THE STANDARD.

Friday, Dec. 3rd, 1880.

NOTICE.

THE Canada Advertising Agency, No. 29 King Street West, Toronto, W. W. BUTCHER, *Manager*, is authorized to receive advertisements for this paper.

TO ADVERTISERS.

WE have decided to print a supplement in connection with the STANDARD a week before the Holidays, as there is an extra amount of advertising done at that season of the year, and we do not want to decrease the reading matter, we will give those who wish extra space, liberal terms, by means of a half sheet supplement, parties wishing to take advantage of the arrangement will please let us know in good time.

THE Reeve Artemesia, from present appearances, is determined to tree *that coon*. Keep at it, Doctor; patience and perseverence, you know, overcome all obstacles.

DR. Christoe says this week he thinks he could whittle off an Editor before breakfast. Unless the Doctor is more expert at whittling Editors than he is at *tressing coons*, his fast would be of longer duration than was that of Dr. Tanner.

The Reeve of Artemesia is out with another excuse for throwing out *that petition*. He says that a *large* number never signed the petition. We ask is it likely if such means were adopted by those interested to secure the requisite number of signatures, would they have permitted the list to be published, thereby affording an opportunity of being detected.

SUCCESS CERTAIN.

It is said that Baron Rothschild had the following maxims framed on his bank walls:

Attend carefully to details of your business. Be prompt in all things. Consider well, then decide positively. Dare to do right. Fear to do wrong. Endure trials patiently. Fight life's battle bravely, manfully. Go not in the society of the vicious. Hold integrity scared. Injure not another's reputation or business. Join hands only with the virtuous. Keep your minds from evil thoughts. Lie not for any consideration. Make few acquaintances. Never try to appear what you are not. Observe good manners. Pay your debts promptly. Question not the veracity of a friend. Respect the council of your parents. Sacrifice money rather than principle. Touch not, taste not, handle not intoxicating drinks. Use your leisure time for improvement. Venture not upon the threshold of wrong. Watch carefully over your passions. 'Xtend to every one a kindly salutation. Yield not to discouragement. Zealously labor for the right, & success is certain.

CURE FOR DIPHTHERIA.

We have been requested to publish the following. The party sending it assures us it was found out by much research and experience.

"Take of hemlock and birch bark, of each an equal quantity. Remove the rough out side. Green osier, half the quantity, boil slowly, each in a seperate vessel, (iron will do,) until the strength is extracted. Strain and settle, then evaporate slowly until like syrup, mix altogether, gargle the throat often no matter if a little is swallowed. If there is haste, may commence gargling before boiling it down. May add a small quantity of burnt alum, and between times dust a little brimstone in the throat.

IMPROVEMENT IN PRICEVILLE

It is not our intention to attribute to the N. P., or any other extraneous cause, the marked improvement in the development of Priceville during the past Summer. We would be more inclined to give the praise to the inherent energy of its citizens, and the development of the natural resources of the country.

A very large number of the better class of private dwellings have been erected and completed. The Methodist Church, although commenced last year, is now completed, and forms an attractive feature in the picturesque beauty of the village, commanding, as it does, a prominent site, as seen from the approach from Flesherton Station. Additions have been made to several of the merchantile stores; and their closely packed shelves and crowded warehouses betoken a healthy prospect for trade during the winter. The most prominent of the improvements during the past summer is the Brick Block erected by Alex. Brown, Esq., which is not surpassed for symmetry of design or architectural beauty by any country village in the County of Grey, and has been leased for a term of years by Mr. Geo. Tuck, as an hotel. Priceville has long suffered for the want of a first-class hotel, more especially in the lack of proper accommodation in connection with the monthly Fairs held there. The Bar is ample and commodious, while the parlors are fitted up in magnificent style. The sample rooms for the accommodation of Commercial men are spacious and well lighted. The house is capable of entertaining over one hundred guests. The dining room is finished *al frescoe*, and is in proportion to the rest of the building, and complete in all its appointments; while the culinary abilities of Mrs. Tuck form by no means the least attractive feature of the bounteous table it was our pleasure to regale the inner man at a short time ago. A large yard for the keeping of cattle, brought for sale on Fair days, in rear of the hotel, will be found most acceptable, especially in stormy weather, the cattle being enclosed so that they cannot stray away, thus avoiding the unpleasant duty of "herding."

