BANISH PIMPLES AND ERUPTIONS

In the Spring Most People Need a Tonic Medicine

One of the surest signs that the blood is out of order is the pimples, unsightly eruptions and eczema that come frequently with the change from winter to spring. These prove that the long indoor life of winter has had its affect upon the blood, and that a tonic medicine is needed to put it right. Indeed, there are few people who do not need a tonic at this season. Bad blood does not merely show itself in disfiguring eruptions. To this same condition is due attacks of rheumatism and lumbago; the sharp stabbing pains of sciatica and neuralgia; poor appetite and a desire to avoid exertion. You cannot cure these troubles by the use of purgative medicines—you need a tonic, and a tonic only, and among all medicines there is none can equal Dr. Williams' Pink Pills for their tonic, life-giving, nerve-restoring powers. Every dose of this medicine makes new, rich blood, which drives out impurities, stimulates every organ and brings a feeling of new health and energy to weak, tired, ailing men, women and children. If you are out of sorts give this medicine a trial and see how quickly it will restore the appetite, revive drooping spirits, and fill your veins with new, health-giving blood.

You can get these pills from any medicine dealer or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

REBUILD BURIED HOUSES.

Pompeiian Buildings Now Give Better Idea of Old City.

When first they began to dig out long-buried Pompeii, everything found there was taken to Naples, leaving nothing in the excavated places but the bare ruined walls.

Of late years a more rational plan has been followed, of leaving in place everything but the smallest objects of interest and reproducing roughly the houses uncovered.

Under the present director, Prof. Spinazzola, this idea has been developed still further. He has almost entirely rebuilt some of the houses, using all the material found, even to the fragments of the roof tiles.

On the famous street of Abundance, he has built even the upper stories and balconies and restored the windows and facades. This gives a new idea of the style of the city of pleasure.

A recent uncovered fresco represents Venus standing on a chariot drawn by four elephants.

It Doesn't Work.

"I wish my dollie didn't have such rosy cheeks," said little Beatrice.

"Oh, that makes her look strong and healthy," replied her mother.

"Yes, that's the trouble," rejoined the little miss. "When I want to play that she is very sick she looks so fat and healthy that I can't feel one bit sorry for her."

Pleasing the Public.

Passerby (stopped by beggar) — How is this? Only last week you sat here with a deaf and dumb card; now you're begging on account of a broken arm.

Beggar—Well, sir, business is business, and you know the public must have variety.

THE BEST MEDICINE I HAVE EVER USED

"The best medicine I have ever used" is what thousands of mothers say of Baby's Own Tablets. Once a mother has used the Tablets for her little ones she will use no other medicine and never fails to recommend them to her friends. Concerning them Mrs. John Thompson, Coutts, Alta., says: "I have given Baby's Own Tablets to my baby for constipation and think them the best medicine I have ever used. Please send me two more boxes, as I would not care to be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Original Lemon.

The lemon, which is going to be dear this year on account of a shortage in the crop, has a very clear history, says the London Chronicle. Unknown to the Greeks and Romans, it was introduced into Spain by the Arabs in the twelfth century, and in 1494 was being cultivated in the Azores and shipped in large quantities to England. The lemon tree, of which there are forty-seven varieties, is particularly fertile, a good specimen in Sicily ripening as many as 3,000 lemons during the season.

Aching Lumbago Backs Are Quickly Helped And Permanently Cured

Release, Yes, and a Cure for Lumbago is Now Known.

YOU CAN EASILY PROVE THIS.

To cure Lumbago—surely it's a good thing to know how. This information meant to Jno. E. Neave the difference between invalidism and robust health. Writing from his home near Cornwall, he says:—"A severe and prolonged attack of Lumbago in my youth rendered me at all times liable to aches in the back and loins. So established became the predisposition, and so frequent the attacks, I confess I accepted the condition as my particular weakness to be borne with as much composure as any evil circumstance might permit. One day an unusually bad attack developed, and unfortunately there was no medicine of any kind in the house. I sent to a neighbor for help and received with a strong recommendation a bottle of **Nerviline.** My friend was surprised we didn't use Nerviline, saying that they found use for it in their family almost every day. So quickly did Nerviline check the attack, and so grateful was the relief, that I was in a day on the high road to recovery. I have cured my tendency to Lumbago with Nerviline, and consider it the most powerful pain-subduing liniment ever made."

