The School Rate is 15 Mills

The school rate for 1921 is fifteen mills; not sixteen as was stated last week. The requisition of the Board was for $10,361.25 this year. Last year it was $9,768.96. Fortunately the higher assessment gives the increased amount on the same number of mills. Certain improvements and the increase in salaries account for the increased expenditures.

Hartshorn Committed for Trial

Thomas Hartshorn, Jr., of Glenwilliams, charged with perjury in connection with the Logan fires, came before Police Magistrate H. P. Moore for preliminary trial on Tuesday morning. He elected, through his counsel, Mr. LeRoy Dale, to be tried before the County Judge. Evidence was adduced to warrant his commitment, and he was remanded to the county goal to await trial. The hearing of the second charge of subornation to perjury was deferred until next Saturday.

Nearby Residents Opposed to Milton Arena

On Tuesday Mr. Walsh, of Toronto, solicitor for the opponents of the erection of the hockey arena in the rear of the Hotel McGibbon, appeared before Judge Elliot with his clients and obtained an injunction ordering the suspension of building operations until September 7. Work had been begun. Engineers laid out the site and a tool house had been erected. The Arena Co., Ltd., and the other parties say they will fight the matter out to the limit.—Champion.

A Horticultural Show for Acton

With the numerous beautiful showings of flowers and plants in town this season by members of the Horticultural Society it is to be regretted that a show was not arranged. Many places smaller than Acton are holding horticultural shows this fall and the results are most encouraging. The holding of such a show in Acton annually hereafter is worthy of the consideration of the Board of Directors and the annual meeting of members. The Fall Fair is held too late to secure the splendid showing of flowers which could be made the last of August or first of september.

Knox Church's New Minister

The congregational meeting of Knox Church, cited to meet last Friday evening to moderate in a call to a minister, was presided over by Rev. H. H. MacPherson, M. A., Clerk of the Guelph Presbytery. The names of three ministers were presented, Rev. H. D. Cameron, Forest; Rev. Mr. Stewart, late of Listowel, and Rev. Mr. Cowan. While there was a strong vote for Rev. Mr. Cameron, the majority voted to call Rev. Mr. Stewart. The call is now being circulated among the members of the congregation and will be presented at a meeting of Guelph Presbytery to be held at Kitchener next Tuesday.

Farmers' Club vs. Road Commissioner

At the meeting of the County Council last week a petition was presented from the Halton County Farmers' Club, praying that the Council ask for the resignation of the County Road Superintendent. The Council went into Committee of the Whole to consider the petition. When the Council resumed the Warden reported that the petition had been rejected in Committee of the Whole. Mr. Harris moved, seconded by Mr. Robinson, that the resolution of the Halton Farmers' Club, requesting the resignation of Road Commissioner Wilson be filed and not considered by the Council and that the Clerk forward a copy of this resolution to the Farmers' Club.

Schools Re-opened on Tuesday

At the last moment it was decided to defer re-opening of Acton Schools until after the Labor Day holiday. On Tuesday morning the Public and High Schools opened with full staffs. Miss E. E. Knapp has been promoted to the principalship of the High School and takes Mr. Roswell's position, with the approval of the Education Department. Mr. G. Lewis, of Alma Craig, who holds a first-class certificate, has been appointed assistant to the principal. Miss Minnie Z. Bennett has been appointed by the Board to be principal of the Public School, in addition to her duties as teacher of the Entrance Class. This is a splendid arrangement on the part of the Board and will relieve the High School principal of considerable overnight of the Public School. Miss Bennett is specially well qualified for the principalship of the Public School. Her long and successful service; her superior disciplinary ability, and her complete knowledge of the school and the duties of the teachers of the various departments eminently fit her for the important position. Miss Gladys Nodwell, of Hillsburg, has been appointed primary teacher, to take the work formerly fulfilled by Mrs. Riordan. Miss Nodwell not only has a second class professional certificate but a special certificate as a primary teacher.

Farm Home Barns and Crop Destroyed by Fire

L. F. Denison, of Esquesing, Suffered from Disastrous Fire Last Thursday

FIRE CAUSES $25,000 LOSS ON THE BUILDINGS, CROP, ETC.

A disastrous fire occurred on Ballymona Farm, the homestead of Mr. L. F. Denison, of the sixth line, Esquesing, last Thursday evening. His modern, well-equipped barn and home were completely destroyed, and the entire season's crop.

Mr. Denison was using his farm tractor to operate a grain grinder in the barn. While away from the machine for a minute or two getting a further supply of grain fire broke out, presumably from a hot journal. It spread with amazing rapidity, and soon enveloped the barn.

Georgetown fire brigade responded quickly to a call for help, but as there was no water supply available the men could do little. All the live stock, except one cow, were saved.

The fire spread to the farm house, and it was found impossible to save that structure. The total loss is estimated at $25,000.

The Ballymona Farm is on what was formerly known as the Heney estate, the land having been settled by the Heney family about a century ago.

The house and barn were both equipped with modern conveniences and machinery, including a Delco electric lighting outfit.

The reflection from the fire was seen from points in an area of many miles. Scores of motor cars assembled, people being present from Acton, Georgetown, Rockwood, Guelph, Erin and numerous other points.

Mr. Denison, the owner of the property, is a grandson of Col. George T. Denison, Toronto.

The 13th Battalion Band assisted.

A Thimble Would Hold a Thousand

A couple of weeks ago the Free Press referred to the perfection of the manufacture of the infinitesmal screws for part of the mechanism of the watch, some of which are almost invisible to the naked eye. Mr. George Hynds, our venerable watchmaker, was kind enough the other day to bring a series of these small screws to this office for the inspection of the editor. They are indeed small, the threading and head slots being entirely invisible without magnifying glasses. The perfection of their manufacture is a scientific wonder.

Expensive Indulgence in Booze

Thomas Rae was arrested at four o'clock on Sunday morning in Trafalgar Park in a state of intoxication and taken to the police station. He appeared in police court Tuesday morning on a charge of drunkenness. When arrested he had a bottle containing a small quantity of liquor, and he was charged with having liquor in his possession in other than a private dwelling. He pleaded guilty to both the charges and on the first was fined $10 and costs and on the latter $200 and costs. It was a very expensive drunk.—Guelph Herald.
