CAN LAUGH AT LIFE'S MINOR ILLS

SINCE DODD'S KIDNEY PILLS CURED HER KIDNEY DISEASE.

New Brunswick Woman Tells How She Was Rescued from Ill Health by the Twin Remedies, Dodd's Kidney Pills and Dodd's Dyspepsia Tablets.

Neguac, Allain P. O., N. B., Mar. 24 (Special).—Mrs. Joseph G. Savoy, a well-known resident of this place, whose ill-health has been a matter of much concern to her friends, is telling of the cure she found for all her troubles in Dodd's Kidney Pills and Dodd's Dyspepsia Tablets.

"My health is fine now," Mrs. Savoy says, in an interview. "The pains are gone from my side and back, and when I go to bed I can sleep. Before I started using Dodd's Kidney Pills and Dodd's Dyspepsia Tablets I could not eat anything heavy, such as meat, but now I can eat practically what I please with no ill effects."

Mrs. Savoy was in a generally run-down condition, and her cure came about by using the natural remedies. Dodd's Kidney Pills cured and invigorated her kidneys, thus purifying her blood and improving the circulation.

Dodd's Dyspepsia Tablets insured proper digestion of her food, thus furnishing the body with the nutrition it required. Women with healthy kidneys and sound digestion can afford to laugh at the minor ills of life.

A WORKHOUSE GIRL.

Became the Wife of the Right Rev. Thomas Thurlow Palatine.

A lady residing at Lymington, England, was in want of a little girl to weed her garden, and sent her footman to the workhouse to select a little pauper girl for the purpose. John brought back a tiny child, about eight or nine years of age, and pointed out her tasks. The child set to work, and began to sing in tones of more than common sweetness. The lady's window was open, and she was struck with the voice. The little songstress was sent for to the lady's apartment, and she was much pleased with the intelligence of the child, and took steps to remove the little maiden from the workhouse to her own kitchen.

After a short time the lady proposed to her husband that they should adopt the waif as their own daughter. Every attention was given to the education of Miss Bere, for that was her name, and she became a highly accomplished young lady. Her humility and modesty never forsook her. Shortly after a young vicar visited the house. He became very fond of Miss Bere, and offered her his hand and heart, but as he had nothing more than a small living to offer her they agreed to wait a while. After a year he returned with the title of "very reverend" to his name. There was now no obstacle in the way, so the pair were united, and lived many years respected, beloved, and esteemed by all around them.

The death of her husband, who had been elected to a bishopric, severed the happy connection. The lady survived her husband some years, and at last the little warbling Nancy Bere, the orphan of Lymington Workhouse, now the lamented widow of the Right Rev. Thomas Thurlow Palatine, Bishop of Durham, quitted this life, to join her beloved partner in a better world.

THE KNOW HOW

To Feed Children and Get Good Results.

There are more nervous persons made so by undigested food lying in the stomach than the average individual would suppose.

If food remains undigested in the stomach, it begins to ferment, set up gas and a large portion is thus converted into poison.

That's why imperfectly digested food may, and often does, cause irritation of the nerves and stupor of the mind—brain and nerves are really poisoned.

"My daughter had complained for some time of a distressed feeling in the stomach, after eating, which set me thinking that her diet was not right," writes an anxious and intelligent mother.

"She had been fond of cereals, but had never tried Grape-Nuts. From reading the account of this predigested food, it seemed reasonable to try Grape-Nuts for her case.

"The results were really wonderful. The little brain that seemed at times unable to do its work, took on new life and vigor. Every morning, now, before going to school, she eats the crisp little morsels and is now completely and entirely well, she seems to have a new lease on life—no more distress in the stomach, nor headache, but sound and well everyway." Name given by Canadian Postum Co., Windsor, Ont. Read "The Road to Wellville," in pkgs.

Last Frost Fair on Thames.

The Thames, England, was last frozen over in January of the year 1814, when the ice was so firmly frozen that it was soon secure for footing, and thousands availed themselves of an opportunity which had not occurred for a century. So thick was the ice at Greenhithe that booths were erected for refreshment. Between London and Blackfriars Bridge swings and games of hazard were much in evidence; a sheep was roasted and sold at so much a piece. Musicians and dancers were there, and altogether the scene had the appearance of a Greenwich fair.

