WE CURE STRICTURE

Thousands of young and middle-aged men are troubled with this disease—many unconsciously. They may have a smarting sensation, small, twisting stream, sharp cutting pains at times, slight discharge, difficulty in commencing, weak organs, emissions, and all the symptoms of nervous debility—they have STRICTURE. Don't let doctors experiment on you, by cutting, stretching, or tearing you. This will not cure you, as it will return. Our NEW METHOD TREATMENT absorbs the stricture tissue; hence removes the stricture permanently. It can never return. No pain, no suffering, no detention from business by our method. The sexual organs are strengthened. The nerves are invigorated, and the bliss of manhood returns.

WE CURE GLEET

Thousands of young and middle-aged men are having their sexual vigor and vitality continually sapped by this disease. They are frequently unconscious of the cause of these symptoms. General Weakness, Unnatural Discharges, Failing Manhood, Nervousness, Poor Memory, Irritability, at times Smarting Sensation, Sunken Eyes, with dark circles, Weak Back, General Depression, Lack of Ambition, Varicocele, Shrunken Parts, etc. GLEET and STRICTURE may be the cause. Don't consult family doctors, as they have no experience in these special diseases—don't allow Quacks to experiment on you. Consult Specialists, who have made a life study of Diseases of Men and Women. Our NEW METHOD TREATMENT will positively cure you. One thousand dollars for a case we accept for treatment and cannot cure. Terms moderate for a cure.

Aurora Has A Mystery

Aurora has a mystery of the most mysterious kind and at present the village is a veritable *Mecca*. Like all the really first-class mysteries in which ghosts play the leading roles, the scene of this present mystery is in a cemetery.

The story is as follows:—Some time prior to the year 1885, a resident of Aurora died and was in due course interred. His wife followed shortly after, but the friends of the husband were not willing that the two should occupy the same grave, and the man's body was removed to a family plot of his family. After the interment of the wife a stone slab was placed over the grave bearing the coventional epitaph. For years the grave has been recognized by the visitors as one of the many, and only a passing glance bestowed upon it, today, however, it is a Mecca for hundreds of visitors. The cause for this unusual interest is that a few days ago, on the back of the stone where a portion of the polished surface had scaled off, two heads, a male and female, were distinctly visible, and those formerly acquainted with the occupants of the grave aver that the pictures are striking ones of the departed couple. On Sunday the cemetery was visited by hundreds from Aurora, Newmarket, Richmond Hill and other places, and many are heard to pass the remark that: "What God hath joined together let no man put asunder."—Alliston Herald.

A Terrible Death

The Chatsworth News says: The citizens of the village and surrounding country were shocked on Monday by intelligence of the terrible death of Mr. James Mitchell in Algoma on or about the 20th of May Deceased and his brothers Daniel and William, brothers of Mr. John J. Mitchell of the 3rd concession of Sullivan, were farmers back of Thessalon, Danial being James' nearest neighbor and their places three miles apart. During May heavy bush fires raged in that section, one of which consumed the deceased's place of fences, crop and buildings and the life of their owner. Owing to the extent and severity of the fires it was some time before the deceased's farm could be approached and when it was visited by his brother Daniel it was found desolated but hope was entertained that James had escaped and would turn up all right. Later a search party found the skeleton of a man where the barn stood, which leaves no doubt that James Mitchell met a terrible death. He was a young man of excellent reputation and had made for himself a comfortable home, with all the modern agricultural implements around him, and his terrible fate was learned with sorrow by the entire comunity here and in the neighborhood of Bruce Mines and Thesalon. The grief stricken mother and brothers and sisters have the sympathy of everyone in the their terrible grief.

One of the greatest curiosities that has been seen in this district is a two legged colt which was foaled by a mare owned by Thomas McMahon, near Palmerston. The colt is living and strong and quite active. Mr. McMahon at first thought he would have to kill the colt, as it would never be of service to him as a worker, but when the crowds came to witness the sight, driving from all parts of the country, and when he was asked to part with it, he began to realize that it was going to pay its way, and sold it to Arthur Irwin and Wm. Wilson, of Palmerston, who are going to exhibit it,

Statistics of Illegitimacy

A table of statistics of illegitimacy in Europe, published by Dr. Albert Leffingwell, shows the Irish to be the most virtuous of all the peoples, the ratio of illegitimate births among them being 26 in every 1,000. The English rate is 48, and the Scotch 82 per 1,000. Thus we may roughly say that for every child born out of wedlock in Ireland two are born in England and three in Scotland. In Europe at large, Ireland is closely followed in its place by Russia with the low rate of 28 per 1,000, and by Holland with the rate of 32 per 1,000. The Italian and French rates are respectively 74 and 82 per 1,000, comparable with Scotland. Among the countries that show the highest proportion of illegitimacy are Sweden, Saxony, Bavaria and Austria, in which the rates range from 100 to 140 per 1,000. Austria is at the opposite pole from Ireland, and takes the lowest place in morality among the European nations, with a rate of 146 per 1,000. The enquiry into the causes of these varying rates of illegitimacy raises complicated and interesting problems. The causes generally supposed to be principal factors in the matter are poverty, ignorance and the contamination of great cities. Examining the influence of these, Dr. Leffingwell finds it very slight. In Ireland the lowest rates are in the poorest counties. Russia, with one of the lowest rates, is one of the poorest countries; and the author affirms "there is nowhere such uniform relation between the indigence of a people and the prevalence of illegitimacy as to justify the hypothesis that this phase of moral delinquency in any district or country can be accurately described as caused by poverty. As little can the influence of great cities account for the prevalance of illegitimacy. Education and creed appear to have little influence. We must seek the real factors in race and heredity, legislative restraints upon marriage, social usage and other like circumstances"—Popular Science Monthly.
