PACIFIC RAILWAY.

Our Political contempories are busily engaged in discussing the merits and demerits of the Pacific railway bargain. The Grits on the one hand proclaiming that it will be the ruin of the country, while the Tories on the other hand as positively assert, that a better bargain could not have been made. For our part we think the bargain might have been bettered in some points; but on the whole it is far preferable to having the road built by the Government, be it Grit or Tory, and sincerely hope that it will be confirmed by Parliament as soon as it meets after the holidays. Further opposition to it, in our opinion, will be promotive of no good end, and only retard the business of the country, merely for the purpose of allowing windy members a chance of easing themselves of the heavy load of gas and buncome with which they are at present over burdened.

BETHEL LODGE G. TEMPLERS.

New England Correspondence.

The Bethel Lodge of Good Templers 7th line Euphrasia, held open lodge on the 22nd, which was one of the most successful affairs of the kind ever held by this lodge, there being several parties there from other neighborhoods. The lodge meets in the P. M. Mount Zion church, which was packed to its utmost capacity on this occasion. After a call to order by the President of the lodge, the choir sang an appropriate opening piece; after which the Rev. W. Walker load in prayer, then the President, E. E. Hicks, Esq., gave a very neat address, in which he extended a cordial welcome to all the visiting friends. To this succeeded a reading, well executed by Miss McAurthur, then a recitation, most admirably rendered by Miss S. Clark, which was followed by music by the choir, the a speech by J. Thurston, Esq., in which he made some strong assertions as regards the use of strong drink and tobacco, he was followed by Rev. W. Walker, who principly dealt with the advance of the temperance cause in the U. S., then a recitation by Miss M. Clark, which was also well rendered; music by the choir followed by a dialogue between Mr. Patton, Misses McKinley and Mr. Clark, speech by Rev. C. C. Garnett, whe dealt chiefly in local statistics, a reading by Miss McKinley, which was well received, was followed by more singing by the choir, then a very practical speech from Mr. Patterson, who dwelt chiefly upon the effect of example, a very appropriate song, well sung by Mr. Dodsworth, followed, then a reading by M. Patterson, Esq., and a recitation by Mr. Patton, both of which called forth rounds of applause, furnishing a lengthy but interesting programme. A vote of thanks, singing, doxology by the audience, and the benediction pronounced by Rev. C. C. Garnett, brought this very interesting and successful meeting to a close.

Correspondence.

NOTICE.—We wish it disinctly understood, that we do not hold ourselves reponsible for the opinions expressed by our correspondents.

To the Editor of the STANDARD,

As the R. R, question seems to be shelved for the present, I doubt not, everything will proceed in its ordinary course—and the harsh things written or spoken, will be forgiven, if not forgotten—It is needless for me to make further remarks—excepting, that as I stated in the *Mail* in substance, before the convention took place in Toronto, and afterwards in your paper or perhaps the *Expositor*—that the absence of representation from the townships comprising the group, meant more than indifference; such it has been. It was surprising to me, that the management could be so sanguine.

If myself with the ratepayers of Artemesia—in great preponderence—are deluded in this matter, then, it must be admitted, coincidence is remarkable, that so large a number, should be like minded, on both branches of the road, whom to call ignorant, policys seekers, would be mere rant.

Artemesia's Council, with one solitary exception sought to save her from another election and the ratepayers from loss of time; until after through ventilation in other townships were had; the merit and demerit of the scheme fully discussed; and judgment passed. The wisdom of our course fully appears.

Some townships defeating their by-laws and from others, they have been withdrawn. The very persons whose names appear on the petition approbating the course pursued—excepting it is true, a few self opinionated, ones, who can see no good thing coming out of Egypt—*Requiescat pace*, is the desire of the writer.

I can well afford to laugh at the fulminations, of my disappointed opponents, their missiles fall harmless at my feet—*Ichabod* is written on all their arguments. I confess that I am eclipsed by my erudite Priceville Crusoe—of *course* he places the word in my mouth—I presume the quiet village of Priceville was not aware she had in her midst such a *logical Tartan!!* The Flesherton "Labratory" *Laboratory*, I suppose is meant—has no physic strong enough to resolve his menstrosities into any fair proportions—Discuss questions with men of *intelligence* and *morals*! good heavens! if his recent productions be samples, the men whom he bored with them are to be pitied—he is becoming desparate—two articles in one week! I must have been mistaken in the idea conveyed in the couplet quoted the other day.—

"He baited his hooks with tigers tails
And sat on a rock and bob'd for whales."

