CHRISTIAN SCIENCE HEALING

New York Legislature Places Healing on Same Level as Medical Practice

A despatch from Albany, N.Y., says: The McClellan-Thorn Bill, passed by the State Legislature by a vote of 79 to 50, legalizes the practice of Christian Science healing and places it on a level with ordinary medical science.

Commenting on the bill, which makes it possible for a patient to have recourse to mind cure without running contrary to the State medical law, James F. Lord, a son-in-law of Thomas F. Lawson, of Boston, and Robert S. Foss, who have been in Albany in favor of the bill, issued a statement declaring that the passage of the bill by the Legislature has enabled New York to take her rightful place among other progressive states in protecting by State law the medical as well as the religious rights of their citizens."

"For centuries," they said, "medical systems have been dosing the body with drugs and at the same time administering despair to the mind, expecting thereby to effect permanent cures. Body is not first and the mind secondary. Mrs. Eddy's great discovery, that it is the human mind that makes sick and the Divine mind that makes well is gradually receiving the recognition it deserves.

"The McClellan - Thorn Bill amends the medical law so the people of the State may resort to Christian Science for help without violating in any way the provisions of the Medical Practice Act."

EXPERIMENTS WITH CROPS.

Material Furnished Free of Charge to Each Applicant.

The members of the Ontario Agricultural and Experimental Union are pleased to state that for 1914 they are prepared to distribute into every township of Ontario material of high quality for experiments with grains, fodder crops, roots, grasses, clovers and Alfalfas, as follows:—

No.	Experiments	Plots
1	—Testing two varieties of oats.	2
2a	—Testing O.A.C. No. 21 Barley and emmer	2
2b	—Testing two varieties of two-rowed barley	2
3	—Testing two varieties of hull-less barley	2
4	—Testing two varieties of spring wheat	2
5	—Testing two varieties of buckwheat	2
6	—Testing two varieties of field peas	2
7	—Testing two varieties of spring rye	2
8	—Testing two varieties Soy, Soja or Japanese beans	2
9	—Testing three varieties of husking corn	3
10	—Testing three varieties of mangels	3
11	—Testing two varieties of sugar beets for feeding purposes	2

24	—Testing two varieties of sweet corn	2
28	—Testing two varieties of potatoes	2
29	—Testing three grain mixtures for grain production	3
30	—Testing three grain mixtures for fodder production	3

Each plot is to be two rods long by one rod wide, except No. 28, which is to be one rod square.

Any person in Ontario may choose any one of the experiments for 1914 and apply for the same. The material will be furnished in the order in which the applications are received, while the supply lasts. It might be well for each applicant to make a second choice, for fear the first could not be granted. All material will be furnished entirely free of charge to each applicant, and the produce will, of course, become the property of the person who conducts the experiment. Each person applying for an experiment should write his name and address very carefully, and should give the name of the county in which he lives.

TO CELEBRATE PEACE.

Albany Assembly Authorizes Expenditure of $20,000.

A despatch from Albany, N.Y., says: The Nelson Bill, designed to appropriate $20,000 for the celebration in February, 1915, of one hundred years of peace between Great Britain and the United States, passed the Assembly by a vote of 91 to 37.

TWENTY YEARS FOR MURDER.

Sentence on New York Youth Who Killed Toronto Man.

A despatch from New York says: Harry Schaeffer, murderer of William Martin, of Toronto, was sentenced to Sing Sing by Justice Davis in Supreme Court. The youth was convicted of murder in the second degree, for which he will serve from 20 years to life, with hard labor. Despite his obstinacy in refusing to plead guilty to murder in the second degree on the pretext that he would rather go to the electric chair than spend 20 years in prison, Schaeffer was elated when his life was saved, and smiled as sentence was pronounced. In sentencing the prisoner, Justice Davis said: "Schaeffer, you are undoubtedly guilty of murder in the first degree, but I am glad to know that the jurors did not wish to send you to the death chair because of your youth. You are a fortunate young man."

ACCIDENTALLY SHOT.

Boy Received Gun Wounds in the Face, Neck and Chest.

A despatch from Kingston says: Wm. Leavins, aged 14, an Old Country boy, employed by Arnold Wemp, of Stella, Amherst Island, was brought to the hospital on Wednesday night with several gunshot wounds in his face, neck and chest. Harold Smith, another farm hand at the same place, was cleaning a gun while the Leavins boy was 60 feet away cleaning his boots. Smith did not know the gun was loaded and snapped the trigger.

