# ARE GROWING IN FAVOR EVERY DAY

**DODD'S KIDNEY PILLS PROVING THEIR VALUE AS A FAMILY MEDICINE.**

**Quebec Man Tells How They Helped Him and Cured His Nephew of Kidney Disease.**

South Ham, Wolfe Co., Que., April 7 (Special).—There is fresh proof every day that as a family medicine Dodd's Kidney Pills are growing in favor with the people of Quebec. Just to quote an example, Amable Pinard of this place says, in an interview:

"Dodd's Kidney Pills helped my rheumatism, backache, gravel, and heart disease, from which I suffered for twenty years.

"They have not yet cured me completely, but they did completely cure my nephew, who suffered from kidney disease."

Dodd's Kidney Pills always cure kidney disease. They will complete Amable Pinard's cure, because all the diseases mentioned are the results of kidney disease. They cured the young man's kidney disease quickly, because it was taken in its early stages. Amable Pinard's troubles are of twenty years' standing, and take a longer treatment.

The moral is, that if you cure your kidney disease early with Dodd's Kidney Pills, you will never be troubled with rheumatism, gravel, and other diseases that are caused by sick kidneys failing to do their work.

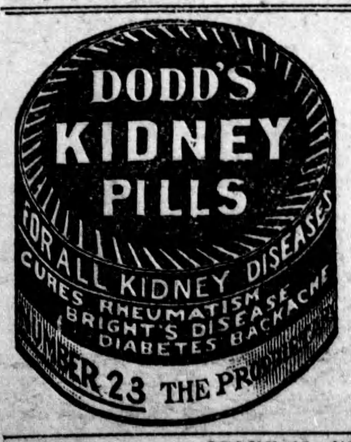
### The Easiest Task.

Probably the easiest task is for a poor man to tell what a rich man should do with his money.

"Let us go into this department store until the shower is over." "I prefer this harness shop," said her husband. "You won't see so many things you want."



MRS. LANE.

Wife of the Canadian who is Minister of the Interior in the President Wilson Cabinet. Mrs. Lane was born in Elmira, N.Y., her distinguished husband in Prince Edward Island.

### When to Wed.

January brides are likely to become widows early. February brides will never have very happy married lives. March brides will probably make their homes abroad. April brides will have lives of change, and experience many ups and downs. May brides will entertain many strangers. June brides will find life a long honeymoon. July brides have bitter-sweet memories. August brides are lucky in finding a real friend in their husbands. September brings a smooth and serene future to its brides. October only gives a future of toil and hardship. November brides will be happy, and those who, according to the rhyme, marry "in December's cheer," will find that "Love's star burns brighter from year to year."

### TRAINED NURSE

**Remarks About Nourishing Food.**

"A physician's wife gave me a package of Grape-Nuts one day, with the remark that she was sure I would find the food very beneficial, both for my own use and for my patients. I was particularly attracted to the food, as at that time the weather was very hot and I appreciated the fact that Grape-Nuts requires no cooking.

"The food was deliciously crisp, and most inviting to the appetite. After making use of it twice a day for three or four weeks, I discovered that it was a most wonderful invigorator. I used to suffer greatly from exhaustion, headaches and depression of spirits. My work had been very trying at times and indigestion had set in.

"Now I am always well and ready for any amount of work, have an abundance of active energy, cheerfulness and mental poise. I have proved to my entire satisfaction that this change has been brought about by Grape-Nuts food.

"The fact that it is predigested is a very desirable feature. I have had many remarkable results in feeding Grape-Nuts to my patients, and I cannot speak too highly of the food. My friends constantly comment on the change in my appearance. I have gained 9 pounds since beginning the use of this food."

"There's a reason." Read the little book, "The Road to Wellville," in pkgs.

### Find New Silk Worm.

A worm has been found in East Africa, which produces in the wild state quantities of silk, and factories are being put up to utilize this silk. The worm in question is the larva of the anaphe moth. From a dozen to a hundred of them make a nest in common and thus the cocoons are produced on a wholesale scale, says the "Pathfinder." When the butterfly is hatched it secretes a liquid which unseals the cocoon and it then escapes without injuring the silk. Thus the amount of human labor involved is much less than with the Asiatic silkworm.

True greatness never goes to a man's head.

If you utilize the time wasted in waiting, it is not wasted.

