Ireland Forever!

Mr. Editor,—

DEAR SIR,—Now that the Scotchman has had a chance to blow the horn of his country in a public lecture and the Englishman has had the same chance through the columns of your paper, I think it is only right to give the Irishman a chance also. Inspector Campbell said in his address that the Irish are leaders of men, and I am glad that so intelligent a man as Mr. Campbell has done justice to the Irish by saying so. The Englishman said that if the Irish are leaders of men they have done little for Ireland. I would ask our English friend if England has ever given the Irish a chance to do anything for Ireland? England has in the past shut Irish goods out of foreign markets by heavy duties. She has turned Irishmen out of their homes and put Englishmen in their stead. She has even placed bounties on Irishmen's heads and passed laws which almost crushed the life out of Ireland. You intelligent people of today, just think of it.

Our English friend says it is hard to define what an Englishman is. I agree with him, but I can tell him their origination. They originated from a band of pirates who came from north Germany to plunder the shores of Great Britian.

Our friend would be so mean as to try and claim Wellington for England. He says Wellington once said that "were he born in a stable it wouldn't prove him to be a colt." We all very well know that an Irishman could not be changed into a cow or horse, but an Englishman needs no changing, for he is a Bull wherever he is found, and sometimes a bore, especially when he begins to blow about his country. Napolean said an Englishman did not know when he was beaten. N-i doubt what led Napoleon to say this was the job he had in fighting the English before and at Waterloo. I suppose our friend thinks there were no Irish there. I must let him know that he is mistaken. Why, even to-day there are two Irish regiments and a great number of Irishmen scattered throughout the army. If you investigate you will find that the Irish are good brave fighters, and a more loyal set never lived. I think it would become the Englishman not to say anything bad about the Irish when he knows how much harm England has done (in the past) to Ireland. I will close proclaiming my devotion to my country! Good old Ireland forever! Amen!

—IRISHMAN.

Beats the Klondike

Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption accompanied by hemorrhages, and was absolutely cured by Dr. King's New discovery for Consumption, Coughs and Colds. He declares that gold is of little value in comparison with this marvelous cure; would have it, even if it cost a hundred dollars a bottle. Asthma, Bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for Consumption. Sold at any drug store. Regular size 50 cents and $1.00. Guaranteed to cure or price refunded.

Master Willie Griffith, a nine-year-old Perth boy, lost an eye in a peculiar manner. He was attaching a strap to a nail in the ceiling when a tack became loose and fell, striking him squarely in the eye. It was thought at first that nothing serious had happened, but in a few days pus commenced gathering in the boys eye, and on a close examination it was found that the sight was gone and the eye was gradually decaying. Medical assistance was called but on examination, it was found that nothing could be done to save his eye, and it was accordingly removed.

Eugenia.

From Our Own Correspondent.

Plenty of rain and fine growing weather.

Mr. Jos. Williams had a valuable cow killed by lightning on Friday night week. About three years ago he had a fine horse killed by lightning at pretty near the same spot.

Mr. J. Walker on Friday week, during the thunder storm, was stunned by the lightning, being knocked down, as was also a horse near by. Fortunately all soon recovered and no other damage was done.

Arthur, son of Mr. William Walker, sr., had his leg broken, at school recently while playing foot ball.

Mr. and Mrs. Crocket of Toronto Junction are visiting at Mr. J. E. Williams'.

Mr. Walton Williams visited friends in the city recently.

Mrs. Madill is visiting friends at Owen Sound.

Married—On May 23, by the Rev. Mr. Fleming of Maxwell, Miss Ida Wilson to Mr. Robt. John Pedlar, both of Eugenia. On Thursday evening a reception was held at the residence of Mr. and Mrs. R. J Pedlar. About one hundred guests were present. Some handsome and useful presents were presented to the bride and groom by their many friends, showing the high esteem in which they are held by all their friends around Eugenia. The following address was read at the presentation:

ADDRESS.

DEAR MR AND MRS. PEDLAR,—We, a small number of your friends and neighbors, are assembled here this evening on the occasion of your recent marriage to tender you our congratulations and also to offer you this slight token of our love and esteem for you. We all join in wishing you long life, happiness and prosperity, and may God's choicest blessings rest on you both now and forevermore. Signed by Mrs. Ed. Johnston, Mrs. Jacob Williams, Mrs. Jas. Woodburn.

REPLY.

DEAR FRIENDS AND NEIGHBORS,—We cannot find words to express my feelings at this time, but be assured we are more than pleased to see so many of you present here to night to show your good will towards us both, and we are thankful to you all for the many useful articles you have here presented to us. Be assured that this night and the many kind faces now before us shall always occupy a tender spot in our memory, and may our conduct through life be such as to merit the high respect you have shown towards us. Thanking you again for your kindness, on behalf of my wife and myself,

R. J. PEDLAR.

The Money Some Men Make.

First Man: "Hello Bill, what are you driving at these days, you seem to be on the jump all the time and walk as though you had important business on hand."

