ANNIVERSARY MARCH

Scouters of all ages -- from Beavers and Tweenies to Rovers and Venturers -- took part in the annual Scout-Guide Church Parade Sunday. Led by a color party of Guides, they marched from Remembrance Park to Holy Cross Church where a special church service was held.

Along with all the shiny trophies and pins and certificates handed out last Wednesday to members of the Georgetown boy scouts was a certificate of appreciation to The Herald. Receiving the award from scout publicity chairman Jean Layman (right) was Herald reporter Ani Pederian.

In this era of electronics and high technology, it is easy to overlook the importance of the resource industries to the Canadian economy.

Converting the forest harvest into hundreds of useful products creates more incomes than any other Canadian manufacturing activity. The forest industry still employs more people and pays more wages than any other sector of the economy.

When it comes to earning foreign currency through exports, forest products make the largest single contribution to Canada's trade balance, more than metals, food and agriculture, fisheries and the automotive industries...combined.

Natural resources have always been the foundation of Canada's economy. And none has contributed as much as the forest.
