PATRONS OF HUSBANDRY.

From the O. S. Advertiser.

At the summer meeting of Grey Division Grange, held at Annan on 7th July, the following reports of committee were read. The Annan ladies entertained the officers and members in the Drill Shed with a sumptuous dinner, and such a tea as Annan Ladies are famed for getting up on short notice.

REPORT OF COMMITTEE ON CO-OPERATION.

Your Committee on Co-operation beg to report as follows:

Your committee did not carry out your suggestion of last meeting, believing the Fall to be the only time such undertakings can be successful by taken hold of, and if worked up long before the time for action, interest is likely to die out and the whole thing fall to the ground. Your committee proposed to meet about October and examine Bro. Hope's papers and mature a scheme to submit to the Grange when action is likely to be taken. Your committee would also advise patrons more generally to use their present means of co-operation, believing if they attended the meetings of the sub- granges and fully recounted their experience in farming, and heartily endeavored to cultivate a more sociable feeling among farmers, they would co-operate more to one another's advancement than by going into store keeping. Your committee believe the committee appointed by the Dominion Grange to correspond with co-operative societies in Great Britian is a step in the right direction and likely to prove highly beneficial. All of which is respectfully submitted.

(Signed) H. Pamey, D. McLean,
J. Long, A. Gifford,

REPORT OF COMMITTEE ON SEED GRAIN.

Your Committee on Seed Grain beg leave to submit the following report. Your committee reiterate the belief that to obtain the best results seeds should be changed every two years, not only from one class of soil to another, but locality should be changed as well, we believe that a change of soil as well as a change of locality is beneficial to the success of a full crop; we also believe that although the fall wheat has been a partial failure, we would recommend patrons to get the best seed that can be got and prepare the soil thoroughly, and sow in good time and trust in Providence for the result, sow as early as the first of September. Should any of the patrons have any new varieties your committee would recommend them to report.

All of which is respectfully submitted.

David Armstrong,
Chairman.

REPORT ON COMMITTEE ON DOMESTIC ECONOMY.

We, your committee on Domestic Economy beg leave to report.

The subject of Domestic Economy we feel to be a subject of so great importance that it would require much more consideration than in the limited time at our disposal we are enabled to give it, especially as it has been so ably discussed by all the members of the Grange at the dinner table so liberally provided for us by our friends of Hawick Grange. We would recommend that in each of our Div. Granges a half hour at least should be devoted to essays, recitations dialogues music, &c., as altogether too much of the time in the homes of our farmers is occupied with work to the exclusion of those matters which would be of great benefit to us both socially and morally, we would suggest that an essay be written to read at the next meeting of the Division Grange, on which the subject can be treated to better advantage.

All of which is respectfully submitted.

(Signed) Mrs. Long, A. Gifford,
P. Christie, H. Reid,

REPORT OF COMMITTEE ON STOCK.

Your committee beg leave to report that in Division lot of cattle in the next specifiable stock you can raise on a farmer's ordinary purposes is the general opinion of your committee.

2d. As regards the different kinds of sheep we have arrived at the conclusion that the Leicester and Cots wold are the most profitable we can raise on a farm.

3d. We are of the opinion as regards pigs, for profit the full bred Yorkshire.

4th. Your committee also believe the sooner stock is matured for either old country or home market the better, and the more attention that is paid to the breeding of stock from fall blooded sires the more will those engaged find it a good and profitable investment.

(Signed) G. Harkness,
Chairman.

REPORT OF COMMITTEE ON BANKING AND LOANING.

Your Committee on Banking and Loaning have nothing of interest to convey to the Grange since our last meeting on the subject of banking.

The subject of an Agricultural Bank now occupies the attention of the Executive Committee of the Dominion Grange, and the necessity for such an institution has been endorsed, but your committee are not aware of any recent action in connection with the organization of such an institution.

Your Committee learn that the Grange Trust has increased the capital stock of the Company to $2,000,000 by having secured supplementary letters patent with a view of more fully carying out the principles of co-operation by allowing borrowers to participate in profits. The directors are taking steps to organize a Board of Reference in Great Britian, whose principal duty it will be to bring prominently before the attention of capitalists the special features of this company, and secure money at the lowest possible rate for investment among our brethern, who in common with other farmers have in years past paid high rates of interst. The influence of the company for good it is believed will be very great indeed, its influence already having been observable.

In short, your committee hope that the Grange trust, The first Co operative Loaning Company in Canada, will be productive of very great good to the members of the Grange.

All of which is respectfully submitted.

(Signed) R. J. Doyle,
H. Reid.

REPORT OF COMMITTEE ON MUNICIPAL LAW AMENDMENTS.

We, your Committee on Municipal Law Amendments beg to submit the following:

1st. Your Committee regret very much that no action has yet been taken towards the abolition of Market Fee provisions, we find that in accordance with your instructions the Secretary forwarded to the Government, also to Messrs. Creighton, Lander and Waters a memorial duly signed and sealed, praying that the power to impose Market Fees be withdrawn from Corporations, and would suggest that this meeting instruct the Master and Secretary to again petition as before, such petition to be forwarded some time before the close of the present year.