Anaemic Mothers Here is Relief!

You Can Enrich Your Worn-out Blood and Quickly Renew Your Health With Dr. Hamilton's Pills.

Sufferer of Twenty Years States Dr. Hamilton's Pills are a Real Cure.

"I can't remember any time during the past twenty years when my heart wasn't aching. If I bent over, dark specks would come before my eyes, and it seemed as if all the blood in my body wanted to rush to my head." Thus opens the letter of Mrs. Enoch S. Spry, of Putnam P.O., and continuing her interesting statement she says: "Work or exertion made my heart beat terrible, and going upstairs caused such shortness of breath that it fairly frightened me. I tell you how I feel to-day and you can understand what a great cure Dr. Hamilton's Pills have made. **I feel strong enough now to work like a man, as for going up stairs on the run, it doesn't bother me at all. I eat and sleep as any well person ought, and as for dizziness which used to frighten me so much, it has entirely disappeared. Dr. Hamilton's Pills are a wonderful medicine. They helped me, and I know every woman that uses them will have comfort and good health.** Refuse anything offered you instead of Dr. Hamilton's Pills of Mandrake and Butternut, 25c. per box at druggists and storekeepers, or the Catarrhozone Co., Buffalo, N. PIMPLES ITCHED AND BURNED

On Arms and Legs. Caused Running Sores. Would Tear Himself Till They Bled. Like Open Wounds. Cuticura Soap and Ointment Cured.

53 Stewart St., Toronto, Ontario.—"When my baby was nine months old he had a lot of pimples come on his arms and legs which used to come to a head, then break and cause running sores. They were bright red spots, which itched and burned so badly that he would tear himself till he made them bleed and they were all like open wounds. They were on his face and arms so bad that I did not like to take him out. He could not sleep or rest anywhere. I tried several things at home and lots of different things people used to advise me, but he did not get a bit better.

"I bathed each place in warm water and Cuticura Soap and then I put some of the Cuticura Ointment on and bound them up in soft rags and he slept better that night than he had for three weeks, and he did not scratch himself once that night. I did that for three days, night and morning, when we noticed the sores were getting drier and healing, so I bought a cake of Cuticura Soap and a box of Cuticura Ointment, and after a week and a few days there was not a blemish on him." (Signed) Mrs. F. West, Feb. 29, 1912.

Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere. For a liberal free sample of each, with 32-p. book, send post card to Potter Drug & Chem. Corp., Dept. 39D, Boston, U. S. A.

LIGHTNING IN THE TROPICS.

Storms in Central Africa; In Madagascar 300 Deaths a Year.

Thunder storms never occur in the Arctic regions. Nearer the equator the more severe are the electric manifestations.

In certain parts of Central Africa the average run of thunder storms is 250 days a year yet. There are some very curious exceptions. In Sumatra and Java, both very hot climates, there are only ninety-two storms yearly, and in Borneo only about fifty. The Gold Coast of Africa has only about sixty a year, which is less than occur in Florida, though the latter country is outside the tropics.

In Java there is a thunder storm every day for five months. Perhaps the most astonishing fact in regard to thunder storms is that the Island of Mauritius, which is only 550 miles from Madagascar, has on an average only one thunder storm in eighty years.

Yet in Madagascar the lightning is more destructive than anywhere else in the world, the annual number of deaths being more than 300.

YOUR BABY'S SKIN

Is the most delicate fabric in the world. You may cause it permanent harm by using poisonous mineral ointments for the little rashes and eruptions that every baby suffers from occasionally. Don't take any chances. Use Zam-Buk, the baby's best balm.

Zam-Buk is made from fine herbal extracts, and is free from any harmful poisonous coloring matter. Like the grasses and the flowers, nature has colored it green. It is nature's own healer!

Just put a little Zam-Buk on baby's skin, and see how soon it is absorbed, showing conclusively that the pores of the skin are greedy for it.

