County Council

Mr. Bennie presented report No. 3 of the Finance committee. This report recommended that treas. statement of final distribution of the surplus funds under railway by-law 174 be received and printed in the minutes, and that the treasurer distribute such monies to the several municipalities composing the group, as per statement presented. The report contained the annual report and financial statement of the South Grey Farmers' Institute, and recommended that this report be received and filed. An account was presented from the treasurer of Owen Sound asking for refund of $23.50, the said amount being the cost incurred by the medical examination of and the conveying of an indigent to an asylum. The committee recommended the acceptance of the county treasurer's statement. The total amount of the estimates for the year was $35,820. It is made up as follows: For educational purposes—Owen Sound Collegiate Institute, county equivalent to government grant, $1,350; county's share of maintenance, $1,250—total $2,600. Meaford high school, county equivalent to government grant, $740; county's share of maintenance $500 Public school inspector 2,600, less entrance fees of $130, leaving total of $2,475. Model schools $450. Teachers' institutes $75. Townships treasurers' commissions on school monies, $117. Probable rebate on towns paying their own inspector, $200. The administration of justice cost the county $12,250. Under this head we find the following amounts: jury expenses, including coroners' fees less reimbursements by the Ontario Government, $3,850; crown and medical witnesses' fees, $1,225; industrial schools at Mimico and East Toronto, $625; division court, $100. The cost of fire and light was $1,325; of registry offices, $200; of alterations and repairs $840; of county council sessions $1,000; of printing and stationery $350. The salary and expense account amounted to $2,300. County grants to agricultural and other societies amounted to $1.200. The cost of bridges and their appurtenances was $3,500; contingencies $300. The total of these amounts, less probable revenue from licenses of about $1,350, amounts to $31,500. The shortage of $2,000 reported at the December session plus bylaw 423 and 463 bring the total estimates to $35,820. The report passed committee without amendment.

Mr. Jno. McDonald, of Chatsworth, presented report No. 2 of the County Property committee, recommending that the balance due on the estimates of stone in the jail yard be paid, and that the chairman carry out the instructions of the committee re printing of the books of the Registry Office of South Grey; that the chairman advertise for tenders for the supply of stone for the jail yard, the stone to be delivered at such times and in such quantities as required; that in view of the presentment of the Grand Jury of the Spring Assizes of 1897, the county buildings be roofed. The committee drew attention to certain improvements lately made in the county buildings, as regard painting and varnishing the county attorney's room as well as several other rooms having been painted. A gratifying feature of this work was the fact that it did not cost the county a cent, it having been done by a prisoner who was an expert painter. The county, of course, had furnished the material whereby the work was done.

Mr. Richardson presented report of the Education Committee, which recommended that the semi-annual report of the Public School inspector of South Grey be received and printed in the minutes, and that the inspector be granted leave of absence to visit Great Britain. The committee had before them an appeal from Richard Barber and five other ratepayers of school section No. 1 and No. 14 and No. 2 in the township of Normanby, and from Geo. Morrison and five other ratepayers of school sections No. 1, No. 3 No. 4 in the township of Egremont, against the action of the township council of Normanby in refusing to grant an arbitration. The committee had in their hands also contra petitions. The committee recommended that no action be taken.

It was moved by Mr. Binnie, and seconded by Mr. Senenk, that the December session of the council to be held in Durham. The motion was lost.

On Friday afternoon Mr. Binnie presented report No. 4 of the finance committee, recommending the following grants: The North, South and East Grey Agricultural Societies, $200 each; the North, South and East Grey Farmers' Institutes, $25 each; the Owen Sound Poultry and Pet Stock Association, $50; the North, South and East Grey Teachers' Institutes, $25 each; the Children's Aid Society, $50. The applications of the Central Agricultural Society, the Ayton Agricultural Society, and the Grey Rifle Association for grants were not entertained. The committee recommended that Messrs. Macdonald, Anderson and Sing be authorized to employ some competent men to act in conjunction with the Beet Sugar Co. in their respective neighborhoods to certify to the quantity of beets grown to the acre this year, but that they do not expend more than $25 each. The report was discussed in committee of the whole, when Messrs. Quance and Brown moved that the Central Agricultural Society be granted $50. After considerable discussion this motion was lost, and the report was adopted as read.

