WOMEN NEED A SAFE TONIC

And There Is Nothing Better Than Dr. Williams' Pink Pills for Toning Up the Blood.

It is said that woman's work is never done, and it is a fact that whether in society or in the home her life is filled with more cares and more worries than falls to the lot of man. For this reason women are compelled regretfully to watch the growing pallor of their cheeks, the coming of wrinkles and the thinness that becomes more distressing every day. Every woman knows that ill-health and worry is a fatal enemy to beauty, and that good health gives the plainest face an enduring attractiveness.

What women fail to recognize is the fact that if the blood supply is kept rich and pure, the day of the coming of wrinkles and pallor, dull eyes and sharp headaches is immeasurably postponed. Dr. Williams' Pink Pills are literally worth their weight in gold to growing girls and women of mature years. They fill the veins with the rich, red blood that brings brightness to the eye, the glow of health to sallow cheeks, and charms away the headaches and backaches that render the lives of so many women constantly miserable.

Mrs. William Jones, Crow Lake, Ont., says: "I feel that Dr. Williams' Pink Pills saved my life. I was so badly run down that I could hardly drag myself around. I was so bloodless that I was as pale as a sheet, and you could almost see through my hands. In fact the doctor told me my blood had all turned to water. I was taking medicine constantly, but without benefit. My mother had so much faith in Dr. Williams' Pink Pills that she bought me two boxes and urged me to take them. How thankful I am that I followed her advice. Before these were gone I began to feel better, and I continued using the Pills until I had taken five more boxes, when I was again enjoying the blessing of perfect health, with a good color in my face, a good appetite, and I feel sure a new lease of life. I will always, you may be sure, be a warm friend of Dr. Williams' Pink Pills."

If you are weak or ailing, begin to cure yourself to-day with the rich red blood Dr. Williams' Pink Pills actually make. If you do not find the Pills at your dealer's, send 50 cents for a box or $2.50 for six boxes to the Dr. Williams' Medicine Co., Brockville, Ont., and they will be sent you by mail, post paid.

BIRMINGHAM'S INDUSTRIES.

Artificial Eyes, Police Whistles, Jew's Harps, Some of the Lines.

In Birmingham, which is one of the chief manufacturing cities of England, a number of small articles are produced, some of which are of a decidedly curious character and for which the Birmingham maker has to some extent created his own market. For example, it is not generally known that Birmingham is the principal source of the world's supply of Jew's harps. For 60 years the industry has been carried on in the vicinity of Ashtedrow, a venerable quarter of the city, by members of the Trowman family. Originally the industry came from Halesowen, and the Jew's harps are still made in a little home smithy strongly reminiscent of its Black Country origin. Great Britain is no longer the best market, enormous quantities being exported, especially to half-civilized countries. The Zulu musician, for example, has taken very kindly to the Jew's harp and needs an especially large size to suit his somewhat capacious mouth.

Another survival is the trade of gold-beating, which, it is claimed, is one of the oldest in the city. To a large extent this trade has gone to Germany through the competition of cheap labor, but it is claimed that the best gold leaf is still made in England. This work is done entirely by hand, and the customary sign is the picture of a gilded arm bearing a hammer poised for the blow.

In regard to police whistles, it is known that one Birmingham firm has equipped more police forces in all parts of the world with whistles than any other firm. The whistles are made largely of German silver, but occasionally, especially for presentation purposes, they are of solid silver. They are often artistically engraved, and a really "show" whistle is a very handsome production. Great quantities are sent out to the United States as well as to South America, India, Canada and the colonies. Handcuffs, manacles, and other instruments of detention have for many years been a specialty of Birmingham manufacture.

The manufacture of artificial eyes is distinctly a Birmingham industry, and it has been highly developed. A stock of 5,000 eyes is regularly kept by the most important firm in the industry. One family has been engaged in this manufacture for generations. Eyes are sent out to all parts of the world, and British hospitals are especially good customers.

Another industry is that of clock making, the production of curious and exceptional chronometers being decidedly a Birmingham specialty. Many big chiming clocks and bells are produced in Birmingham and there is a large demand for grandfather clocks, especially from America.

Other curious products of Birmingham include coffin furniture and tinfoil, the latter being used to wrap chocolates and tobacco. It is produced by rolling tin to such extreme thinness that 13,000 square inches weigh only a pound.

RACE BETTERMENT.

Important Conference Will Be Held at Battle Creek, Michigan.

A working plan having as its ultimate purpose the building of a perfect race of mortals is to be formulated at the National Conference on Race Betterment to be held in Battle Creek, Michigan, on January 8, 9, 10, 11 and 12, 1914.

Intermediately the plan contemplates gradual betterment of living conditions, the achievement of increased human efficiency; and higher standards of physical and mental development.

For several years increasing interest has been centred upon the problems which the Conference has elected to consider. The much-discussed eugenics movement is one of the channels in which this interest has been manifested. The well-defined femininist movement is another out-cropping of the general groping for new race ideals. These and correlated topics will be considered at the coming Conference.