For curing colds, hoarseness, tight chest and winter ills Nerviline is a marvel; as for Lumbago, Sciatica and Rheumatism, Nerviline is considered to be without a peer. In the home it is especially valuable, because it cures cramps in half a minute, stops nausea, controls vomiting and upset stomach. For internal or external use, wherever there is pain, apply Nerviline. Get the 50c. family size bottle; trial size 25c., at all storekeepers and druggists, or The Catarrhozone Co., Buffalo, N. Y.

Change of Venue.

There was, and is, in a Western city, a lawyer who will do almost anything to get a delay. He had before a magistrate a case of a horse running at large, which usually involves a fine of about two dollars. He asked for a continuance. "On what grounds?" demanded the judge. "To ascertain the horse's age." "What has the horse's age to do with it?" "It may be a case for the juvenile court, your honor; maybe it is a juvenile horse."

An Old Settler Finds Quick Relief

CHAS. MARSHALL CURED BY DODD'S KIDNEY PILLS.

Mrs. Marshall Tells How Her Husband Suffered, and of His Speedy Recovery When He Used the Great Canadian Kidney Remedy.

Parkinson, Algoma, Ont., May 5 (Special)—Living far from towns and with doctors not within easy reach, many of the settlers have found Dodd's Kidney Pills an inestimable blessing. One of those is Mr. Charles Marshall, Sr., whose recovery from a severe case of kidney disease has recently been the cause of much satisfaction to his family and friends.

"My husband was suffering very much with his back and legs," Mrs. Marshall says, speaking of her husband's cure. "He went to see the doctor, and he told him he had urinary trouble, but he did not seem to get any better.

"Then I sent for some Dodd's Kidney Pills. Since taking them, he has no more pain in his back and legs, and his other troubles are all gone.

"I am indeed thankful for what Dodd's Kidney Pills did for my husband, and I hope other sufferers from Kidney disease will benefit by his experience, and use Dodd's Kidney Pills."

Urinary troubles are caused by diseased kidneys. So are backache, rheumatism, lumbago, and heart disease. The natural remedy is to cure the kidneys by using Dodd's Kidney Pills.

Minard's Liniment Cures Distemper.

A Remembered Grudge.

Queen Wilhelmina's recent visit to Paris has moved a Paris correspondent to tell again the story of the days when her Majesty of Holland was the most popular young personage in the world.

In the revised edition, the story is to the effect that she found it hard to learn English, and perhaps for that reason did not love England. The first map of Europe she drew showed an enormous Holland, a fair-sized Belgium and France, but an almost impercepitble Great Britain.

To draw particular attention to the diminutive island representing England, she wrote below it, "Land of Miss S." (her English governess).

Years later the young Queen said to the minister plenipotentiary of England:

"Be sure to tell her Majesty, Queen Victoria, that I love Englishwomen, all Englishwomen."

To which the minister bowed, and the Queen added:

"All Englishwomen who are not governesses!"

ECZEMA FROM HEAD TO ANKLES

Tortured With Terrible Itching and Burning. Scratched Until Tore Flesh. Lay Awake for Nights at a Time. Used Cuticura Remedies and Found a Cure.

St. Ola, Ontario.—"When I was ten years old I began to be tortured with a terrible itching and burning of the skin, and was told it was eczema. I have had it right along for seven years steady, it getting worse every year. I was affected from head to ankles. It seemed to appear like hives at first, then I would begin to scratch until I tore my flesh. It would always be at its worst at night. I have waked myself up at nights scratching and my fingers would be just stiff and cramped from scratching, so that I would be hardly able to straighten them out. My, how I have suffered! My face and whole body would be just a mass of blotches red as fire and after having soap and water on my face then I would begin to burn. I have lain awake for nights at a time when my eczema was at its worst.

"I would be tortured for months at a time. I was getting not only disheartened, for nothing helped, but completely disfigured also, but dame fortune smiled upon me one day in the summer of 1910 and laid before my eyes an advertisement of Cuticura Remedies. I used them according to directions and after a few applications I began to feel and see relief ahead. It is nearly six months since I first began and I can truthfully say I've found a cure." (Signed) Miss Louise E. Wilson, Dec. 12, 1911.

EXECUTION BY DROWNING.

It Was Quite a Common Thing in the Middle Ages.