If zeal, pugnacity, bombast, pretentious *moral* and *intellectual* associations and newspaper scribbling, can gain for him notoriety I am sure he will accomplish it.

I must beg to be excused from further contact—there is danger of contamination—besides I profess to be a plain man of the people—to get above my level would make me feel ludicrous—now Robinson, one word of advice before parting—remember the circumstances of the Kite—it might be your lot—and because a fellow happens to be, by uncontrolable circumstances a little lower in social scale, don't look with contempt from your high pedestal of *intellectual* and *moral greatness*!!

If I were to attempt to reply in extenso—it would be in effect replying to idiotic drivelling pathognomonic of dementic it would require a fool to succeed to which I lay no claim—besides it would be like laying a silk handkerchief before a certain bird—the struttings and antics would be wonderfull.—

Thanking you again for this space—I sign myself as usual as an M. D. honorably obtained without breach of etiquette.

Dr. Christoe.

COUNTY ITEMS.

A serious accident took place at Horning's Mills a day or two ago A son of Mr. Wm. Noole fell in front of the team, and one of the horses stepped on his head, fracturing the skull. The boy lies in a very precarious condition —*Free Press.*

On Saturday night about ten o'clock a barn on Mr. John McBride's place near Coleridge, in Amaranth, was destroyed by fire The building, we believe was insured, but we did not learn the amount The fire is said to have been the work of an incendiary. —*Free Press*

Fire in Egremont.—On Saturday night about 10 o'clock fire was discovered in Mr. Geo. MKeays barn on the Townline of Glenelg and Egremont The fire had made such headway that nothing could be saved. The spring crop and some fowls were all destroyed Loss about $600, covered by insurance. The barn was a new frame one. The origin of the fire is a mystery but incendiarism is supposed and the fire only adds another to the long list of fires which have occurred in a similar manner in this part of late.

Horse Stolen.—Mr Hillis of the 2nd con., Bentinck, had a horse and cutter and set of double harness stolen from his premises on Monday night. Telegrams were sent to all the neighboring villages, on Tuesday and we understand Mr. Hillis got tidings of his horse the same day at Paisely, where it had been traded by the thief for another horse with which he took his departure saying he was going to Chesley, which was rather unlikely however. It is to be hoped the thief will be caught and receive his deserts.

THE BEST REMEDY

Diseases of the Throat and Lungs.

AYER'S CHERRY PECTORAL.

In diseases of the pulmonary organs a safe and reliable remedy is invaluable. AYER'S CHERRY PECTORAL is such a remedy, and no other so eminently merits the confidence of the public. It is a scientific combination of the most efficacious principles and curative virtues of the finest drugs, chemically united, of such power as to insure the greatest possible efficiency and uniformity of operation. It strikes at the foundation of all pulmonary diseases, affording prompt relief and rapid cures, and is adapted to patients of any age or either sex. Being very palatable, the youngest children take it readily. In ordinary Coughs, Colds, Sore Throat, Bronchitis, Influenza, Cheryngan's Sore Throat, Asthma, Croup, and Catarrh, the effects of AYER'S CHERRY PECTORAL are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household for the protection it affords in sudden attacks. In Whooping-cough and Consumption there is no other remedy so efficacious, soothing, and helpful.

Low prices are inducements to try some of the many mixtures, or syrups, made of cheap and ineffective ingredients, now offered, which, as they contain no curative qualities, can afford only temporary relief, and are sure to deceive and disappoint the patient. Diseases of the throat and lungs demand active and effective treatment; and it is dangerous experimenting with unknown and cheap medicines, from the great liability that these diseases may, while so trifled with, become deeply seated or incurable. Use AYER'S CHERRY PECTORAL, and you may confidently expect the best results. It is a standard medical preparation, of known and acknowledged curative power, and is as cheap as its careful preparation and fine ingredients will allow. Eminent physicians, knowing its composition, prescribe it in their practice. The test of half a century has proven its absolute certainty to cure all pulmonary complaints not already beyond the reach of human aid.