Use nothing but Zam-Buk for baby's skin troubles and wash with Zam-Buk Soap.

All druggists and stores sell at 50c. box, or post free from Zam-Buk Co., Toronto, for price. Refuse harmful substitutes and imitations.

DOGS ATE CHURCH.

Strange Fate Befell House of Worship North of Hudson Bay.

Of all the things that may befall a church, nothing could be much stranger than the destruction of a little house of worship north of Hudson Bay, as once reported by the bishop of the diocese.

He had attended a synod of the Canadian church at Winnipeg, and there had seen a missionary bishop who had been six weeks on the way, having come most of the distance in a canoe. The missionary bishop reported gravely that the diocese of a brother bishop had "gone to the dogs."

Being asked for an explanation, he said that the Esquimaux in the diocese had built a church with whales' ribs for rafters, and covered it with walrus hide. The little church held eighty persons; but in the time that elapsed between two services, the building was set upon by a pack of famished dogs, which actually devoured it in a few hours.

BIG GOLD FIND IN INDIA.

Prince's Estate Found to be Rich With Deposits.

The London Daily Chronicle's Bombay correspondent states that a romantic discovery of mineral wealth on a vast scale is reported from an area covering 1,200 square miles in the Dalbhum district, about 150 miles from Calcutta. Extensive deposits of gold, copper, coal, iron, asbestos, mica, and manganese are said to have been located.

The estate of Prince Mahomed Buktear Shah, who died a month ago, is in the hands of an official receiver, who engaged an expert geologist, Phillip Billingshurst, of Vancouver, to survey the property and ascertain its value. Mr. Billingshurst asserts that the estate possesses immense quantities of iron ore, some millions of tons averaging between 45 and 70 per cent. of metal. Several important gold finds are also reported.

The expert discovered a Santhali woman, reputed to be 110 years old, earning a competence by working free gold in a secret place she discovered fifteen years ago. She was induced to disclose the source of her wealth by a present of a silk shawl and a few rupees, and the expert, sinking a trial shaft, found quartz yielding 139 ounces of gold to the ton. He says there are rich leaders and stringers of auriferous quartz which would yield fabulous amounts and concludes:

"I was on what is potentially one of the world's greatest gold fields, and it was with great regret that I had to leave so much ground unexplored."

To Ease Tight Chest And Cure a Cold Rub On Nerviline

No Remedy Half So Efficient.

"I didn't have to suffer long with a sore, wheezy chest. I had a mighty bad cold—it held me like a vise, but I knew what to do..... I took half a teaspoonful of Nerviline in hot water and rubbed my neck and chest every half hour during the evening. You would hardly credit the way Nerviline loosed up that tight chest, enabled me to breathe like a free man, gave me comfort in a few hours."

This is the experience of J. P. Durand, a well known resident of Burton's Corners. In thousands of homes Nerviline is used every day. If a little child has a sick stomach, just a few drops will suffice. If there is any bowel disorder or diarrhoea, only a small dose is required. Inwardly or outwardly, wherever there is pain or inflammation, Nerviline will always relieve quickest and cure surest of any remedy known. NATION FOR AUTOMATICS.

Germany Addicted to Devices That Save Time and Money.

Germany might almost be called "the land of the automat." Automatic devices of all kinds are popular and are used for 1,000 purposes. At all post-offices stamps and postcards are sold by automatic machines, at the railway stations platform tickets, and suburban tickets are sold by automats; automat restaurants, when one can secure a glass of beer, wine or liquor, a sandwich, square meal, cup of coffee, chocolate, etc., by dropping a coin in the slot, abound everywhere. Every city of 15,000 or 20,000 population and over has from 100 to several hundred such restaurants.

At railway stations automats sell chocolate, candy, picture postcards, and even a little kit of "first aid to the injured," containing a few drops of pain-killer, bandages, needle, thread, etc. Ten pfennigs in a slot opens the door of toilet compartments, delivering a towel or piece of of soap. A coin in a slot obtains a cigar, a tune from a mechanical music box, a pair of shoe-strings, a collar-button, a visiting card, name plate for suitcase, tells one's fortune or weight, etc.
