by the giving of prizes; VI, absence of undue emotional excitement, and and its effect on the pupil's power of study; VII, objects to be studied should be actually presented to the pupils—this is much better than only explaining. These points were all thoroughly discussed, and the lecture was a very profitable one.

Prof. Young was tendered a vote of thanks for his lecture, after which the Association adjourned.

AT NIGHT.

A large number of people congregated in the Town Hall, when Dr. J. A. McLellan, M. A., of Toronto, delivered an excellent lecture, on the subject, "This Canada of Ours." The audience was greatly surprised at the importance of this Canada, and the lecturer succeeded in impressing numerous ideas on their minds.

March 1st, 1879.

After the opening ceremonies the President intimated that Mr. Barber, proprietor of the paper mills, had kindly intimated that the teachers might inspect the paper mills, which invitation was accepted.

A committee of Messrs. Little, of Acton, McLean, of Milton, Coates, of Norval, and Moore, of Georgetown, were appointed to select books for a library, which is to be kept at the Model School, Milton. The library open only to members of the Association.

The Association tendered votes of thanks to the following:—Trustees for the use of the school; Town Councillors for the use of the hall; People of Georgetown for their hospitality to the teachers, and the billeting committee for their labor.

It was then decided that the next meeting of the Association should be held in Burlington, the time to be decided by the President and Secretary.

The following officers were elected for the ensuing year:—Pres., R. Little, re-elected; Vice Pres., Dr. Lusk; Sec'y., R. Coates, re-elected; Managing Committee, Husband, Moore, Cameron, Malcolm and McKay.

Mr. Switzer, of Elora, being in delicate health was unable to discuss the subject of Algebra as assigned him in the programme, but Dr. McLellan took up the subject, and gave the teachers who are endeavoring to advance some ideas which would be useful to them. He showed by examples on the board, how to reduce algebraic forces, clearly explaining each point. The lecture was very good, and many of the teachers stored in their minds the hints thrown out, which will, without doubt be of service.

This closed the business of the Association, and the President declared the proceedings at an end.

In the Afternoon a large number of the teachers visited the paper mills, where they were shown the different operations by which paper is made.

REV. E. A. WILSON, BROCKVILLE, ONT.

SPRING 1879.

LADIES & GENTLEMEN

—OF THE—

COUNTY of HALTON.

We have received our Spring Stock of

DRY GOODS & CLOTHING,

And are selling them at

HARD PAN PRICES

—AT THE—

EMPORIUM,

GEORGETOWN.

GRANT, THOMPSON & CO.

We respectfully request an inspection of our stock.

We have been buying very carefully for the last year as we believed that goods were going down lower, and we were right, for at no time in the history of Canada could all descriptions of Dry Goods be bought any cheaper than they could about three weeks ago. We felt certain they had reached

BOTTOM PRICES,

and bought all we wanted

We don't anticipate a very great rise in prices very soon, but it is not possible for Dry Goods to get lower than they are at present.

LADIES,

—OUR—

MILLINERY SHOWROOM

Will be open on the

25th of MARCH,

When we will be glad to have you call.

REMEMBER THE PLACE, THE Emporium, Georgetown.

Ayer's
Hair Vigor

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will present the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Ayer's Cathartic Pills,

For the relief and cure of all derangements in the stomach, liver, and bowels. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Used

serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the *Pills* with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by *Ayer's Pills*, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar-coating makes them pleasant to take, and preserves their virtue unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution or diet or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor,** and **Loss of Appetite,** they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers,** they should be judiciously taken for each case, to correct the diseased action, or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back,** and **Loins,** they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings,** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression,** a large dose should be taken, as it produces the desired effect by sympathy.

As a *Dinner Pill,* take one or two *Pills* to promote digestion, and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

INVALIDS.—Do you wish to gather flesh, to acquire an appetite, to enjoy a regular habit of body, to obtain refreshing sleep, to feel and know that every fibre and tissue of your system is being braced and renovated? If so, commence at once and use the Quinine Wine prepared by Northrop & Lyman, of Toronto, and in a short time you will feel the whole system invigorated and strengthened. It is a well-known fact that Quinine has been acknowledged by the medical faculty for many years as the best appetizer and tonic known. And for general debility, this combination will be found superior to all other preparations. And combined as it is with fine sherry wine and choice aromatics, it is made an agreeable and pleasant invigorator to the whole system. The properties of Quinine are a febrifuge tonic and antiperiodic. Small doses, frequently repeated, strengthen the pulse, increase muscular force, and invigorate the tone of the nervous system. The peculiar operation of this medicine in general debility and as an appetizer, has undergone long and close observation, and it is believed it will never fail, if properly and judiciously administered, unless other diseases predominate of a different character. Persons of weak constitution may take it without the least difficulty, as it strengthens the stomach and digestive organs, and seldom require more than one or two bottles to effect a decided benefit, as it contains nothing injurious to the most delicate constitution. Remember to ask for the "Quinine wine prepared by Northrop & Lyman, Toronto," and we are sure you will be satisfied that you have full value for your money.