# WHEN APPETITE FAILS AND INDIGESTION IS BAD

**There Is Danger Ahead For the Man That Neglects Nature's Warning.**

**Dyspepsia Tendencies are Serious and Should be Treated Accordingly.**

There is a strong moral in the statement of James Schrum, of Pleasant street, Dartmouth, N. S. Like thousands of people, he was failing in health because his stomach and digestive organs were out of repair. His vitality was slipping away; he was losing ground every day.

"I could not have held on much longer. I was wasting away simply because no remedy I used gave tone and strength to my stomach. The vital forces of my system were dead. I was advised to try Dr. Hamilton's Pills. What hidden weakness they searched out I don't know, but in a miraculous way they have made a new man of me. My stomach troubles are cured, rich blood now runs through my veins—clear skin and unmistakable evidences of health and vigor I feel every day. Dr. Hamilton's Pills have certainly mastered the secret of curing the sickly enervated man and I strongly urge everyone in failing or lost health to use this grand remedy."

Dr. Hamilton's Pills of Mandrake and Butternut are purely vegetable—25c. per box, five for $1.00, all druggists and storekeepers, or postpaid from the Catarrhozone Co., Buffalo, N. Y., and Kingston, Ont.

### PRINCE MAY VISIT BERLIN.

**His German Is Less Serviceable Than His French.**

The Prince of Wales's present visit to Germany is to be the first of two visits, the second to take place during the long vacation, when it is probable that he will visit Berlin as well as Mecklenburg-Strelitz. The Prince's German is fairly serviceable, but it is less so than his French.

This is natural enough, for despite his ancestry the Queen has never carried his German education very far, the reason probably being that her German governess proved antipathetic, while her French lectrice, Mme. Bricka, became an intimate friend and is still the most frequent guest at the small private dinners at the palace, when the conversation is carried on in French.

The King's French, as is well known, is not very good, nor is his German remarkable. It is understood that King George determined that the Prince of Wales, when his time came, should be trained in languages so that he could follow King Edward in the round of European visits.

### Thoroughly Ventilated.

"Gee, doctor," the sick man replied, "you must be mistaken. I've been operated on three times in the past year and a half."

### VILLAGE WITHOUT SUNLIGHT

**From November Until Feb. 14 No Ray Penetrates the Valley.**

In the valley of the Lyn near Lynmouth, North Devon, England, there is a quiet little hamlet called Middleham, where for three months in the year the sun is not seen.

The cluster of houses forming the hamlet is surrounded on all sides by hills so steep and high that from November until February the sun does not rise high enough to be seen over their tops.

The first appearance of the sun is eagerly looked for, and as it is first seen on Feb. 14, the inhabitants call it their valentine.

If the day should be foggy or cloudy, so that it cannot be seen, there is great disappointment, especially among the children.

For the first few days after the 14th the sun is seen only for a very short time, but as the sun rises higher in the heavens the time it is in sight increases daily until its height is reached, when it gradually begins to fade from view until in November it entirely vanishes from sight for another three months.

### EMIGRATION FROM BRITAIN.

**Increasing Tendency to Move to British Countries.**

The annual report on the Emigrants' Information Office states that 28,156 letters were received in 1912, a decrease of 6.9 per cent. Enquiries leading to the United States decreased by 14.8 per cent. and were only 1.4 per cent. of the total number of enquiries received. There was a net movement from the United Kingdom for places out of Europe of 268,486 passengers of British origin in 1912, as compared with 261,809 in 1911. The net movements to the various countries were as follows:—

| | 1912. | 1911. |
|---|---|---|
| Canada ..... | 133,531 | 134,765 |
| Australia ..... | 68,688 | 56,337 |
| New Zealand .. | 11,054 | 9,432 |
| United States . | 45,847 | 49,732 |
| South Africa .. | 4,233 | 7,527 |

There is an increasing tendency, the report says, on the part of British emigrants to proceed to other ports of the Empire rather than to foreign countries.

The number of immigrants entering Canada increased from 350,374 in 1911 to 395,804 in 1912. Of the latter 145,859 were of British origin, 140,143 were Americans, and 109,802 were of other nationalities. Thirty-four per cent. of the American settlers were of the farming class, and the actual wealth brought into Canada by American immigrants exceeded £4,800,000 during 1912.

### HE SENT HIS "BEST" REMEDY

The young daughter of Mrs. T. S. Dougall, 523 Flora Avenue, Winnipeg, was arranging some of her doll's washing on a clothes rack, beside the stove, when she fell, and her hand came in contact with the hot stove. She sustained a serious burn, and her screams brought her mother quickly to the spot.

