At last the joyful time has come when the daily press no longer dishes up its usual morning slice of Turkey with Greece sauce. Let us hope the neglect will continue—at least until next Thanksgiving Day.

A subscriber at Wabigoon writes: "What in—Wabigoon—has become of my paper?" etc. Now we do not wish to cast any reflections upon Wabigoon, but would like to ask the writer if he means to insinuate that it is synonymous with the other bad place?

The electric disturbance of Tuesday appears to have been general over Ontario, reports of conflagrations coming from Hanover, Ripley, Port Elgin, Paisley, Clarksburg, Peterboro and Lindsay. The storm was a phenomenal one. This is a phenomenal year, any way, and, so far as we know, science cannot satisfactorily explain the causes of such seriously changed conditions from year to year. Last year it was a drouth, this year we are nearly drowned out. There is one great consolation left us, however; continued rain is sure poison to bugs and grasshoppers.

Far away fields are still green, Thousands of longing eyes are now gazing towards the frozen north, and thousands of feet are carrying their owners towards the wonderful Klondike. The government has established a postoffice service and police patrol in this region and will exact a royalty on all gold mined to pay for the same. No man can go into the region now unless he carries with him a year's provisions. Prospectors are pouring into the country in a manner that reminds one of the famous '49 California stampede. There appears to be no doubt that the inducements are quite as great as were those of California, but the hardships to be encountered are tenfold, and only those of exceeding robust constitution should dare them.

Premier Castillo of Spain was shot by an anarchist on Sunday in revenge for the death of the Barcelona bomb throwers. Anarchism and bombthrowing are distantly European institutions which are not desirable shrubs to transplant to this continent. The anarchist is to be found here, however, and he tried his little pastime of bomb throwing at the haymarket, Chicago, a few years ago, when he was sat upon so suddenly that the game has never been repeated. This particularly poisonous fungus should be crushed in a similar way in its native land. At present neither president, prelate or king, appears to be free from danger, but the recent execution of about twenty anarchists at Barcelona and the extinguishing of this fiend may go a long way towards ridding Europe of the rest.

LIGHTNING PAIN HUNTER

H. HEITMAN ESQ.

DEAR SIR,—One of my girls awoke me the other night saying, "Pa, I can,t get my breath," I got up and put some Lightning Pain Hunter on sugar and gave it to her, and in fifteen minutes she was better and slept soundly the remainder of the night. I believe it to be the best medicine sold for croup, coughs, colds, sore throat, sprains, bruises, scalds, old sores, cuts, etc. Lightning pain Hunter cures so many diseases that almost every one in these parts uses it. I believe it to be the best medicine in the world, and I write this that others may know what it has done for me. I always keep a bottle in the house to be ready for an emergency. Yours truly

MRS. G. WHITEOAK, Feversham, Ont.

Above is one of the many hundred testimonials pouring in, telling of the curative powers of Lightning Pain Hunter.