The Grist Mill, now under the control of Mr. H Somerville, is doing an excellent business, turning out a quality of flour unsurpassed in the country; and the farmers aver, a good yield. The Saw Mill is conducted by Mr. John McLeod, where lumber, lath and shingle are turned out by the million. Two new saws have been added in order to meet the increased demand.

A Brick Yard is in contemplation, and from the business character of Messrs. Webster (merchant of this Village) and Vert, (of Flesherton) there is little doubt but that it will be pushed forward with energy.

Mr. C. C. James has made extensive additions to his tannery and harness-making establishment, and could give him employment to additional men in both branches. This speaks volumes for the industrial resources of both town and country.

There are many minor branches of business which could be extended, or additional branches in the same line successfully commenced.

FLESHERTON.

From our Correspondent.

ELDER HAWKINS.—Elder Hawkins will preach in the Methodist Church at 11 a. m., and 6.30 p. m., on Sabbath the 5th inst. A special collection will be taken up at the close of each service.

ANNIVERSARY — The Presbyterian Congregation of Flesherton intend holding their Sabbath School Anniversary in the Town Hall, on the evening of Christmas, the 25th inst. Large posters announcing the above will appear in a few days.

SKATING RINK.—The Flesherton Skating Rink is now in first-class order. The ice is all that could be desired. Mr. F. Sarjeant, has spared no pains or expense in making it comfortable. He has secured the services of a first-class band to be in attendance. This will be a great acquisition to the evening's enjoyments.

Good beech and maple stove wood (two feet) is selling at 80 cents per cord.

BREVITIES.—The Council meets on 6th inst., in the Town Hall.....The Public Schools of Flesherton have a large attendance.....Two ladies "lost their heels" at the rink on the 24th ult.....Mr. Doll has his jewelry shop filled with a very costly stock of Christmas goods.....Mr. M. Richardson has his stock of winter goods opened out.....Messrs. Sproule and Trimble are buying a large amount of grain.....Mr. Damude has a new sign on his harness shop.....Very cold weather.....Mr. Hooper has bought the furniture show-rooms and dwelling house of the late Mr. M. E. Merriam..... Coal Oil is 40c a gallon in Flesherton.

From another Correspondent.

The grain market has been unsually lively during the past week, consequently all kinds of business is brisk.

As the holidays draw near the customary programme of Socials, Concerts, &c., are the order of the day. The season is to be opened on Monday next by the Elder Hawkins Troup in the Methodist Church, when it is expected we will hear something to superceed "One More River."

The Skating Rink is now in full blast, and under the management of Mr. F. Serjeant promises to become very popular The tickets have been placed very low, and withing the reach of all. A number of our musical young men have formed a quartette band, and are practicing for the purpose of playing on the Rink one night in the week; also at masquerades, which will, no doubt, be quite an attraction.

The railway bonus is the subject of discussion at present. The farming class appear pretty unanimous against it, while the majority of business men are for the by-law.

EUGENIA.

From a Correspondent.

The mail carrier on his route from Meaford to Flesherton, reports to-day, that while delivering the mail at a post office in the Township of Euphrasia, he left his whip in the cutter, when he came out with the mail to resume his journey he discovered that the whip had disappeared, he had only been absent a few minutes. He offers a reward of $2.00 for the recovery of it. Sharp practice in broad day light.

Strong gales. Heavy squalls. Lots of snow. Every appearance of plenty of sleighing. Vennor could not give you any better idea of the weather than that.

