TWO YEARS SUFFERING

Brought on by a Severe Strain—How a Cure Was Found.

Mr. Joseph Stephens, Rosemount, Ont., is one of the great host who continually sound the praises of Dr. Williams' Pink Pills, and he has much reason to do so as they brought him from suffering to health, after he had spent much money and two years of time experimenting with other treatments. Mr. Stephens tells his experience as follows: "In the month of January, 1908, while working in a logging camp at Creston, B.C., I got my back injured. I suffered a great deal of pain and was almost helpless. I tried plasters, thinking they would help me, but they were of no use. I took several medicines, equally without benefit. Then I was advised to trv electrical treatment and did so for a time, but without getting any permanent relief, and it began to look as though I was going to be permanently crippled. Then I was advised to undergo treatment with a specialist at Spokane, Wash. After examining me he said I was in a very bad shape and that the trouble was likely to result in Bright's disease. However, he told me that he felt sure he could cure me. At a heavy expense I was under his treatment for three months, but did not get the least benefit. I was almost in despair; work was plentiful and wages good, but I could not work, as I was quite unable to bend. I was in this condition for about two years, when my brother, who was with me all the time, came across one of Dr. Williams' pamphlets and read of the great work Dr. Williams' Pink Pills were doing. He urged me to try them, but I thought it would be useless to spend more money after all the other treatment had failed. He insisted, however, and got a dozen boxes of the Pills and I began to take them. Before I had used half a dozen boxes I felt relief, and I continued taking the Pills until every vestige of the pain was gone, and I could raise my hands above my head and then bend until I could touch my toes with my fingers, something I had not been able to do for over two years. My cure was a great surprise to my comrades, and you may be sure I told them what brought it about. I am now as well and strong as any man in the country and I owe it all to Dr. Williams' Pink Pills."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

It's difficult for a man to practice economy and be popular at the same time.

Landlord—You owe me now for four months' rent, and the first three months you paid so promptly. Tenant—Yes, I know; I shouldn't have done it.

"So you want me to raise your salary?" said the stern employer. "Can you give me but two good reasons even why I should do so?" "Yes, sir," answered the meek employee sadly. "Twins!"

"How did you get that fine spring overcoat?" "I had a sure tip on a horse race." "I never knew one of those sure tips to pan out." "Neither did I, so I didn't play it. Put the money into an overcoat instead."

A GENEROUS PRINCE.

The big Empire fancy dress ball supper which was arranged to take place at the Savoy Hotel, London, on the 23rd of May, in aid of the Middlesex Hospital, was under the immediate patronage of Prince Alexander of Teck.

Prince Alexander is the third son of the late Duke of Teck, and has taken up the philanthropic work with which his lamented brother was so closely associated. He is deeply interested in the welfare of the Middlesex Hospital, and is ever ready to assist in charitable undertakings.

Prince Alexander served in the 7th Hussars, and saw war service

in Matabeleland and South Africa. On both occasions he was mentioned in despatches and was rewarded with the D.S.O. for gallantry displayed during the South African campaign. In 1904 he married the Princess of Albany, and the royal couple reside at Henry III. Tower, Windsor Castle.

Though only thirty-eight, Prince Alexander has crowded a deal into his life. He is a captain of the Royal Horse Guards, and a Knight of Justice of St. John of Jerusalem, and his amiable disposition has made him a great favorite.

WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets she would not be without them. They are the only medicine for little ones guaranteed by a Government analyst to be free from those opiates and other harmful drugs found in so-called "soothing" mixtures. Concerning them Mrs. J. C. Wood, Underwood, Ont., says: "I have used Baby's Own Tablets for the last four years and would not be without them, as I have found them beneficial every time I have given them to my little ones." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

WORLD'S BIGGEST STONES.

Syrian Temple Has One Seventy Feet Long.

Probably the largest stones ever used in any building are seen in the western wall of the great temple of Baalbek, in Syria, and the problem is still unsolved as to the methods used in conveying them from the quarries and of placing them in position. The quarries from which these blocks were undoubtedly cut can be seen about half a mile to the south-west of the temple. The three stones lie horizontally, and form part of the outer wall of the building. They are not on the lowest port of the masonry, but are twenty-three feet above the first row of stones. Each stone is over sixty feet long, thirteen feet high, and ten feet thick. The most wonderful block of all still lies in the quarries, for something must have occurred to stop the work of separating it completely from the rock, and the great stone has lain there for centuries awaiting completion. This stone is seventy feet long, fourteen feet high, and thirteen feet wide. The three sides and part of the fourth have been beautifully chiselled, and are smooth and even.

