Columbia Grafonolas

Records, Needles, Catalogues

The Columbia is the perfect talking machine. Compare all others, then hear this and we are not afraid of the result. We can sell machines on easy terms to responsible people.

All the best appointed city homes have their parlor machines and there is no reason why the farmer should not have the best music of the day in his home, including band music, vocal artists, and performers on all kinds of instruments. You can have it on a Columbia Grafonola, as perfect as the original, and for much less than you would pay for a Common Organ. They range from $20 up.

The Perfect Columbia

Is a marvel of recording instruments and the Columbia records, made in Canada, embrace thousands of selections from which to choose.

Our Motto—"SMALL PROFITT AND QUICK RETURNS

SWP means Sherwin-Williams Paint (Prepared). This is the best paint for you to use because it is made of pure materials—pure lead, pure zinc, pure Linseed Oil, and pure coloring pigments which are thoroughly mixed and ground in scientific proportions by powerful machinery.

It is better than the old fashioned hand-mixed paint because the materials are put together according to correct chemical formulae which have been tested out in a practical way. • Its fine grinding makes it cover nearly 50% more surface than hand-mixed paint.

SWP is an economical paint because it will cover the greatest amount of surface, wear longest, and look best.—Ask us for color cards.

Resumption Can. Pacific Great Lakes Service

Passenger service via the Great Lakes Canadian Pacific route from Port McNicoll will be resumed commencing Saturday, May 22nd. The service this season will be maintained by the Steamers "Keewatin" sailing Tuesdays, the "Manitoba" Wednesdays, "Alberta" Thursdays and "Assiniboia" on Saturdays from Port McNicoll at 4 p.m. The "Manitoba" sailing Wednesdays will also call at Owen Sound each sailing date at 10.30 p. m. Special train will leave Union Station, Toronto, at 12.45 p. m., arriving Port McNicoll 4.00 p. m. Daily except Friday.

For reservations or other information regarding this service, consult any Canadian Pacific Agent, or write M. G. Murphy, District Passenger Agent, Toronto.

Albert Paulin was haled before Magistrates Montgomery and Bell of Chesley on a charge of cruelly beating a horse that he had driven from Seipp's livery to Durham and back. The ridges made by the whip were easily discernible. The defendent admitted his guilt and the magistrate inflicted a fine of $25 and costs amounting to $8.10.

Only fifteen men have responded so far to the call for thirty-two recruits which were asked for over two weeks ago. It is expected that this quota will be called to go to Camp Niagara this week and for the first time Grey County has not responded to the full extent of the call. The men, who are in charge of Lieut. Young, are still seventeen short of the required strength.

A raw boy without a dollar, present or prospective, sparking a girl regular and talking about marrying is a spectacle for God and men. He should be reasoned with, and if he will not quit it until he is able to support a wife, and to know whom he loves, and the difference between love and chicken pox, he should be quarantined or put in a convent erected purposely for such cases. Nine-tenths of the unhappy marriages are the result of green human calves being allowed to run at large in the society pasture without any yokes on them.

Notice

Dr. R. F. English, Osteopathic Physician, of Owen Sound, will be in Flesherton on Tuesday and Friday afternoons of each week. Commencing Friday, June 4th. For appointment phone 9 ring 3.

SHORT LIFE OF BIG GUNS.

Every Time a Rifle Is Fired Some of Its Bore Is Worn Away.

The life of the gun, so far as its absolute destruction by bursting is concerned, is practically unlimited, but not so its accuracy life. Every time a gun is fired some of the interior surface of its bore and delicate rifling are wiped away, and a certain degree of its accuracy is lost.

This is true of the shoulder rifle, with its bore so small that it would not much more than admit a lead pencil, no less than of the great sixteen inch siege gun and the other grades of artillery pieces.

Fortunately for the infantryman, the wear on the bore of the shoulder rifle is much slower, as the wearing out of the bore decreases rapidly with a decrease in the size of the bore. Erosion, as it is called by the artillerymen, is greatest in the large guns and least in the 30 rifle.

The big guns which form the main batteries of our warships and are emplaced in our coast fortifications can fire from 150 to 250 rounds (dependent upon the pressure and heat in the powder chamber) before they begin to lose their accuracy.—Scientific American.

Doors In China.

In China doors are often round, leaf shaped or semicircular. In placing them the builder usually avoids having one opposite another lest evil spirits find their way from the street into the recesses of the building. The doorways separating the courts of a garden are usually of an elaborate kind, and the octagonal form is one of the most popular. Religious superstition asserts itself in Chinese architecture, and the universal sacredness of the numerals 3 and 9 is shown in the arrangement of temple doors. There is a triple gateway to each of the halls of the imperial palace, and the same order prevails at the Ming tombs. The Temple of Heaven has a triple roof, a triple marble staircase, and all its mystic symbolism points either to 3 or its multiples.

The Yaws.

On the west coast of Africa the natives call the raspberry a yaw. It happens that one of the pleasing diseases that come out from that quarter of the globe is characterized by dusky red spots that appear on the body and soon grow into ulcers about the size and looks of the raspberry. So this disease is called the yaws. It is contagious and downright disagreeable. White sailors bring it back with them to their own discomfort and the disgust of those at home. Yaws prevails also in the Fiji islands and in Samoa, but in these two places children mainly are attacked, and the natives regard the disease in the same light as civilized persons look at measles—almost a certainty to have and the sooner over with the better.