Second Man: "Well, the fact is, Jack, a little prosperity puts the drive in a man. I have struck a position at last, after a year of hard luck, which is panning out first-rate."

First Man: "Well, what's your luck, for I am doing mighty little these days. But what have you struck?"

Second Man: "I have taken a book agency from The Brandley-Garretson Co., (Limited) of Brantford, Ont. They have been at me for months to canvass, but I laughted at the idea, and at last they made me a good offer, so I thought I'd give it a trial. I have been at the work now two months, and I like it first-rate, and am going to stick to it."

First Man: Say Bill, do you think I could do the work, for I saw the advertisement of this firm yesterday, for more men."

Second Man: "I don't see why you could not, but write and get them to make you an offer."

First Man: "Thanks old man, I will, and I'll let you know how it turns out."

Mr. Jas. Reid of the O. D. R. handed in a relic of past ages on Saturday in the shape of a prong from an elk's horn which he had ploughed up on his farm. The specimen measured 31 inches in length. It was previous to the advent of the earliest settlers that these large animals roamed this district, and there are no records to inform us of the exact date when they became extinct here but it could not have been so very long ago, as pieces of the horns are yet frequently found by tillers of the soil.

Come and have a good time.

A couple of weeks ago we said word had been received here of the marriage of Miss Mary Smith to a Mr. Greenaway of Crystal City. During the past week we have received two letters denying the truth of this statement. The information did not reach us through any sinister motive, and was simply a mistake on the part of our informant.

Messrs. T. Clayton and Fred Strain of this place left on Monday morning for a trip which only latter day locomotion could make possible. They sail from Quebec this week for London direct, from where they will take the wheel for Liver pool, York, Birmingham, and other large centres, and will also tour in Scotland and Ireland before returning. The trip is expected to last from two to four months.

The first lacross match of the season in the Grey district was played at Markdale between the Shelburne and the home teams on Friday of last week, resulting in a victory for Shelburne. The least said about this game, for the honor of lacross, the better. Suffice to say that it was a disgusting exhibition of "sport." Five of the Shelburne team had their heads laid open and came from the field bespattered with blood and with their heads tied up. Few of the spectators who were present on that occasion will care to witness another game of this nature, and with a continuation of this style of playing lacrosse will die out completely, as it is now gradually doing. Many of the best people of Markdale deplored the slugging and refused to defend their team. They would like to see baseball substituted for lacrosse.

No. 6 Co., 31st Battallion, took train at this station for Niagara camp on Tuesday morning at 9.20. There were seven coaches filled with the red coats when leaving here, including three companies from the north, and Shelburne, Orangeville and Bolton Companies were to be added en route. No. 6 went out with its full complement of men, but did not make quite as good a showing as usual, owing to the fact that some under-sized men had been accepted. Capt. E. K. Richardson joined his company at Toronto. The other officers of the company are:—First Lieut., Frank McFarland; second Lieut., C. Richardson; Stff. Sergt. J. Weber; Sergts., J. Field, W. Weber jr., J. Davis, W. Clark; Bugler, Bert Field. In addition there were 38 privates. It is interesting to note that Sergt. J. Weber has been a member of No 6. for 33 years. Among the other older members are Sergt. W. Clark 21 years, Jos. Field 18 years, and John Davis 15 years. The Advance wishes the boys a pleasant outing.

A Prisoner's Release.

A bright youth of eighteen suffered so badly from asthma and bronchitis that he was forced to remain in an air-tight room for months at a time. Dr. Clarke's Kola Compound cured.

Mr. L. O. Lemieux, C. P. R. Engineer, 356 Alexander Street, Winnipeg, writes—My son who is just eighteen years of age, has been a terrible sufferer from asthma and bronchitis during eight years. I have spent hundreds of dollars with doctors and many remedies, but he became worse each year. Many times he became so weak and the attacks so severe, that we thought each would be his last. For months at a time he has been confined to the house in an air-tight room, and continually treated with mustard plasters and poultices to keep him from choking. About the first of September we heard of Clarke's Kola Compound, and purchased in all seven bottles. While taking the first four the change was very slight, but shortly after taking the fifth he gradually became better, and could soon go out any day, and since completing the treatment has been completely cured. He goes out in the severest Manitoba weather, and exposes himself to severe tests, and the attacks have not returned. Beyond all has been a blessing to him, and I feel it my duty to highly recommend it to any person troubled with this disease."

Clarke's Kola Compound is the only permanent cure for asthma yet discovered, and it has cured over 800 cases in Canada alone. Sold by all druggists. Sample sent to any address, Enclose a cent stamp. Address the Griffiths & Macphearson Co., 121 Church Street, Toronto.

Sold by T. J. Sheppard.

Important to Athletes.

Mr. Mack White, the well-known trainer of the Toronto Lacrosse Club and Osgoode Hall Football Club, writes: I consider Griffiths' Menthol Liniment unequalled for athletes or those training.