We are sorry to have to report the death of the old and respected mail carrier Mr. John Benson, who was burried yesterday, Sunday, and was followed to his last resting place by a large number of orange brethren, he being a prominet member of the orders having been district master for a number of years. Eleven lodges of the district attended the funeral. Mr. Benson's familiar face will be missed on this route. He was noted for his quiet and retireing manner by all who knew him.

Cupid that sly young imp has been at work among the bachelor fruterity again. Mr. Adam Smith has at last succumbed to his influence, and has taken Miss. Kate Williams for better or worse, no doubt the late cold snap had something to do with it, as keeping bach hall is not the thing in such weather. We wish them many happy days.

A few days ago the school children of this place were given a rather practical lesson, little calculated, however, to impress on their tender minds the sentiment embodied in the celebrated lines written by Dr. Watts, commencing "Let dogs delight to bark and bite, &c. It appears that two neighbors children fell out at school. The mother of one of them, a matron of middle age, on seeing the other child, made a dash for it, weapon in hand, which she plied in a truly gymnastic style, which indicated anything but the longevity of the assailed, while the organ of articulation became clogged from excessive use; not sufficient, however, to prevent her from giving utterance to the high estimation in which she held the child and at its parents in language more emphatic than polite. Such occurrences, we are happy to say, are very rare in our midst. No proceedings have as yet been taken.

Correspondence.

NOTICE.—We wish it disinctly understood, that we do not hold ourselves reponsible for the opinions expressed by our correspondents.

T. G. & B. R.

To the Editor of the STANDARD.

