Every newspaper wants to publish the news. The better the paper the more prosperous it will be. Local news items are especially hard to run down. How many times have you, dear reader, been approached by the newspaper man for an item of news and told him that you knew nothing of interest. Probably at the time your family was away on a visit or some one from out of town was visiting at your home. Of course you didn't mean to deceive the scribe, yet when you received your paper you wondered why your family or friends were not mentioned. A good way to avoid all of this is to kindly inform The Advance of the facts, or drop a note in the post office to the paper. The one item may not amount to much but several columns of such news is the life of a local paper.

A lady sent to Eaton's recently for a certain article and on its arrival found it to be of a very inferior grade to what she expected. As the same article of a superior grade is kept on sale in town at about the same price it occurred to the lady that it would be a good scheme to make an exchange with the home merchant, and she actually had the assurance to approach him with that end in view. The merchant did not quite drop dead, but you could have knocked him down with a feather. The ruse did not work. Creemore Star.

Catarrhal Bad Breath

Corrected Quickly by the Use of

Catarrhozone

Catarrh is an inflammation. Where there is inflammation there is always more or less offensive secretion. Inflammation may be of the very active sort, but it is often of the slow kind, and this is the particular form in which the breath is rendered offensive and the presence of the sufferer becomes an offence to every person of delicate sensibility.

Bad breath is in itself sufficient to urge you to correct it, because one dislikes to be unpleasant to their friends, but this form of catarrh is dangerous because it supplies a hotbed for the development of Consumption or of other diseases of the throat and lungs.

Bad breath is an evidence that the microbes have found a good resting place and are carrying on their evil inroads into the health of the body.

Catarrhozone acts at once and destroys these minute organisms, but it does more—it heals the inflamed surfaces in which they found a nesting place and consequently removes both cause and effects of their action.

If we only highly estimated the value of prevention and used Catarrhozone at the beginning of a cold or just before it becomes well seated, the deadly ravages of Consumption would be stayed and the terrible agonies of sufferers of Asthma or Bronchitis completely abolished.

There is no remedy as effective for bad breath, Catarrh, Bronchitis, Asthma, etc., as Catarrhozone. Besides being healing and soothing it is germ destroying. Nothing ever offered to the public can compare with it in its promptness, efficiency, and permanency of action, and you can buy it from any dealer in medicine throughout the Dominion of Canada, 25c, 50c, and $1.00 sizes. By mail from The Catarrhozone Co., Buffalo, N.Y., and Kingston, Ont.
