A Discovery of Vast Importance

It Is Now Admitted That Bronchitis, Asthma, Catarrh, Coughs, and Colds Can Only Be Quickly Cured By Mixing a New Medicine With the Air You Breathe.

Scientists acknowledge that medicated air treatment is the only treatment that will cure these diseases, and that stomach medicines are worse than useless.

Catarrhozone air treatment has been found to be the most effective way to cure all diseases of the throat, lungs, and nasal passages. Its action is so prompt that in less than an hour an ordinary cold is cured, and after a more thorough use of Catarrhozone, Bronchitis, Catarrh, and all diseases of the throat and lungs are completely cured.

Catarrhozone is a very simple and powerful method of treatment. You simply breathe it through the inhaler and it immediately passes over every air cell of the throat, lungs, and bronchial tubes, curing and healing as it goes.

Catarrhozone treatment affords little drops of healing for sore places in the lungs, throat, and nasal passages.

Walkerton

A citizen, noticing that a robin was heartily dining off a decayed apple in his back yard, while the ground was frozen and covered with snow, suggests that all citizens who love the cheery redbreasts should look through their cellars and throw out into the yard all decaying apples and other spoiled fruit for their benefit. The robins are playing in hard luck these days. Give 'em a chance.

Judging from the meat bill at the Walkerton jail for the past three months, which fell to the almost insignificant sum of $2.08, judging from the meat bill the criminals of Bruce are just nibbling at the bait. In less happy days and when business was more brisk around the jail it was nothing unusual for the meat bill to reach the respectable sum of $20.00 for the same quarter, but while the butchers have increased their prices the jail has decreased its prisoners, until the opening three months of the year of grace 1911 finds the demands of the institution barely exceeding $2 for the flesh-pots.

Two men from Michigan who arrived here last week are canvasing the neighboring concessions selling seed peas, on condition that they get the entire crop at $1 per bushel, less the amount that the original seed cost. This is to encourage the farmers to grow peas. They have found it difficult to get good seed in the past, although the pea crop has increased in the last two or three years.

Not wishing to give the school children of Walkerton another free treat such as they indulged in at his expense last week, when his delivery horse ran away with the fruit wagon here and strewed oranges and bananas along the street; not wishing to give the school children another treat, Marco Alessandro, the Italian fruit dealer, exchanged the unruly steed with R. Truax & Son this week for a quieter driver, and one that is not likely to riotously scatter its master's fruit so dangerously near the rapacious jaws of the young hopefuls of the town.—Bruce Times

One of the leading farmers of Nichol went to Toronto last week to get a farm hand from a list of immigrants just arrived there. He felt himself fortunate in securing one and returned pleased with his trip and the results. Upon arriving home he asked his Scotchman if he could milk, and receiving answer in the affirmative, both proceeded to the barn. The proprietor saw his man place the pail under the cow and then proceeded with his. After finishing he went to see how his new man was doing and found him with the empty pail still under the cow, and staring in blank amazement that there was nothing doing. We have not heard if the proprietor has since taught him the trick or not.—Fergus News-Record.

Returns from all the Presbyteries but two show that 52 of them have either voted against, or given a modified answer. The total number of votes recorded in favor of union is 916; against, 440. This indicates pretty nearly the general attitude of the Presbyterian Church on the question. With a vote of two or three to one against them should not the opponents of union withdraw their threats of disruption, especially as the glory in they spirit of unity, which is union in the abstract?