The organization of a national body to continue the work inaugurated by the Conference itself, will be affected. This national body, it is anticipated, will arrange for annual meetings and in a very short time will lay the foundation for a world movement for an improved race.

The list of those who will take part in the Conference includes many men and women of national prominece.

During the progress of the Conference there will be a comprehensive mental and physical classification of several hundred school children, which will take into consideration the effect of heredity and environment upon the offspring.

Standards of mental and physical perfection will be determined and a general campaign to secure the world-wide adoption of these standards as a true test of mankind will be among the other topics to be considered by the Conference.

Very Sick----No Doctor; How Aid Was Secured

The Experience Not Uncommon.

The person who suffers from a stomach ailment, if far from a doctor or drug store, is bound to be extremely miserable. Such was the case with Mr. Johnson E. Evans, a well known farmer living near Edmonton, who writes: "My stomach got upset I think owing to bad water. I found great pain after eating. There was swelling and much gas in my stomach and no person could have been more miserable. Away out in the country it is not easy to get medical attention except at great cost, and I had to do without. A neighbor who heard of my condition sent me a partly filled bottle of 'Nerviline.' The first dose eased the pain in my stomach. How good that relief was I will never be able to tell. Nerviline cured me. To-day our home is supplied with many bottles of Nerviline. No farmer should be without it, because if it's cramps, diarrhoea or internal pain, Nerviline is a dead sure cure."

Sold by every storekeeper and druggist. Family size 50c., trial size 25c., prepared by The Catarrhozone Co., Buffalo, N.Y., U.S.A.

Obeying the Injunction.

"You should mend your ways," said the good man, addressing the "light-fingered gent," who had been caught at it. "Why don't you conduct yourself in accordance with biblical teachings?"

"I do. I never let my left hand know whose pocket my right hand is picking."

Ideal Protection Against Inroads of Catarrh

Also Quick Cure For Colds.

No medicine brings such prompt relief, exerts such an invigorating influence, or so thoroughly and speedily cures throat troubles as "Catarrhozone." Doctors, hospitals, sanitariums, all say that for those who suffer from changeable weather, for those who are predisposed to catarrh, lung trouble, deafness, or bronchitis, no treatment is so indispensable as "Catarrhozone."

I contracted a severe cold while following my occupation of furniture travelling, and eventually it developed into Catarrh. The desultory mode of life I was following gave me very little chance to attend to the Catarrh condition, and at last I became a victim of Chronic Catarrh. I bought a large package of Catarrhozone, used it as per directions, and have never been bothered since. I will be only too glad to give any information I possess to any person suffering from the disease that was the bane of my life two years.

A. H. SWARTZ, Brockville, Ont.

Two months' treatment guaranteed, price $1.00, smaller size 50c.; at all druggists, or the Catarrhozone Company, Kingston, Ont., and Buffalo, N.Y., U.S.A.

TRAGEDY OF SUPERSTITION.

Wife Gives Life That Husband Might Complete Studies.

An extraordinary tragedy of superstition is reported from Burdwan, India, where a man named Vahamidan murdered his wife with her own consent in the course of a secret ceremonial.

Vahamidan had for some time been learning the principles of Tantric worship from a monk. To complete his studies he needed a dead body. After several unsuccessful attempts to procure one, he proposed to his wife that she should aid him in his secret studies by surrendering her life. He assured her he would restore her as soon as he had finished his worship.

At midnight the devoted wife accompanied her husband to the cremation ground, and there, with her consent, he cut her in two and began his worship to the goddess Kali. His devotions concluded, Vahamidan spent several hours trying to restore the woman to life.

He was found by the police, uttering loud lamentations and beating his breast in self-condemnation near the spot where lay the mangled remains of his wife.

"ANOTHER KNIGHT MOTOR SUCCESS."

The adoption of the Knight Motor by the F. B. Stearns Company of Cleveland seems to have been merely the beginning of the taking up of this motor by several prominent firms throughout the United States.

The achievement of the Knight Motor, both in this country and abroad, have induced the Moline Automobile Company of Moline, Ill., to adopt it. This company will have cars equipped with the powerful Knight Motor on the market by the first of the year.

Scarcely second in importance to their announcement in regard to the Knight Motor, is the recent purchase of a license by J. M. Willys of the Willys Overland Company. The Overland people are, by the way, one of the largest poppet engine builders of the United States. In the old Garford plant at Elyria, Ohio, which was formerly employed in the construction of Garford Trucks, they have started to build the Knight Motor. This is most significant, for possibly no one motor car company has been more strikingly successful than that directed by Mr. Willys.

Easy Mark.

Madge—"I hear he's very sweet on you."

Marjorie—"Rather! He's good for about two pounds of candy every week."

EXECUTIONER'S PAY.

France Was More Liberal Than England.