2rd. Respecting a change in County Councils your committee hold the same view as that express by your commitee of last year, viz.: the work could be much better done by a Board of Commissioners chosen as explained in that report, and which would cost but a fraction of the present system. But we would advise that this and other important matters such as the assessment laws, &c., be left in abeyance until we secure attention to our wants in the question of Market Fees, in the meantime to carefully digest those questions and ascertain what will best meet our requirements. We would recommend that the provisions of the Herd Law be extended and some means provided for enforcing it. All of which is respectfully submitted,

J. Bowes, M. Denton,
A. Gifford. R. A. Stark.

REPORT OF COMMITTEE ON HORTICULTURE.

Your Committee on Horticulture beg to report as follows:

1st. That your committe regret that the fruit crop in this division has been seriously damaged by late frosts, which appears to have been sectional to a certain extent. Your Committee would strongly urge upon Patrons of Husbandry to under drain their orchards and gardens, which may be considered the most effectual preventative from injury by frosts, as also of securing the best results in many other respec's. Your Committee are strongly impressed with the fact that it is difficult to find any locality in Canada where the apple, pear and plum will succeed better than Grey Division. Much, however, depends on the varities planted. Your committee would strongly recommend planting for market purposes of but few varities, as the tendency is to planting too many varieties of fruit, much of which is unfit for shipping and must of necessity be less remunerative. Plums. Those only which ripen slowly and which can be shipped to a foreign market should be grown for market. We would especially mention the following varities of pears as those which have been the most generally successful in this section, the order of merit being the order in which named: Flemish Beauty (standard): Bartlett (standard); Dearborn's Seedling (dwarf); Duchesse d' Angoulême (dwarf); Vicar of Wakefield (dwarf). Your committee are of opinion that the late ripening varities of plums are much more profitable than those ripening early, as the former varieties arrive in market at a time when their is not much fruit offering for sale. All of which is respectfully submitted.

R. J. Doyle,
R. Harkness.

REPORT OF COMMITTEE ON IMPLEMENTS.

Your Committee on Implements beg leave to report as follows:

From the fact that the time given your Committee is so short that they have not been able to present as full a report as they would wish. They find also quite a diversity of opinion in regard to some of the implements recommended, but from some particular advantages recommend the following as generally satisfactory: The Harvest Queen Reaper, Toronto Mower, Tiger Rake, Noxon Bros. Combined Drill and Broadcast Seeder (although we consider the price charged for seeders exorbitant). The Spring Tooth Harrow is considered the best harrow for rough land. The question of a perfect pea harvester was discussed by your committee, but they not having any personal experience in the matter would beg leave to refer any member wishing information to Mr. W. Keefer, Annan, who is agent for the Tolton Pea Harvester, which is claimed to cut 8 acres per day, which would be a great saving both in time and money compared with the present slow and laborious method. Herewith is appended a price list of articles manufactured by D. Christie, Esq., Owen Sound:—Harvest Queen Reaper, $100; Tiger Rake, $24; Gang Plough, $18; Grain Crusher, $25; Seufflers, $7.50 to 12; Fanning Mills, $24; Rollers, $28; Common Plough, $7 to $30. A reduction of 10 per cent. will be made from the above if ordered by the dozen. Your committee would also recommend that members patronize our home industries where it is practicable, but when obliged to order from a distance that they do so through Mr. Harris, agent Grange Supply Co., Toronto. All of which is respectfully submitted.

R. A. Stark, T. P. Leonard,
Rob't Walker, S. Edmonstone
H. Reid.

Beautifiers,—Ladies, you cannot make fair skin, rosy cheeks and sparkling eyes with all the cosmetics of France, or beautifiers of the world, while in poor health, and nothing will give you such good health, strength, buoyant spirits and beauty as Hop Bitters. A trial is certain proof.—*Telegraph.*

OPINIONS OF THE PRESS ON KISSING.

The subjoined opinions on kissing relate to the text which tells us that "Jacob kissed Rachel, and lifted up his voice and wept."

If Rachel was a pretty girl and kept her face clean, we can't see what Jacob had to cry about.—*Daily Telegram.*

How do you know but that she slapped his face for him.—L. Y. M. C. A. News.

The cause of Jacob's weeping was the refusal of Rachel to allow him to kiss her again.—*Nonconformist.*

It is our opinion that Jacob wept because he had not kissed Rachel before, and wept for the time lost.—*National Reformer.*

The fellow wept because Rachel told him to do it again, and he was afraid.—*Methodist Recorder.*

Jacob cried because she threatened to tell her mother.—*Christian World.*

Jacob wept because there was only one Rachel to kiss.—*Southport News.*

He wept for joy because it tasted so good.—*Jewish Chronicle.*

A mistake. Not his eyes but his mouth watered.—*Chester Chronicle.*

Our opinion is that Jacob wept because he found that it was not what it was cracked up to be.—*Manhattan Examiner and Times.*

Jacob thought it was a fast color, and wept to find the color come off.—*Fine Art Gazette.*

He was a fool. He did not know what was good for him.—*Saturday Review.*

Jacob wept because Rachel bit his lip.—*Peterboro Review.*

Jake did not weep any tears, he only cried with a loud voice, yum! yum!—*Toronto Mail.*

Yes he wept; his cheeks were *streaked* with tears when he *swotled* her and thought of the *ring* as he saw in the future the *calves* he had *herd* of, fearing some one would *La-ban* upon his marriage. (See Gen. 30, xxix 29, xxvi.)—*L. V. Journal.*

Jacob wept because he found on kissing Rachel she had been eating onions.—*Dundalk Herald.*

Couldn't be that Jacob wept for getting what is acknowledged to be the height of human bliss. Perhaps the new revision that is now in progress will throw some light on the subject.—*Markdale Standard.*