BIG JEWELLERY ROBBERY.

Thief Claimed to Be a Representative of the Telephone Co.

A despatch from Montreal says: Claiming to be a representative of the telephone company, a clever thief gained entrance to the home of W. A. Handfield at Outremont and got away with jewellery valued at $5,000.

The thief presented himself at the house, carrying a telephone. As Mr. Handfield had asked the telephone company to reinstall the service after his absence from the city, the man was given the run of the place. He rifled the jewel case of Mrs. Handfield in an upstairs room, and when ready to depart made the excuse that he had forgotten some tools, and jumped into an automobile, which met him when he left the house.

DECREASE IN EMIGRATION.

Remarkable Reduction in Sailings From Old Land.

A despatch from London says: Emigration returns for the last few months show a remarkable decrease compared with last year in the number leaving for Canada, the comparisons showing:

	1913.	1912.
December	1,868	3,070
	1914.	1913.
January	1,936	3,571
February	4,458	8,359

Figures for Australia and New Zealand show an even more remarkable reduction. It is probable that the gloomy letters to the press on the experiences or prospects of emigrants which have been common recently, are largely responsible for these reductions.

CLEVER WIFE

Knew How to Keep Peace in Family

It is quite significant, the number of persons who get well of alarming heart trouble when they let up on tea and coffee and use Postum as the beverage at meals.

There is nothing surprising about it, however, because the harmful alkaloid—caffeine—in both tea and coffee is not present in Postum, which is made of clean, hard wheat.

"Two years ago I was having so much trouble with my heart," writes a lady in the West, "that at times I felt quite alarmed. My husband took me to a specialist to have my heart examined.

"The doctor said he could find no organic trouble but said my heart was irritable from something I had been accustomed to, and asked me to try and remember what disagreed with me.

"I remembered that coffee always soured on my stomach and caused me trouble from palpitation of the heart. So I stopped coffee and began to use Postum. I have had no further trouble since.

"A neighbor of ours, an old man, was so irritable from drinking coffee that his wife wanted him to drink Postum. This made him very angry, but his wife secured some Postum, and made it carefully according to directions.

"He drank the Postum and did not know the difference, and is still using it to his lasting benefit. He tells his wife that the 'coffee' is better than it used to be, so she smiles with him and keeps peace in the family by serving Postum instead of coffee."

Name given by Canadian Postum Co., Windsor, Ont.

Postum now comes in two forms:

Regular Postum — must be well boiled. 15c and 25c packages.

Instant Postum—is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage **instantly.** 30c and 50c tins.

The cost per cup of both kinds is about the same.

"There's a Reason" for Postum.

THIRTY YEARS FOR USURY

Montreal Man Attempts Suicide to Escape Long Term of Imprisonment

A despatch from Montreal says: W. H. Tapley, usurer, found guilty at the Assize Court, was sentenced to thirty years in the penitentiary by Mr. Justice Lavergne. The evidence upon which Tapley was convicted was supplied by his 14-year-old daughter. When he learned his fate the prisoner collapsed. As Tapley is nearly fifty, the sentence means life imprisonment for him. Tapley attempted to commit suicide by biting through his arm in an attempt to sever an artery. Tapley's callous methods as a money lender were mainly responsible for the Ottawa Government passing the usury law some years ago making it a penal offence to charge more than twelve per cent. interest on loans.

How a Sick Woman Can Regain Health

READ THIS VERY CAREFULLY.

"For years I was thin and delicate. I lost color and was easily tired; a yellow pallor, pimples and blotches on my face were not only mortifying to my feelings, but because I thought my skin would never look nice again I grew despondent. Then my appetite failed. I grew very weak. Various remedies, pills, tonics and tablets I tried without permanent benefit. A visit to my sister put into my hands a box of Dr. Hamilton's Pills. She placed reliance upon them and now that they have made me a well woman I would not be without them whatever they might cost. I found Dr. Hamilton's Pills by their mild yet searching action very suitable to the delicate character of a woman's nature. They never once griped me, yet they established regularity. My appetite grew keen—my blood red and pure—heavy rings under my eyes disappeared and to-day my skin is as clear and unwrinkled as when I was a girl. Dr. Hamilton's Pills did it all."

The above straightforward letter from Mrs. J. Y. Todd, wife of a well-known miller in Rogersville, is proof sufficient that Dr. Hamilton's Pills are a wonderful woman's medicine. Use no other pill but Dr. Hamilton's, 25c. per box. All dealers or The Catarrhozone Co., Kingston, Ontario.
