Holloway's
WORM LOZENGES

ARE a certain and safe remedy for worms in children and adults. It is a well known and melancholy fact that one great cause of death among children is from worms alone. It cannot be too deeply impressed upon the minds of parents the necessity of closely watching their children. By so doing and understanding the symptoms and true cause of the disease, thousands of children might be saved from early graves.—Symptoms of Worms.—The following are a few of the very numerous symptoms and diseases which are caused by Worms: deranged appetite, emaciated extremeliter, offensive breath, frequent picking at the nose, grinding of the teeth during sleep, and sometimes convulsive fits, pain in the head and stomach, unquiet sleep, faintings, tremblings, coughs, indigestion, low spirits, frightful dreams, and a gradual wasting away of flesh. They are palatable and self-administered to the child—drive out the worms thoroughly without pain and completely cleanse the stomach—thereby doing away with the necessity of administering Castor oil or other unpleasant cathartics.—Each box contains the fact simile signature of Northop & Lyman, Newcastle, C.W., who are the sole proprietors. N.B. Ask for Holloway's Worm Lozenges, and take no other. Sold by all the Druggists in Milton and medicine dealers everywhere. 22

J. W. BRADLEY'S

CELEBRATED PATENT

DUPLEX ELLIPTIC

[OR DOUBLE SPRING]

SKIRT.

THE wonderful flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded Assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded when in use to occupy a small place as easily and conveniently as a Silk or Muslin Dress, as invaluable quality in crinoline, not found in any single spring skirt.

A lady having enjoyed the pleasure, comfort, and great convenience of wearing the Duplex Elliptic Steel Spring Skirt for a single day, will never afterwards willingly dispense with their use. For Children, Misses and Young Ladies they are superior to all others:

They will not bend, or break like the Single Spring, but will preserve their perfect and graceful shape when three or four ordinary skirts will have been thrown aside as useless. The hoops are covered with double and twisted thread, and the bottom rods are not only double springs, but twice (or double) covered preventing them from wearing out when dragging down stoops, stairs, &c.

The Duplex Elliptic is a great favorite with all ladies and is universally recommended by the Fashion Magazines as the standard skirt of the fashionable world.

To enjoy the following inestimable advantages in Crinoline, viz.: superior quality, perfect manufacture, stylish shape and finish, flexibility, durability, comfort and economy, enquire for J. W. Bradley's Duplex Elliptic, or Double Spring Skirt, and be sure you get the genuine article.

CAUTION.—To guard against imposition be particular to notice that skirts offered as "Duplex" have the red ink stamp, viz., "J. W. Bradley's Duplex Elliptic Steel Springs," upon the waistband—none others are genuine. Also notice that every hoop will admit a pin being passed through the centre, thus revealing the two (or double) springs braided together therein, which is the secret of their flexibility and strength, and a combination not to be found in other skirt.

For sale in all stores where first-class skirts are sold throughout the United States and elsewhere.

CROCKERY.

HUGH McKAY

HAS now on hand the Largest and Best Assorted Stock of CHEAP FAMILY GROCERIES ever brought to GEORGETOWN. Our daily increasing list of customers plainly show who has the Best and Cheapest Goods. To say that we sell 10 to 15 per cent cheaper than our neighbors, would only expose a weakness alarmingly prevalent among advertisers. All these cheap advertised impossibilities are just so many flags of distress only hoisted to public view when the ship appears sinking. Our general assortment of goods was never so large and well selected, and never were our prices more favorable to the buyer. We want 300 Kegs of Good Dairy Butter, also some 500 Dressed Hogs, and any amount of Good Shipping Apples, for which the highest market price will be paid.

BARCLAY & M'LEOD

OF THE

MAMMOTH HOUSE,

Beg to acquaint the public that their Buyer has returned from Europe where he, in consequence of the depressed state of the market on account of the war in Germany, purchased an immense stock of goods at such low figures as will enable them to offer advantages to their patrons unapproachable by any other house in his section of the country. It would be impossible to enumerate the stock, or give any adequate idea of the variety or extent of the different departments. Suffice it to say that they have

Piles of the Most Fashionable Dress Goods in Canada,

Piles upon piles of Prints, Cases of new Autumn Delaines, Bales of new white and scarlet Flannels, Cases of new Winceys of all colors, Boxes of Coatings and Silk Mixtures, and an immense stock of white and grey Cottons, Hollands, Towellings, Linens, Grain Bags and Bagging, &c., &c. Three of the Departments they call special attention to. First, the extensive Show Room up-stairs, containing Millinery, Mantles, Shawls, Bonnets, Hats, Ribbons, Flowers, Feathers, Head Dresses, Mantle Ornaments, &c., &c. This Department is replete with every new design, with several novalties exclusively their own, and is superintended by unrivalled milliners. Second.—The Ready-Made and Ordered Clothing Department, Ready-Made Clothing, five Thousand Fall and Winter Suits, from Three to Thirty Dollars. One Thousand Seven Hundred and Fifty Sack and Frock Over Coats, from Two and a half to Twenty-five Dollars. Ordered Clothing. Having spared neither time nor expense in bringing this extensive branch of their trade to its present unequalled popularity, and having secured the services of first-class cutters and workmen who act with promptness and energy; also, keeping constantly on hand substantial first-class goods, they offer the greatest inducements ever presented to a discriminating public. An immense stock of Hats and Caps in every conceivable style. Third,—Carpets. In order to reduce the immense stock on hand, they will be sold at cost for cash only. Boots and Shoes. Having concluded a contract with a first-class manufacturer's firm, they are enabled to sell those goods at manufacturers prices, which gives them an advantage which no other house can compete with.

B. & McL. in returning sincere thanks for the liberal and unparalleled patronage, extended to them the season just closed, would call attention to two immense advantages they possess for the public benefit, viz.—Purchasing goods direct from the manufacturers in Europe, thereby saving the wholesale merchants profits, and paying cash for them, the discount of which enables them to sell twenty-five per cent cheaper than any other house west of Montreal.

Inspection is Respectfully Invited.

MIDGE KILLER

AND

Caterpiller Destroyer

WE, the undersigned, hereby certify that we have applied Smitton's Midge Killer and Caterpiller Destroyer to our apple trees, which were being destroyed by Caterpillers, and we find that it is a sure remedy for their destruction without injury to the trees, and have pleasure in recommending it to the public at large.

David Munn, J. P., Wm. Easterbrook, Hugh Cameron, George McElroy, Alex. McPhee, Hugh Fraser, William Walker, John Cameron, Wm. Blacklock, Andrew Kerr.

The subscriber would respectfully intimate that owing to a scarcity of the Midge Killer and Caterpiller Destroyer, an increase in the price may be expected. Parties wishing to supply themselves ought therefore to do so now. Warranted to keep without deteriorating for any length of time.

DIRECTIONS FOR USING.—For Caterpillers—Put the Powder into a Duster, and shake it on the nests, limbs, and leaves of the trees where the caterpillers are.

For Wheat—Sow the powder on the wheat when the dew commences on it, or put it into a duster and dust it on, after a shower of rain or on a dewy morning. For sale by the Discoverer,

P. SMITTON.
