. Starting Tuesday, March 1st, there will be a difference of 26 cents between first and second grade cream.

We would like to suggest just a few important points about the care of your cream, so as you can reap every cent possible:

(1) Be sure that all utensils are clean and scalded.
(2) Milk before feeding
(3) Do not leave milk or cream sitting around the barn, so as to absorb the stable flavors.
(4) Do not mix hot cream with the cold.
(5) Stir can each time you empty cream into the can.
(6) Keep cream in a cool place.