"I sent to the druggist for the best remedy he had for burns," she says, "and he sent back a box of Zam-Buk. He said that there was nothing to equal it. I applied this, and it soothed the pain so quickly that the child laughed through her tears. I bound up the hand in Zam-Buk, and each day applied Zam-Buk frequently and liberally, until the burn was quite cured.

"The little one was soon able to go on with her play, and we had no trouble with her during the time the burn was being healed."

All druggists and stores sell Zam-Buk at fifty cents box; and Soap at 25c. tablet. Post free from Zam-Buk Co., Toronto, for price. Refuse harmful imitations.

A woman visiting a butcher shop called for a piece of beef. The butcher, in weighing it, had his hand on the scales. The lady, picking up a sharp knife and handing it to the butcher, remarked: "I haven't any use for it, but you may cut it off, and I'll take it along, anyhow." "Cut it off? Cut what off?" asked the butcher. "Your hand; you weighed it."

### BURIED TREASURE FOUND.

**Five Jars of Gold Dug Up In Surrey Is Reported.**

A story of buried treasure on a large scale comes from Haslemere, England.

A Surbiton resident, writing in a Surrey newspaper, is responsible for the details.

"Certain information," he writes, "regarding some private property in the vicinity of Haslemere has recently come into my possession which I think should be made public.

"Some years ago my informant, while working on some land, unearthed a large earthenware jar, securely sealed. On account of the great weight and curious design he at once took it to his employer, the owner of the property. Together they opened it, and found it to be full of gold coins.

"The owner, realizing that the great value of this find to him depended on secrecy, promised my friend a third of this and any other treasure they might find.

"A fence was put up, and excavations have been quietly carried on during the night until recently, resulting in the discovery of five more jars of gold and two containing ancient jewellery of immense value. In one of the jars a document was found written in Latin giving an account of the treasure, and stating that fifty jars altogether of jewels and gold were hidden, being buried in the form of a circle."

# New Treatment Now Advocated For Bronchitis

**Is Having Wonderful Success, and is Making Most Remarkable Cures.**

For bronchitis a different form of treatment is now advocated. It consists of a scientifically devised vapor that penetrates to the uttermost recesses of the lungs and bronchial tubes. Every spot that is sore, every surface that is irritated is at once bathed with soothing balsams and healing essences that make chronic bronchitis an impossibility.

This treatment now so universally employed in bronchitis, throat troubles, colds, etc., is called CATARRHOZONE. It acts just as air of the pine woods acts, as a healing antiseptic remedy for all diseases of the breathing organs.

Just think of it—a remedy that can be carried with the very air you breathe to the seat of bronchial or catarrhal inflammation. A remedy powerful enough to kill germ life and yet so healing that disease flees before it. Catarrhozone is truly a wonderful remedy. In many lands it has won its way, and is affording grand results to sufferers from colds, catarrh, throat weakness, asthma and bronchitis. There is no sufferer from a grippy cold or any winter ill, that won't find a cure in Catarrhozone, which is employed by physicians, ministers, lawyers and public men throughout many foreign lands. Large size lasts two months and costs $1.00 and is guaranteed; small size 50c., sample size 25c., all storekeepers and druggists, or The Catarrhozone Co., Buffalo, N. Y., and Kingston, Canada.

### LEATHER BEING INVENTED.

**German Substitute Is Fungus Growth on Gelatine.**

One of the latest German patents protects a method of preparing a substance which it is asserted can be used as a substitute for leather.

This "all leather" substance is prepared from a special mildew or fungus grown on gelatine or a similar substance. Various kinds of fungi can be grown by planting their spores on the gelatine surface and then keeping the surface wet. Some of the growths are colorless, others have red, brown, gray or even bluish tints, and all the lighter shades seem capable of taking dye. The leather produced up to now has been thin, very soft and rather weak.

The inventors are, however, now working to get a stronger material by the addition of white of egg or glue, by means of which it is hoped that several thin layers of the new product may be tanned together and that there will be no limit to the thickness of the new material.

### Man Who Had 100 Pipes.

A wife who obtained a judicial separation from her husband told a curious story at the Southwestern (London, England,) police court. She was Annie Traves, of 15 Farlow Road, Putney, and she stated that her husband, a master carpenter, would only allow her twopence a day to get dinner, though he had about £180 at the bank. "What does he do with his money?" inquired the Magistrate. "He spends it in clothes, pipes and other things," was the reply. "He has 100 pipes, between fifty and sixty walking sticks and innumerable pairs of boots."
