Milton, September 23, 1863. 2-36-tf

## LAND FOR SALE.

5 ACRES of Land For Sale, being a part of the East half of Lot No. 8, in the 2nd concession of the

Township of Trafalgar,

County of Halton, formerly the property of the late Rev. George Ferguson deceased. There is on the premises a comfortable frame dwelling house, driving house, and other out-buildings, also a good well of water.

The above property is situate on the stage road leading from Milton to the Bonte Station; and would be suitable for a private residence.

For particulars apply, if by letter post pa'd, to

LEVI WILLSON, Executor.

Milton, 26th Nov. 1863. 28-tf

## NOTICE.

HAVING determined not to allow Jacob Lawrence & Co. to make use of my inventions with impunity as they have heretofore been in the habit of doing, I hereby give notice that I will take proceedings against them and every person purchasing from them, and all persons manufacturing or using any article, the manufacture or use of which is an infringement of any of my patents, more especially my Improved Separator Shoe, for which I obtained a patent on the 11th September, 1860, and which the said firm, although well aware of that fact, are now attempting to manufacture without my consent.

SAMUEL MORSE.

Milton Foundry, 19th August, 1863. 13t

Milton, Nov. 18th, 1863. v-3-26-1y

NEW YORK GENUINE SINGER

# SEWING MACHINES,

At New York City Prices.

DEPOT—EAST KING AND CORNER OF HUGHSON STREETS.

THE undersigned would respectfully inform the CITIZENS OF HAMILTON and the Public generally that they have established Depots, for the sale of the above CELEBRATED MACHINES, in those premises recently occupied by Mr. CHARLES FOSTER, IN HAMILTON,

Corner of King and Hughson Streets,

and adjoining Mr. GLASSCO's Hat Store; also at No. 34 King Street, in TORONTO, where they intend keeping at all times a full assortment of the

Genuine Singer

SEWING MACHINES!

AND TO SELL THE SAME AT NEW YORK CITY PRICES!

The Singer Machines have been before the public for many years and have gained for themselves the reputation of being the

BEST & MOST RELIABLE MACHINES EVER MADE!

Which statement will be endorsed by nine hundred and ninety-nine of every thousand who have had them in use. We would invite especial attention and inspection of the SINGER LETTER A MACHINE, which for family use, is as much superior to all others made for that class of work, as the genuine Singer IMPERIAL No. 2 is to all others for heavy work.

The subscribers would also invite the attention of Harness Makers and Carriage Trimmers to SINGER'S HEAVY IMPERIAL No. 3 MACHINES, which must be seen to be appreciated.

For the information of those who have no practical knowledge of the Genuine Singer Machines, we would say, they use a straight needle and make the interlocked stitch, which is the same on both sides of the fabric and will not rip or ravel out like the chain or knitting stitch, but when properly done will make a seam much stronger and more beautiful than can be done by hand. Please call and examine the Genuine Singer Machines before purchasing any other.

☞ Clergymen supplied at reduced prices. Machine oil, Needles, Thread, Silk, &c., &c. on hand. Agents, also, for Wax Thread Machines.

For Prices call at the Genuine Singer Machine Depots as above, or at the Office of the "CANADIAN CHAMPION," Milton.

For information respecting the quality of the Genuine Singer's, inquire of all, or any one, who has now, or ever had one in use.

N. B.—Sewing Machines repaired promptly and at reasonable prices.

MILTON

# FOUNDRY!

THE SUBSCRIBER HAVING LEASED this Foundry for the present year begs to announce to the Public that he is manufacturing largely the various IMPLEMENTS enumerated below.

THE

KIRBY

HARVESTER!

is a

COMBIN'D REAPER & MOWER

of the most approved construction. Being almost entirely of IRON, very compact, simple and of great strength, it must be durable The Guards can be removed with ease, being BOLTED to a Wrought Iron Finger Board. If any should break they can be replaced whilst the machine is in the field, in a few minutes. In ten minutes it can be changed from a Mower to a Reaper, and the Reel can be used for both operations.

ONE IMPORTANT FEATURE.

It has NO SIDE DRAUGHT, and the weight of both Driver and the Raker bears immediately over the driving wheel. It will pass with ease through any ordinary gate, and it has taken more prizes since it has been in operation than any other machine in the United States, and toke the first Prize at the County Show last Fall, in Milton, which was open for Combined Machines to the Province, and for which the St. Georges Machine competed, which took the First Prize at the Provincial Show. Several were in operation in the vicinity of Milton during the Harvest. References can be given with regard to the excellence of their operation,

of the

SEPARATORS

AND

HORSE POWERS

The extraordinary success of those Machines during the last season, needs no comment. They have been in operation in various parts of the County, and Thrashers are unqualified in their praise. They will Thrash more and clean better than any other machine in the Province. The SHOE is warranted not to choke, no matter how much grain is put through. Enquire of the Farmers in whose barns they have been, and of the thrashers who have purchased them,

THE

CULTIVATOR

has been

Still Further Improved

and is now a most efficient implement, easy of draught, and will cultivate to a depth of six inches.

THE BLADES

cross each other to such an extent, that it is impossible for thistles or other noxious weeds to be effectually cut up.

# PLOUGHS

Every useful variety of

PLOUGH PATTERNS

always on hand, but our efforts have been more especially directed to the development of the celebrated

"MODELAND PLOUGH."

Our Iron Headed Metallic Standard Modeland Plough, stands confessedly unequalled by any other in the Province. We would call attention to the fact, that an Inferior Plough to this,

MANUFACTURED AT THIS FOUNDRY!

took the

Second Prize!

A Bronze Medal, at the

Worlds Exhibition in Paris.

A number 1 continually on hand, ready for delivery.

CIRCULAR SAWS!

For cutting

CORD WOOD

driven either by

GEARING OR THE BELT.

Corn and Potato Hoes

Land Rollers!

TURNIP CUTTERS!

STRAW CUTTERS,

TIREREADERS AND UPSETTERS

SAW MILL

and other

Castings!

both in

BRASS & IRON.

General Jobbing

and

REPAIRS

done at the

SHORTEST NOTICE!

ALL KINDS OF

FITTING

FINISHING,

and

Blacksmithing

done with despatch, and on

REASONABLE TERMS.

JOHN WHITE.

Milton, Feb. 8, 1862.
