BREAKFAST.—EPPS'S COCOA.—Grateful and comforting.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills."—*Civil Service Gazette.* Made simply with boiling water or milk. Each packet is labelled—"James Epps & Co., Homœopathic Chemists, London." Also, makers of Epps's Milky Cocoa (Cocoa and condensed milk).

Is health worth having? If it is protect it—it is a jewel as easily lost as virtue, and in many cases as difficult to recover. In this climate, and more particularly at this season of the year, people are very apt to take cold and suffer from sore throat, coughs, spitting of blood and pulmonary complaints generally, which if not checked immediately lead to serious consequences. The question arises—which is the quickest and most effectual remedy? Bryan's Pulmonic Wafers have been before the public for twenty years, and have always given perfect satisfaction, and invariably effect permanent cures when taken in season. Sold by all medicine dealers and country stores, at 25cts. per box.

FORTY YEARS' EXPERIENCE have tested the virtues of Dr. Wistar's Balsam of Wild Cherry, and it is now generally acknowledged to be the best remedy for pulmonary and lung disease; embracing the whole range from a slight cold to a settled Consumption. Were it not for its merits, it would long since have "died and made no sign."

QUITE CORRECT.—The Indian medicine known as the Great Shoshonees Remedy and Pills will be found to be the most reliable curative and blood purifier when spring, after a long and inclement winter re-opens the pores of the skin and an alterative is required to transfer the impurities from the body through the natural outlets. The Remedy and Pills can be confidently recommended as the safest, surest, and easiest means of attaining this desirable end, without weakening the most delicate or incommoding the most feeble. When from frequent chills or impure air the blood becomes foul and the secretions vitiated, this medicine presents a ready and efficient means of cleansing the former and correcting the latter, it may fairly be said of this celebrated Indian Medicine that it radically removes all corrupt and disordered elements from the system.

Veterinary Surgeons all over the country are recommending Sheridan's Cavalry Condition Powders for the following troubles in horses:—Loss of appetite, roughness of the hair, stoppage of the bowels or water, thick water, coughs and colds, swelling of the glands, worms, horse ail, thick wind, and heaves.

A friend of ours who is chief clerk in the Governmental Dispensary, says that no medicine chest is now complete without Johnson's Anodyne Liniment. We always supposed it was prescribed by law; if it is not, it ought to be, for certainly there is nothing in the whole materia medica of so much importance to the soldier and the sailor as Johnson's Anodyne Liniment.

EVERYBODY SAYS SO.—That is, all who have either used the article themselves or witnessed its effects when used by others; all such, and they only are fit to judge, are unanimous in the opinion that "Darley's Condition Powders and Arabian Heave Remedy" is superior to anything of the kind heretofore or at present in use for coughs, colds, thick wind, and all diseases which affect the wind of horses. As a condition medicine it has no equal; there is nothing in it which can injure a horse whether sick or well—nor need the horse be kept from working while using it; it is just the article which all who own horses require, and which they should have constantly on hand. A Sacramento telegraph office is ridding itself of loafers. The *Bee* says: "A box running the full length of the front of the office on the outside has heretofore furnished a tempting seat for the habitues. This has been covered with zinc which has been connected with the batteries contained in the box. A person sitting upon the box without touching his hands to it will not feel the electricity, but if his hands drop on the box, or he puts them thereon to assist him in rising, he receives such a shock as sends him an unbelievable number of feet toward the lofty roof and the adjacent river. Any good day a person may see some of these unfortunates unexpectedly struck with this domesticated lightning, describing a 50 feet parabola in the air."

PROCLAIM

THE GLAD TIDINGS!

That the GREAT SHOSHONEES REMEDY AND PILLS of the eminent Indian *Medicine-Man*, Doctor Lewis Josephus, of the Great Tribe of Shoshonees, British Columbia, is working the most marvellous and astonishing cures the world ever heard of. Never in the annals of Canadian Medical History has such success attended the introduction of any medicine heretofore.

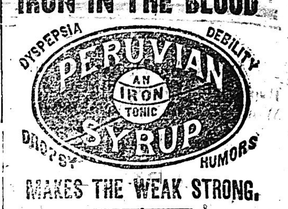
WHY.

Simply because the numerous valuable active medicinal vegetable ingredients (some of which we will mention, such as the Extracts of Wild Cherry Bark, Podophyllum, Juniper, Quassia, Smartweed, Dandelion, Hyoscyamus, Compound Extract of Colocynth, Jalap, Sweet-fine Aloes, Capsicum, etc., etc.) which enter into the composition of the combined medicine, are such and so harmoniously classified and compounded, that it is made the most searching curative in the known world, and cannot help but act on the system in a very satisfactory and desirable manner. No matter what your ailment may be, or of how long standing, it will find the spot, and astonish you by the rapid manner in which you are restored to perfect health and full vigor.

This medicine is pleasant and safe to take, and is warranted, and may positively be relied upon to make a permanent cure of all diseases of the Throat, Lungs, Liver, Kidneys, Digestive Organs, etc., as well as Scrofula, the various skin diseases, Humors, and all diseases arising from impurity of the blood, excepting the third stage of Consumption. Further information, with full directions for using the Great Shoshonees Remedy and Pills, and containing testimonials and certificates of cures, can be obtained by procuring the Treatise, the Handbook, or the Almanac and Circulars from any respectable Druggist in the Dominion—free.

Price of Remedy in large pint bottles, $1
Pills per box 25 cts.

IRON IN THE BLOOD



MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damaged and waste, scarching out morbid secretions, and leaving nothing for disease to feed upon.

This is the secret of the wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

CURE OF BRONCHITIS.

SMITHFIELD.

J. C. CHAMBERLAIN, Esq.—This is to certify that about three years ago I became affected with Bronchitis, which lasted about eighteen months. I was so afflicted for the most old cough that it was very difficult for me to sleep, and the coughing frequently throw the clothes off and rousing in the morning from strangling. I tried three of the most eminent physicians in the County of Northumberland for about a year without receiving any benefit. In fact I continued to get worse all the time. At last I was advised to try the Great Shoshonee Remedy. I bought a bottle and took it, and when it was finished I began to feel a little better. I continued to use it until I had taken three bottles, when, to my satisfaction, I found that I was as well as ever I had been previous to my illness, and have been so ever since.

WONDERFUL CURE OF LUNG DISEASE.

BROOKLYN, April 5th, 1870.

J. C. CHAMBERLAIN, Esq., SIR,—This is to certify that my wife was very low with Lung Disease. The doctor had given her up. He said her lungs were tuberculed, and medicine could not help her. As a last resort, I purchased a bottle of the Great Shoshonee Remedy. At the expiration of two days her cough was decidedly better. She continued to improve so rapidly that by the time she had taken a little she was able to sit up. By the continuance of the remedy she was perfectly restored to health.

I willingly give this fact to the benefit to those similarly afflicted.

THOMAS' ECLECTRIC OIL!

Worth Ten Times its Weight in Gold.
Do you know anything of it?
If not, it is time you did.

—o—

There are but few preparations of medicine which have withstood the impartial judgment of the people for any great length of time. Among these is Thomas' Eclectric Oil, purely a preparation of six of some of the best Oils that are known, each one possessing virtues of its own. Scientific physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power, and producing effects which could never result from the use of any one of them, or in different combinations. Thus in the preparation of this oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, or any other ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. It contains no alcohol or other volatile liquids, consequently loses nothing by evaporation. Wherever applied you get the benefit of every drop; whereas with other preparations nearly all the alcohol is lost in that way, and you get only the small quantity of oils which they may contain.
