S. S. Convention

The sixth annual convention of the East Grey Sunday School Asssociation was held in the Methodist church in this place on Tuesday and Wednesday of last week, September 11th and 12th. There was a fair representation of delegates from the different Sunday Schools and the various sessions were full of interest to everyone in attendance.

The first session opened at eight o'clock on Tuesday evening, 11th inst., with devotional exercises, led by Rev. L. W. Thom. Mr. C. W, Rutledge then welcomed the delegates in a few well chosen words, and Rev, Thom responded. Following this was an able and pratical address by Mr. Thos. Yellowlees, of Toronto, on the subject of "Responsibilities" which contained many thoughts and truths that were of vital importance to Sunday school workers.

On the following morning at ten o'clock the second session was held. Business pertaining to the convention was transacted and officers elected for the ensuing yearrs follows:

President—Rev. J. Hunter.
Vice-Pres.—Rev. Mr. Moore.
Secretary—W. J. Bowes.
Treasurer—Mrs. J. Lawson.

Executive committee—Ministers connected with the association. The papers of Thos. Yellowees, Esq., were postponed until the afternoon session owing to lack of time. An interesting feature was a "Round Table Talk" which was entered into heartily by the delegates, and was interesting as well as instructive.

During the afternoon session the President-elect was conducted to the chair, and thanked the delegates for the honor conferred upon him. Mr. Pickell's paper on "How to Secure the Faithful Attendance of Teachers and Pupils" was given and was discussed at some length. Mr. Yellowlees then followed with a paper entitled "Is the Intellectual Teaching in our Sabbath Schools Overshadowing the Spiritual?" This paper was deep and comprehensive and furnished much food for thought.

As Mr. Yellowlees was returning to Toronto on the afternoon train Mr. Pickell, seconded by Mr. Boland, took the opportunity to express the appreciation of the delegates for the interest he had imparted to the convention by his presence and words. He responded with much feeling.

The evening session was addressed by Rev. J. Buchanan, of Dundalk, on the subject "The Model Superintendent." The address revealed a thorough understanding of the subject and was well received. Mr. Madden then followed with a paper on "Home Department of School Work," which if adopted would be of great help to those who from circumstances find it impossible to attend the regular school or church services. Rev. Wm. Buchanan took charge of the question drawer and gave the various questions a practical and reasonable answer.

The choir of the Methodist church was in attendance both evenings of the convention and added much to the pleasure of the meetings.

It was decided to hold the next convention in Thornbury, the date to be fixed later by the executive.—Markdale Standard.

How to Kill Poultry

It is admitted that poultry when bled to death is whiter than when prepared in any other manner. Then the question is how to cause them to bleed to death and not disfigure them in ... way. This can be easily done by opening the beak of the fowl, then with a sharp pointed knife make an incision at the back of the roof, which will divide the vertebra and cause immediate death, thus afterwards hang up the fowl by the legs until the bleeding ceases. Next rinse the beak out with vinegar and water. Fowls killed in this way keep longer and do not present the unsightly external marks as those killed by the ordinary system of breaking the neck. When the entrails are drawn immediatly after death, and the fowl dressed stuff it to keep its shape; it will keep fresh much longer. It is a mistaken idea to cram poultry just before killing to make them appear heavy as the undigested food soon begins to ferment, and putrefaction sets in, as is noticed by the quantity of greenish looking fowls that are displayed in our markets.

Municipal Councils will do well to observe the following decision recently rendered in the case of Huffman vs. Township of Bayham, in which the plaintiff secured $1,500 damages. The case dealt with obstructions on highways and the Court of Appeals decision was as follows:

A milkstand built on a highway by or adjoining property and projecting over the travelled way is such an obstruction to the highway as to constitute want of repair within the meaning of the Municipal Act, and where such an obstruction was shown to have existed for three years and the municipal corporation having jurisd... road in question, ...ve it removed, ...mages for an

The Toronto Radial Railway system, which was to include Shelburne as one of the terminal points, may yet be become an accomplished fact. Alderman Lamb, of the Queen city, is now engaged in launching the scheme, and with that end in view has written a circular letter to all the municipal councils within a radius of 75 miles of Toronto, and sent them maps of the proposed route, calling their attention to the advisability of constructing a system of radial railway lines throughout Central Ontario and asking them to give the matter their consideration. The lines of railway shown in the map are only prospective, and have not been permanenty decided on, so that any changes may be made at any time in the future, and the railways carried through all such towns and townships as will assist in the undertaking. An Act of Incorporation is being prepared for a company, the Toronto and Central Ontario, with a capital of $5,000,000, to operate the system in conjunction with the different municipalities.—Economist.

COUGHS KILL

We know of nothing better than coughing to tear the lining of your throat and lungs. It is better than wet feet to cause bronchitis and pneumonia. Only keep it up and you will succeed in reducing your weight, losing your appetite, bringing on a slow fever, and making everything exactly right for the germs of consumption.
Better kill your cough before it kills you.
Ayer's Cherry Pectoral
kills coughs of every kind. A 25 cent bottle is just right for an ordinary cough; for the harder coughs of bronchitis you will need a 50 cent bottle; and for the coughs of consumption the one dollar size is most economical.
"My cough reduced me to a mere skeleton. I tried many remedies, but they all failed. After using the Cherry Pectoral I immediately began to improve, and three bottles restored me to health. I believe I owe my life to it."

Boiled Down Facts
ABOUT
Dr. Ward's Blood and Nerve Pills
No remedy ever introduced in Canada has gained so many words of praise from sufferers all over the country as these thoroughly effective pills.
WHY?
Because they positively cure all diseases brought on by impoverished blood, such as heart trouble, nervousness, rheumatism, dyspepsia, etc.
ALSO
Because they induce sound, healthy sleep, and restore VIM, VIGOUR, and VITALITY to the body.
ALSO
Because their use enables the system to successfully resist attacks of colds and the inseparable results, viz., lung and kidney troubles, a fact of especial importance at this season of the year.