SIR,—I should feel highly honored, to find myself in company with so distinguished a gentleman, who has discussed public questions, with men of *intellect* and *morals*. The old adage is, "like begets like"—and I have been viewing *Robertson* in spectacles and every other possible form—to find as, the doctor would say, the *sequences*—alas! They are "non est."—Robert Robinson's pretences to *intellectual* affiances and moral perfection, must fall flatly, in the face of the facility, motives are impugned and information to the Assessor withheld. You see, the difference is, as to whose ox is gored. My friend's self adulation and sympathetic waile, to his friends—is really pitiable. I am sure Artemesia should pay heed henceforth and grant my friend the boon he coveted some time ago. She has hitherto overlooked this prodige of high intellectual and moral associations. There Robert, let that do. I was going into that assessment again, but I hadn't the heart, to be too severe on an old friend. Come now to the point at issue, this R. R. question. We accord, in so far as, the desirability to have the improvements sought—but we differ, as to whose duty, it is to do it. The history of the past is known and need not be repeated. The By-law was defeated six months ago. Mr. R. says, "a very general desire was expressed, for it to go into the hands of the G. T." This is only true in part. The prevalent idea was to urge it into the hands of a new company as bona fide owners—not by lease—hence the conditions as then expressed, do not exist. The bonus is not asked, for the Grand Trunk, but for the old Company, against whom there were so many complaints; true or not, I could not say. There is therefore a very great difference between a mere lease-holder and a real proprietor. A R. R. might pass through the most carefully drawn lease, Mr. R. views the matter from two stand-points. 1st "Whether, in common justice, we are called upon to help those men who run the road out of their difficulties." 2nd "Will it pay us to help them?" Friend Robertson is great on this principle of *common justice*. This principle is based upon the supposition that the road is *ours*. It *is* ours in the sence, that Flesherton mills are ours and that it is advantage to us—but their is no proprietorship, no control—and as it now stands, you cannot make any sort of condition—and then, the road *can help itself*—please put a pin in there; there is where the whole thing hinges—and it is mere bosh to talk about injustice—what pledge has been broken—injustice is it to refuse to grant a gift to one of the best paying institutions in Canada? And who have made or are about to make ample provisions, to do the work required themselves, I will not repeat the figures, this has been done again and again and even, my *intellectual* friend has not controverted them nor can he—it is well enough to make side issues, to divert the attention but the sober facts are as stated. His second question has no force whatever—for if the conclusions above be correct, the *pay* comes all the same—in every particular. "The money he says would be spent among ourselves, and our young men instead of having to flock to the States in search of work, would find it at home for one season. Of course a person whose heart is overflowing towards the company, doesn't stay to weigh facts. Pray friend! "How much work is to be done on the railway? How many boys would it employ? And how long? Yet such is paraded for argument. I am asked to prick them look at the estimate, revised by Messrs. Gzowski & Shanly. "Sundry deviations and changes of grade," $7,000 over a track of 200 miles. Seven thousand dollars to keep our young men from the States! Bosh—I don't suppose $100 would be spent in Artemesia. The greater part of the expenditure wil be for rails, ties, bridges, engines and the like, to be performed by skilled R. R. hands. His [illegible] an idle [illegible] they are gone. I [illegible] in the STANDARD, that [illegible] to be made, to the [illegible] to confirm certain [illegible] to be [illegible] It will be remembered that some time ago I forewarned what Parliament might do—and I Artemesia had granted $20,000 then you see she could not back down—if no other township had given one cent. The council of Artemesia feels proud to know that the vast majority of the ratepayers support them in their action on this R. R. question. I admit, that I am under an obligation to you for the use of your columns—but sir, a great many of your readers are opposed to a bonus, and I am solicted on every hand, to answer, from the surrounding six townships, at least two to one are opposed to this bonus, many of whom are your subscribers, who wish to hear both sides. I have been urged all around, to keep up the correspondence and congratulated on the effort. The mal-treatment I have received however is not so very pleasant. I can assure you, your couse is very suicidal to your interests—to be found out too late, but it is your own business. I regret any personal collisions, for altough I might be able to whittle an editor, easily, before breakfast, you would not permit it—you are master of your own castle. But I have no disposition—fair play is all I ask. How is it, that every statement of mine is *false*, and I am a person of such and such characteristics? What necessity is there for such accusations? If the generally supposed amiable and quiet minded *proprietor* and the *editor* be identical—then I certainly was "barking up the wrong tree." I could then account for the calibre of the aricles—but perfectly dumbfounded at their morality. Just one word of explanation regarding, my *wilful mis-statement*. I said after "necessay reductions" there were about 100 remaining—I suppose it did not strike you, that besides the 12 or 15 non-property owners—some sheets might have been *bogus*—as it would appear—one list in particular containing a large number of names with one or two exceptions not signed at all, by the parties therein named—what would any council do with such a list? Why throw it out. Where then does the *false statement* come in? I certainly did not intend to charge you with anything *false* in reference to Howland & Co's. letter. Your comments were quite natural; but I saw this letter weeks ago in the "Owen Sound *Times*." It was an hackneyed thing, before you printed it. My criticism was on the letter, not on you—no reader of intelligence, I think, could construe my remarks otherwise. Write up the railroad weekly sir, there is plenty of room without personal wrangles. I finish by stating, that I am neither an enemy to Markdale or the road I have such unbounded confidence in its ability to fix itself that my effort has been and is, to compel it to do so.

DR. CHRISTOE.

BIRTHS.

In Markdale, on the 18th ult., the wife of Thos. Hill, merchant, of a son.

In Markdale, on the 28th ult., the wife of J. J. Graham, shoemaker, of a son.

In Glenelg, on the 14th ult., the wife of R. H. Boyce, of a son.

In Dundalk on the 15th ult., the wife of John Hanbury, of a daughter.

In Synghampton, on the 6th ult., the wife of Edward Blacksteck, of a son.

MARRIED

At the residence of the brides parents, on 1st inst., by Rev. N. A. McDiarmid, Mr. George Lyons Logan, to Miss Annie Elliott, eldest daughter of Mr. Robert Elliott, Euphrasia.