This mode of capital punishment has not long ceased in Europe, and is probably still in use in other parts of the world. As early as the first century of our era the Germans executed the meaner and more infamous criminals by plunging them in bogs and fens. In the Middle Ages executing by drowning was so common that grants of the right to inflict capital punishment ran "with pit and gallow." The pit or well was for drowning female delinquents, but the penalty was sometimes inflicted on men. The doom of the parricide was to be tied up in a sack and cast into the sea. Drowning seems to have been regarded as a mild form of the death penalty, for in the year 1566 a man convicted of theft and sacrilege was sentenced to be suffocated by water, "by the Queen's special grace." At this date the penalty had grown nearly obsolete in England, but in Scotland it survived until 1685. The last execution in Switzerland was in 1652, in Austria 1776, in Iceland 1777, and in Russia early in the eighteenth century. One of the most eccentric modes of inflicting the penalty was adopted in Saxony in the year 1734. A woman convicted of child murder was sewn up in a sack, along with a cat, a dog and a snake, and then thrown into the water and drowned.

A Household Remedy

HABITUAL GRUMBLING.

Many Homes Are Made Unhappy and Cheerless by It.

The man or woman with a grievance is a candle of light compared with the habitual grumbler—the one whom nobody can ever satisfy, and who thinks the world is all going to pieces because people will not do just exactly what this particular person thinks is right. Such an one gets up on his wrong side in the morning, and nothing goes right all day. He grumbles at the weather, grumbles at his breakfast, grumbles at his clothing, grumbles at going out, would grumble all the same if he had to stay in; grumbles at his wife, grumbles at his children, and at last grumbles himself away to his work. When he comes home it is the same old story, and his wife gets any youthfulness she might retain crushed out of her; the children are indifferent, it is like the pattering of rain on a rainy day—they have been used with it all their lives and they have ceased to regard it, and so it goes on, until some day when it is more than usually depressing, or when the woman's overwrought nerves give way, and there is a little scene. But a grumbler never thinks himself in the wrong—it is another trial he has to contend with, and possibly he may think himself a kind of martyr to his wife's cantrips, while all the time the plain fact of the matter is that he is the one who is responsible.

Couldn't Breathe Through His Nose Stuffed With Catarrh

Catarrhozone Inhaler the One Means of Relief, and it Cured Quickly.

The extraordinary efficacy of Catarrhozone is without a parallel. A sneezing cold is cured in ten minutes, a harsh cough is eased in an hour, the most offensive catarrh is thoroughly drawn from the system. In case of asthma and bronchitis the relief and certain cure that comes from the healing balsamic extracts in Catarrhozone is simply wonderful.

"For more than twenty years I suffered with a cough, bronchitis, asthma, and nasal catarrh," writes J. F. Fenwick, of Staunton P. O. "Every attack I had seemed to grow worse, and I could hardly breathe on account of an accumulation of phlegm in the nose and throat. One day I tried Catarrhozone, and in ten minutes was wonderfully relieved. I could breathe freely and naturally through the nose, and blood spitting was stopped—the phlegm was cleared away and my regular breathing restored. No remedy can do more than Catarrhozone."

There is no remedy so certain and safe as Catarrhozone, but being a good remedy it is imitated. Beware of the substitutor. Large Catarrhozone lasts two months, price $1.00. Smaller sizes 25c. and 50c. At all storekeepers and druggists, or The Catarrhozone Co., Buffalo, N. Y., and Kingston, Canada.

FED BY PEN FILLER.

Schoolboy Brings Baby Rabbit Through Critical Period.

A baby rabbit, the property of a Horley (England) schoolboy, has been successfully reared with a fountain-pen filler as a feeding-bottle.

Jack St. John Smith, aged 13, was walking in the grounds of the Barstow Preparatory School, near Horley, when he saw a rabbit run down a hole. He dug around the hole, and two feet below the surface found a two-days-old rabbit, no bigger than a full-sized mouse. There was very little fur on its body, and its eyes were closed.

Wrapping it in his handkerchief, Master Jack took it home. The rabbit was housed in a chocolate box. It was too young to lick or chew anything, so a fountain-pen filler was obtained and a drop of milk squeezed into the rabbit's mouth. After a time Pincher, as it was called, opened its mouth eagerly when it felt the first drop of milk and sucked away at the filler. During the first critical days Pincher emptied a filler of milk three times every two hours.
