Store in the Old Spot.

Milton, April 14th, 1864. 1-49 1y

MILTON

FOUNDRY!

THE SUBSCRIBER HAVING LEASED this Foundry for the present year begs to announce to the Public that he is manufacturing largely the various IMPLEMENTS enumerated below.

THE
KIRBY
HARVESTER!
is a
COMBIN'D REAPER & MOWER

of the most approved construction. Being almost entirely of IRON, very compact, simple and of great strength, it must be durable. The Guards can be removed with ease, being BOLTED to a Wrought Iron Finger Board. If any should break they can be replaced whilst the machine is in the field, in a few minutes. In ten minutes it can be changed from a Mower to a Reaper, and the Reel can be used for both operations.

ONE IMPORTANT FEATURE.

It has NO SIDE DRAUGHT, and the weight of both Driver and the Raker bears immediately over the driving wheel. It will pass with ease through any ordinary gate, and it has taken more prizes since it has been in operation than any other machine in the United States, and took the first Prize at the County Show last Fall, in Milton, which was open for Combined Machines to the Province, and for which the St. Georges Machine competed, which took the First Prize at the Provincial Show. Several were in operation in the vicinity of Milton during the Harvest. References can be given with regard to the excellence of their operation,

of the

SEPARATORS
AND
HORSE POWERS

The extraordinary success of of those Machines during the last season, needs no comment. They have been in operation in various parts of the County, and Thrashers are unqualified in their praise. They will Thrash more and clean better than any other machine in the Province. The SHOE is warranted not to choke, no matter how much grain is put through. Enquire of the Farmers in whose barns they have been, and of the thrashers who have purchased them.

THE
CULTIVATOR
has been
Still Further Improved

and is now a most efficient implement, easy of draught, and will cultivate to a depth of six inches.

THE BLADES

cross each other to such an extent, that it is able for thistles or other noxious weeds being effectually cut up.

PLOUGHS

Every useful variety of
PLOUGH PATTERNS

always on hand, but our efforts have been more especially directed to the development of the celebrated

"MODELAND PLOUGH."

Our Iron Headed Metallic Standard Modeland Plough, stands confessedly unequalled by any other in the Province. We would call attention to the fact, that an Inferior Plough to this,

MANUFACTURED AT THIS FOUNDRY!

took the

Second Prize!

A Bronze Medal, at the

Worlds Exhibition in Paris.

A number i scontinually on hand, ready for delivery.

CIRCULAR SAWS!

For cutting

CORD WOOD

driven either by

GEARING OR THE BELT

Corn and Potato Hoes
Land Rollers!
TURNIP CUTTERS!
STRAW CUTTERS,
TIREBENDERS AND UPSETTERS
SAW MILL

and other

Castings!

both in

BRASS & IRON.

General Jobbing
and
REPAIRS

done at the

SHORTEST NOTICE!

ALL KINDS OF

FITTING
FINISHING,
and
Blacksmithing

done with despatch, and on

REASONABLE TERMS.

JOHN WHITE.

Milton, Feb. 8, 1862.
