EDITORIAL NOTES.

The Dominion by election in North Grey will be held on February 21. The provincial by-election in North Renfrew will not be held till the lumbermen return from the camps.

Clydesdale Horse-breeders will ask the Dominion Government to make the tariff and regulations regarding the importation of horses similar to those governing importation into the United States.

At a largely attended meeting of the Liberals of Wellington, held at Guelph on Wednesday of last week, a resolution favoring the appointment of Mr. Innes, former member of the House of Commons, to one of the vacancies in the Senate, was carried.

The official returns places the Prohibition referendum vote within a few hundred of 200,000, a majority of 96,207 over the liquor supporters' vote. Ontario is clearly ready for the closing of the bars and the wiping out of the pernicious treating system.

Premier Ross now has a majority of seven in the House, an increase of two during the week. The increases have been made through the unseating of Hugh Clark, of West Bruce, and the declaration of R. R. Gamey, M. P. P., for Manitoulin Island, that he will give the Ross Government an independent support.

It is probable that the writs for the North York and Centre Bruce by-elections will be issued in a few days, or as soon as the Judges' reports in connection with the disposal of the cases have been received. While no date has actually been fixed, it would not be surprising if polling day will be during the last week in February, perhaps on Thursday, the 26th.—Globe.

The discontent over the post office appointment at Milton reached such a stage, and the insinuations as to improper monetary influence having a part in the appointment, the government last week appointed Judge Gorham to investigate the matter. Now, it appears, those who talked loudest and wrote hot letters to the Postmaster General are sorry, and it is likely that the commission will either be recalled or no evidence will be presented to sustain the charge, and the matter will be dropped. In the meantime, Postmaster-elect Stewart defies any man to prove that he used money to get the office, and laughs at the rumors of what might be proved.

GEORGETOWN.

A great sorrow came to the home of our esteemed fellow-citizen Major L. Grant last Thursday, when death took from him his beloved life partner, Minnie Wright. Mrs. Grant had been an invalid for many months and her death was not unexpected. She was a true wife and mother in all these terms imply. Her home was her first consideration always, and her husband and children were her constant care. Such time as could be spared from domestic claims she spent in the interests of the Church of her choice, and tender and sincere were the eulogies paid by her pastor, Rev. L. Perrin, and a former pastor, Rev. W. G. Wallace, of Toronto, touching her consistent life and christian character, at the funeral obsequies. Besides the sorrowing husband, a daughter, Mrs. H. P. Lawson, and a son, John, survive. The funeral was held on Saturday afternoon and was very largely attended. The service was conducted by Rev. L. Perrin, assisted by Revs. W. G. Wallace, W. M. McKay, W. S. McAlpine and Austin Potter. The remains were laid at rest in Greenwood Cemetery.

The closing down of the Brampton waterworks has caused a heavy demand upon our waterworks by the G. T. R. locomotives. As a consequence the water meter users have been very much inconvenienced. A discouraging feature of the situation is that the present contract fails to provide any additional revenue for this largely increased demand upon our water.

Speight & Brady have a large staff at work on orders for their famous gasoline engines.

Mr. H. A. Colfen, of the Bennett House, who was in Guelph Hospital for some time, has almost completely recovered from his recent illness.

J. N. O'Neil, carriage builder, has largely increased the capacity of his works here. By a rearrangement of his various departments, he will this spring have one of the most commodious and well-arranged showrooms to be found anywhere.

Mr. J. T. Elliott, who came from Acton several weeks ago, is feeling much better now. He is sojourning with his son, Dr. Elliott.

The Spinsters' Convention, announced to be held in the town hall on the 20th of February, has been postponed until Tuesday, 24th February.

Rev. W. S. McAlpine, B. A., is the new Chairman of the Public Library Board.

The annual twelfth of July Orange Demonstration for the County will be held here.

The sale of the Great Northern Railway of Quebec to the Mackenzie & Mann and the Canadian Northern, adds a very important link to the transcontinental road which is the ambition of these energetic railway magnates.