James Berry was not so well paid for his services as his French confrere, M. Antoine Diebler, who draws £560 a year, while his four assistants have a similar amount to divide between them. Sanson, the first executioner to wield the guillotine, was originally paid £1,520 a year, but when executioners were appointed in each department this was reduced to £800. Before the Revolution the legal tariff in France was 25s. for a beheading, 16s. 8d. for a burning at the stake, and the same amount for a hanging, with allowances for the erection of a scaffold or the provision of fuel. One of James Berry's predecessors for a brief period donned a uniform when at work. In 1785, according to a contemporary chronicler, the Sheriffs of London were "so pleased with the excellent mode in which Edward Dennis, their hangman, performed his duties that they presented him with a very elegant official robe—a khilaut, in fact, as Eastern potentates term a similar garb of honor. Dennis found this inconvenient when at work . . . and sold it to a well-known character, Old Cain, who, having set up as a fortune-teller, wanted a robe to complete the costume in which he received dupes."

BARGAINS IN STOCK.

Won't interest the man who is nursing a bunch of sore corns. Give him a bottle of Putnam's Corn Extractor. It is painless, takes out the corn, cures in one day. Beware of substitutes for "Putnam's," 25c. at all dealers.

Fitting Climax.

"When a railroad is completed they always drive a golden spike at the end."

"What of it?"

"When the English militants get the ballot, I s'pose they will signalize the finish of the campaign by throwing a gold-plated brick through a stained-glass window.

Your neighbor uses LIQUID SULPHUR.

Pappooses No Longer.

Teacher—"Yes, children, an Indian's wife is called a squaw. Now, what are the little Indian babies called?"

Bright Pupil—"I know, miss, squawkers."

Minard's Liniment Cures Diphtheria.

Did you ever meet a self-made man who was ashamed of his job?

Jimmy and his pals were playing marbles as the new minister came along. "Boy, can you show me the way to the postoffice?" Jimmy pointed the way and then returned to his marbles. "Little man, don't you know it is wrong to play marbles? That is a form of gambling. Come with me and I will show you the way to heaven." "Ah, cheese it, mister; you show me the way to heaven? Why, you don't even know the way to the postoffice!"

Why present an old appearance before your time?

WOMEN IN AFRICA.

Have the Privilege of Marrying Whom They Please.

Although woman in Africa is regarded as property she has certain rights which are seldom infringed upon, and of these the most important is her right to marry whom she pleases, or rather to refuse to marry one who does not please her, says the Southern Workman.

There are two reasons for this. First, women married against their wills have been known to commit suicide. Second, women married against their wills have murdered their unloved husbands, usually strangling them when asleep. So, in forcing one's self upon one of these women there is liability to a great loss—the loss of valuable property or of no less highly prized life.

The young girls are well cared for, partly that they may be comely and draw many suitors. Every girl will tell you frankly that she wishes to marry and have a good husband and children. Every father is anxious to have his daughters marry well. To obtain a wife one must pay a dowry in cattle to the father, or, should the father be dead, to the nearest male relative. If a girl is much sought after, her father naturally asks a larger dowry. When the man has paid part of the dowry the father may give consent to a provisional marriage and permit the couple to live together. Should the husband be too slow in paying the remainder of the dowry his wife is taken from him.

Trial marriages are common and can be set aside by either party. Their principal objects in marriage are mutual helpfulness and the perpetuation of the race.

When a Woman Suffers With Chronic Backache

There Is Trouble Ahead.

Constantly on their feet, attending to the wants of a large and exacting family, women often break down with nervous exhaustion.

In the stores, factories, and on a farm are weak ailing women, dragged down with torturing backache and bearing down pains.

Such suffering isn't natural but it's dangerous, because due to diseased kidneys.

The dizziness, insomnia, deranged menses and other symptoms of Kidney complaint can't cure themselves, they require the assistance of Dr. Hamilton's Pills which go direct to the seat of the trouble.

To give vitality and power to the kidneys, to lend aid to the bladder and liver, to free the blood of poisons, probably there is no remedy so successful as Dr. Hamilton's Pills. For all womanly irregularities their merit is well known.

Because of their mild, soothing, and healing effect, Dr. Hamilton's Pills are safe, and are recommended for girls and women of all ages. 25 cents per box at all dealers. Refuse any substitute for Dr. Hamilton's Pills of Mandrake and Butternut.

Belief.

"Do you believe in predestination?"

"In a way, yes."

"In what way, for instance?"

"Well, I believe that if I were to invest in a building lot to-day the price of real estate would be predestined to go down to-morrow."

Angel Food.

Mrs. Nicker—Do you have eggs for breakfast?

Mrs. Bocker—No; but we have a phonograph record of a cackle.

Minard's Liniment Cures Distemper.

How She Carried the News.

The little maid stood in the parlor doorway, one hand on the doorknob. For a moment she gazed at her father, who was preparing to take his afternoon nap.

"Papa," she said, "do you know what I am going to give you for your birthday when it comes?"

"No, dear," answered the fond father, "but please tell me."

"A nice new china shaving-mug, with gold flowers on it all round," said the little maid.

"But, my dear," explained her parent, "papa has a nice one like that already."

"No, he hasn't," his little daughter answered, thoughtfully, "'cause—'cause I've just dropped it!"