ANSWER WAS EASY.

Gibbs—"You say you were wrong in quarrelling with your wife; then why don't you go home and admit it?"

Dibbs—"The price of admission is too high."

"How many kinds of flowers are there in the world?" "Really, I have no idea. Some day I'll get hold of my wife's spring hat and count 'em up."

NO OPERATION WAS EVER NEEDED HERE

BECAUSE MRS. GOODINE USED DODD'S KIDNEY PILLS.

Doctor said she would have to undergo operation, but Dodd's Kidney Pills cured her.

Central Kingsclear, York Co., N. B., May 20 (Special).—"The doctor said I would have to undergo an operation." So said Mrs. J. V. Goodine, of this place. But she smiled as she made the remark, for all need of the dreaded operation had vanished. Mrs. Goodine used Dodd's Kidney Pills and is a well woman. Given in brief and in her own words, Mrs. Goodine's experience is as follows:

"I was very miserable with Kidney Disease and unable to do my own work. The doctor said I would have to undergo an operation. After using three boxes of Dodd's Kidney Pills I was all better and able to do my work. This statement is true, as you can easily prove by enquiring among my neighbors."

Dodd's Kidney Pills cure the Kidneys; cured kidneys strain all the poisons and other causes of disease out of the blood. Thus Dodd's Kidney Pills are a natural cure for all Kidney diseases and all ills caused by diseased kidneys.

POINTED PARAGRAPHS.

And the louder a man talks the less it amounts to.

How narrow minded most people are who argue with us!

Some people lie because they are too polite to tell the truth.

It's surprising how many grievances most worthless men have.

You can sometimes do a friend a favor by refusing to give him advice.

It doesn't take a very clever woman to make a man make a fool of himself.

And many a woman has lost a good friend by leading him to the matrimonial altar.

When the average man has a chance to say a good word for his neighbor he is apt to go lame.

It's an easy thing for a married man to understand why, as a bachelor, he didn't understand women.

We have no hesitation in saying that Dr. J. D. Kellogg's Dysentery Cordial is without doubt the best medicine ever introduced for dysentery, diarrhoea, cholera and all summer complaints, sea sickness, etc. It promptly gives relief and never fails to effect a positive cure. HIS LIBRARY.

"What a splendid library you have?"

"Yes, indeed," he said, proudly. "The collection of a lifetime, I presume."

"Exactly."

"Have you read everything in it?"

"Well, hardly. I don't expect ever to read all the books I have."

"You don't?"

"No. You see, the books I read I keep upstairs in my den. These books are all volumes that some clever agent has succeeded in convincing me that I ought to read."

MOST PRIMITIVE RACE.

Kubus Have Little More Intelligence than Apes.

A people without any form of religion, without superstition, devoid of any thought of the future state, has been found in the interior forests of Sumatra, according to Dr. Wilhelm Valez, the geologist of the University of Breslau, who has made extensive journeys through the island.

There he found the Kubus, as he named them, who are scarcely to be distinguished from the small manlike ape of the Indo-Mayalan countries.

They are wanderers through the forests seeking food. They have no property. They are not hunters, but simply collectors. They seek merely sufficient nuts, fruits and other edible growths to keep them alive.

The Kubus wage very little warfare upon the small amount of animal life in their silent and sombre land. The only notion he could get from them of a difference between a live and a dead person was that the dead do not breathe.

He infers that they are immeasurably inferior to the paleolithic man of Europe, who fashioned tools and hunted big game with his flint-tipped arrow and knife. The words they know are almost as few as the ideas they try to express—Scientific American.

A Simple and Cheap Medicine.—A simple, cheap and effective medicine is something to be desired. There is no medicine so effective a regulator of the digestive system as Parmelee's Vegetable Pills. They are simple, they are cheap, they can be got anywhere, and their beneficial action will prove their recommendation. They are the medicine of the poor man and those who wish to escape doctors' bills will do well in giving them a trial.

VALUATION.

HOW A BEAR FISHES.

A bear is about the last animal you would credit with being able to fish, but fish he does, and in it he displays an amount of patience and skill that is amazing. He will lie quite still upon an overhanging log or bank with paw uplifted and eyes attentively scanning the water. Salmon and trout are his chief delight, and should one come near enough to the surface he is snapped out on the bank with a flip and a twist, and vanishes in bruin's big maw.