THE WORLD WANTS A MAN.

The Publishers of the Toronto World Will Try to Break Records.

The publishers of The Toronto World want a representative in every postal district in Ontario. They are trying to secure 50,000 subscribers before the end of the present year, and offers liberal commissions. The World scoped a distinct success as the first one-cent morning newspaper published in Canada. It is easy to get subscribers for a bright paper like The World at only $1 a year, or $1.50 for six months. Bright and entertaining always, The World is conducted on broad principles, filled with good reading for all good people. It has been called the "farmers' daily" because so much space is given to markets and farm news. W. F. Maclean, M. P., Editor of The World, says that The World has now over 6000 well-to-do farmers on its subscription lists.

New subscribers, who send $1 direct to The World, Toronto, will receive credit up to the 15th of April, or nearly 15 months, for $1. Any subscriber sending two new subscribers at $1 will receive The World free for one year.

There are bad examples that are worse than crimes; and more states have perished from the violation of morality, than from violation of the law.—Montesquieu.

THAT OLD PAIN AGAIN.

Gnawing, Piercing Pains That Almost Make You Scream.

It is your old enemy, rheumatism, come again with the winter to torture you. These pains, remember, are caused by bad blood, you may ease them by rubbing with liniments and outward lotions, but can not get rid of them in that way. Rheumatism is caused by bad blood and the only certain way to drive it out of the system is to enrich your blood by taking Dr. Williams' Pink Pills. There is no case of rheumatism Dr. Williams' Pink Pills will not cure if given a fair trial. By making new, rich red blood and strengthening the nerves they strike at the very root of such diseases as rheumatism, sciatica and lumbago. We give one case out of thousands to prove the truth of this statement. Mr. A. G. Lacombe, Sorel, Que., says: "For five years I was a victim to the tortures of rheumatism. At times the pains in my knees, shoulders and hips were almost past endurance. Often I could not dress myself without assistance. I tried many remedies but I never got more than temporary relief until I began the use of Dr. Williams' Pink Pills. I used altogether eight boxes, and since using them I have not had a twinge of the trouble, and I feel better in every way than I did for years before. I would strongly advise every rheumatic sufferer to give Dr. Williams' Pink Pills a fair trial." Remember that only the genuine pills will cure—imitations can't cure, therefore see that the full name "Dr. Williams' Pink Pills for Pale People" is found on the wrapper around every box. Sold by all medicine dealers or sent post paid at 50c. per box or six boxes for $2.50 by writing direct to the Dr. Williams' Medicine Co., Brockville, Ont.

Keep your hand on your purse to-day if you happen to get into a crowd.

An Ancient Foe

To health and happiness is Scrofula—as ugly as ever since time immemorial.

It causes bunches in the neck, disfigures the skin, inflames the mucous membrane, wastes the muscles, weakens the bones, reduces the power of resistance to disease and the capacity for recovery, and develops into consumption.

"Two of my children had scrofula sores which kept growing deeper and kept them from going to school for three months. Ointments and medicines did no good until I began giving them Hood's Sarsaparilla. This medicine caused the sores to heal, and the children have shown no signs of scrofula since." J. W. THE SILVER DOLLAR.

This new strain is the most popular general crop potato in the Maritime Provinces. It is an immense yielder and said to be entirely free from rot. It is a round white potatoe with somewhat deep pink eyes. Its eating qualities it cannot be surpassed.

We imported one large car, 405 bags, in November just before the cold weather and they have never seen the frost. We propose to sell them out as long as they last at $1.25 per bag of 90 lbs; not more than 10 bags to any one person, as we wish to distribute the seed and give everybody an opportunity of getting this great potato.

Purchasers not wishing to remove them at once, may, by depositing 25c. per bag on them, leave them with us for a few weeks. This is a good opportunity to get a new blood potato at a very reasonable price.