At Priceville, on 1st inst., by the Rev. D. McLeod, Mr. James Parks of Cookstown, to Miss Maggie Moffat of Osprey.

STRAYED

INTO the premises of the subscriber, Lot 125, Con. 2 West Toronto and Sydenham Road, Artemesia, about the 1st October, a Spring Heifer Calf, red and white. The owner is requested to prove property, pay charges, and take her away.

ROBERT BLAIR.

Artemesia, Nov. 26, 1880. 12-3i

Sarsaparilla.

Is a compound of the virtues of sarsaparilla, stillingia, mandrake, yellow dock, with the iodide of potash and iron, all powerful blood-making, blood-cleansing, and life-sustaining elements. It is the purest, safest, and most effectual alterative medicine known or available to the public. The science of medicine and chemistry have never produced so valuable a remedy, nor one so potent to cure all diseases resulting from impure blood. It cures Scrofula and all scrofulous diseases, Erysipelas, Rose or St. Anthony's Fire, Pimples and Face-grubs, Pustules, Blotches, Boils, Tumors, Tetter, Tumors, Salt Rheum, Scald-head, Ring-worm, Ulcers, Sores, Rheumatism, Mercurial Disease, Neuralgia, Female Weaknesses and Irregularities, Jaundice, Affections of the Liver, Dyspepsia, Emaciation, and General Debility.

By its searching and cleansing qualities it purges out the foul corruptions which contaminate the blood and cause derangement and decay. It stimulates and enlivens the vital functions, promotes energy and strength, restores and preserves health, and infuses new life and vigor throughout the whole system. No sufferer from any disease which arises from impurity of the blood need despair who will give AYER'S SARSAPARILLA a fair trial.

It is folly to experiment with the numerous low-priced mixtures, of cheap materials, and without medicinal virtues, offered as blood-purifiers, while disease becomes more firmly seated. AYER'S SARSAPARILLA is a medicine of such concentrated curative power, that it is by far the best, cheapest, and most reliable blood-purifier known. Physicians know its composition, and prescribe it. It has been widely used for forty years, and has won the unqualified confidence of millions whom it has benefited.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass.

SOLD BY ALL DRUGGISTS EVERYWHERE.

Apprentice Wanted.

WANTED, a Boy to learn the Blacksmithing. He must be a good active boy. Apply to R. HOWELL, Kimberly P. O., Ont.

36th YEAR.

THE SCIENTIFIC AMERICAN,

THE SCIENTIFIC AMERICAN is a large First-Class Weekly Newspaper of Sixteen Pages, printed in the most beautiful style, *profusely illustrated with splendid engravings*, representing the newest Inventions and the most recent Advances in the Arts and Sciences; including New and Interesting Facts in Agriculture, Horticulture, the Home, Health, Medical Progress, Social Science, Natural History, Geology, Astronomy. The most valuable practical papers, by eminent writers in all departments of Science, will be found in the Scientific American.

Terms, $3.20 per year, $1.60 half year, which includes postage. Discounts to Agents. Single coppies, 10c. Sold by all Newsdealers. Remit by postal order, to MUNN & CO., Publishers, 37 Park Row, New York.

PATENTS. In connection with the **Scientific American**, Messrs. MUNN & Co. are Solicitors of American and Foreign Patents, have had 35 years experience, and have the largest establisment in the world. Parents are obtained on the best terms. A special notice is made in the **Scientific American** of all inventions patented through this Agency, with the name and residence of the Patentee. By the immense circulation thus given, public attention is directed to the merits of the new patent, and sales or introduction often easily effected.

Any person who has made a new discovery or invention, can ascertain, *free of charge*, whether a patent can probably be obtained by writing to MUNN & Co. We also send *free* our Hand Book about the Patent Laws, Patents, Caveats, Trade Marks, ther costs, and how procured, with hints how to procure advances on inventions. Address for the paper, or concerning patents,