The county property report No. 3, presented by Mr. Mcdonald, recommended as follows: (1) That James White's account for flowers for the court house lawn be paid. (2) That with regard to the communication of county constable Noble for a supply of handcuffs that the committee do not think that the county is responsible in this matter. (3) That tenders for a bookcase, a desk, and three cloth covered tables for the registry office be called for, and that certain minor repairs be made to the jailor's residence. (4) That a telephone be placed in the jailor's office at a rental of $25; that extension bells be put to the office of Sheriff Moore and Mr. Inglis at a rental of $2 per year each. (5) That ten incandescent lamps be placed in the jail at a cost of $2.50 for installation, and the metre rate be charged for the quantity of electricity consumed the ealter, and that a contract be entered into with the O. S. Electric Light Co. to that effect. The report was adopted as read.

The report of the Road and Bridge committee recommended. (1) That this council continue to carry out the intention of bylaws No. 363 as amended in 1887, which provides for the equalization of the cost and maintenance of bridges on town lines as between the several local municipalities, each such local municipality being credited with a sum equivalent pro rata according to its equalized assessment to the largest amount spent for the maintenance of such bridges in other municipalities. (2) That bylaw No. 359, appointing the reeves and deputy reeves overseers of all line bridges, be repealed, and that the county council be appointed in their room and stead. The vote was a tie, and the chairman, Mr. Preston, gave his casting vote in favor of the recommendation of the report.

Mr. Binnie introduced bylaw No. 535 to levy a rate to meet the current liabilities of the county for 1898. The estimated expenditure is $35,811, and to raise this amount a levy of 1.7-95 mills on the dollar will be required.

Mr. Gordon introduced bylaw 536, a bylaw to appoint road commissioners in accordance with recommendation of the road and bridge committee. Both bylaws were read a first and second time and passed through a committee of the whole. The council then adjourned.

Saturday morning Mr. Richardson presented report No. 2 of the Education committee, recommending the adoption of the semi-annual report of the public school inspector of South Grey. The Printing committee had two recommendations: (1) That John Rutherford's Sons be paid certain sums amounting in all to about $14.95, and (2) that as far as possible the county printing be given to Mr. Glendenning, of Dundalk, his tender being the lowest.

Mr. Binnie, chairman of the committee appointed to consider the advisability of making a grant to the General and Marine Hospital, presented a very able report, in which the work done by the hospital was carefully reviewed. The committee recommended a grant to the hospital of $[illegible]00.

The warden read a petition from Samuel Cobean, who asked the council to grant him the financial means of procuring artificial appliances which would enable him to procure his living. The matter was laid over till the December session, in order to give the council the means of getting fuller information.

Bylaws 535 and 536 were read a third time.

It was moved by Mr. Bishop and seconded by Mr. Sing, that a plebiscite be taken in January next to ascertain the wish of the people in the matter of building a house of refuge for the homeless and friendless, aged and infirm of the county.

On motion of Mr. McColman, the clerk was asked to obtain all possible information as to the manner in which each municipality supported its indigent poor. The very fullest information was asked for in order that it might be before the council at its December meeting and ready for the people by January. This was the last business of the council.

Another mastodon has been unearthed in Simcoe county. While digging a drain through a swamp on his farm Charles Challand came upon part of the remains of a mastadon. He found the two horns, one of which measured eight feet six inches in length, and weighed over two hundred pounds, the other being somewhat smaller, also a tooth measuring seven inches in length, and four inches across the base. Some other portions of the skeleton were also found, and no doubt the whole skeleton could be found by digging around where the others were found. Ribs and a portion of the head were discovered later on. A calculation has been made which shows that the mammoth must have been at least thirty feet in height, and sixty in length. In that case the head would be about ten feet long, and the ears about 8 x 5 feet.
