Farmer's Club

The Farmer's Club held their regular monthly meeting on Thursday of last week in the high school. The Women's Institute was present, by invitation, and assisted with the program.

Mrs. Wellwood gave an excellent paper on "Prosperity of Canada and Memories of our Queen." Mrs. W. H. Bunt gave a laughable reading, entitled "Matching red calico." A quartette consisting of Messrs. Holland, Marcellus, R. and W. Wilcock rendered a piece of music that was appreciated by all.

The speaker of the evening was Mr. H. C. Duff, the agricultural representative of Grey, whose subject was Poultry. Mr. Duff said that poultry, if carried on right, was one of the best paying side lines that we have to-day. Four things are necessary—the house should be built so that there should be light, dryness, fresh air and ventilation without draft, if we get these we do not need to worry about the result. He drew a sketch of a house on the blackboard, 20 x 20 feet that would accommodate one hundred birds. On the north side the walls should be 4½ feet high, 3 feet on the south side, with 2½ feet open covered by chicken netting, 7 feet high at the centre; the whole building should not cost more than $50.00.

Mr. Duff said they were introducing an improved breed of fowl in this county. Fort-two dozen eggs for hatching had been received from Guelph of Barred Rock, bred to lay, these would be distributed with the hope that a better class of birds would be introduced. Green food should be supplied in winter, such as alfalfa, red clover, mangels, red beets etc., but nothing so conduces to egg production as butter milk or thick milk, if hens can have that, meat scraps and crushed bone are not necessary.

Parasites can be destroyed by cleanliness and spraying with a solution of kerosene and five per cent. of carbolic acic; a good dust bath is composed of sand, ashes and lime. When asked what was the best kind of floor he said, if rats were troublesome, cement was best, otherwise the earth was as good as any.

Rev. H. E. Wellwood was called upon, but as the hour was late, he moved a vote of thanks to Mr. Duff which was heartily given by the sixty odd men and women present. The National Anthem closed the meeting.

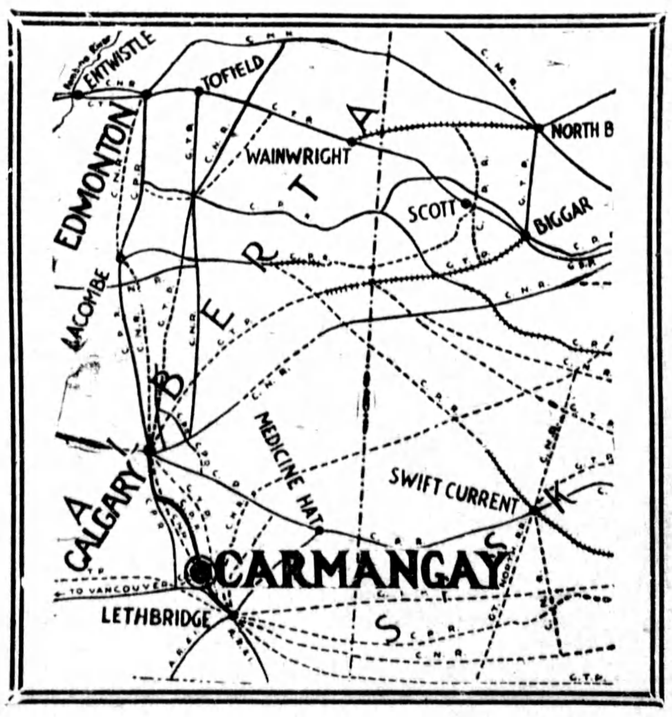
SOUTHERN ALBERTA, THE SUNNY AND THE GOLDEN

CARMANGAY

NATURE'S FAVORITE

Nature made the future of Carmangay absolutely certain. Agriculture and industry must follow when Nature shows the way.



CARMANGAY has the finest climate in Canada.

CARMANGAY has the purest water supply in the Western Prairies. The railroads appreciate this, as the water is free from alkali, and they have planned accordingly.

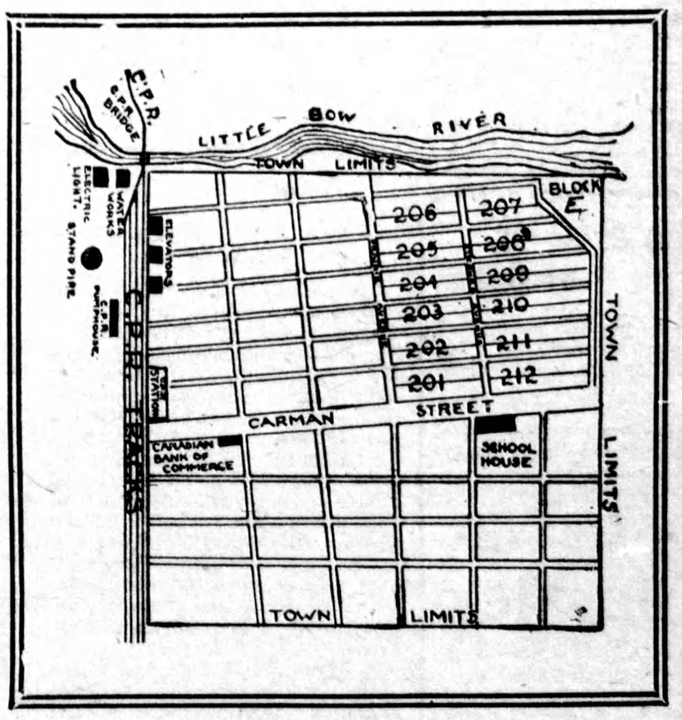
CARMANGAY has abundant coal within a few miles. Again the railroads appreciate this. Industries must go where coal and railroads join. Pittsburg, Pa., is an example.

CARMANGAY has inexhaustible quarries of the finest building material.

CARMANGAY has two banks, although the present population is but five hundred. The bankers know what is coming, and also that the first comers will reap the rewards of foresight.

CARMANGAY has a $60,000 school. Others will soon be required.

CARMANGAY has three large elevators, and plans for others are completed.



CARMANGAY is on the main line of the Canadian Pacific from Calgary to Lethbridge. This line was completed only five months ago, which accounts for the fact that property in this most desirable townsite in Southern Alberta is now available. We strongly recommend our clients to act promptly, as Carmangay offers such an unusual opportunity for investment that Western buyers will rapidly take up the remaining lots within the town limits.

We wish to impress upon our friends that the Carmangay property is not a subdivision. It is a portion of the original townsite, and is indicated by the words "Block E" in the diagram. It will be noted that the property is within the town limits, and adjoining the best residential district. We repeat, quick action is necessary. To our clients for whom we have made money in the past this recommendation from us will be sufficient incentive for promptness.

Please write name and address plainly in coupon in opposite corner, and mail without delay. Allotments will be made in the order that applications are received. First come, first served.
