Politics and the Pulpit.

Rev. W. P. Reeve, of Kemptville, writes: Concerning political parsons, the following passage from Burke's Reflections on the French Revolution is at the present juncture most instructive: "Politics and the pulpit are terms that have little agreement. No sound ought to be heard in the church but the healing voice of Christian charity. The cause of civil liberty and civil government gains as little as that of religion by this confusion of duties. Those who quit their proper character to assume what does not belong to them are, for the greater part, ignorant both of the character they leave and of the character they assume. Wholly unacquainted with the world in which they are so fond of meddling, and inexperienced in all its affairs, on which they pronounce with so much confidence, they have nothing of politics but the passions they excite. Surely the church is a place where one day's truce ought to be allowed to the dissensions and animosities of mankind."

BE A STRONG MAN.

Increase your vitality and nerve energy restore vim and force to your overworked body. Ferrozone will do this as it did for Walter Wood of Beauport, N.B., who writes: "I can say Ferrozone has given me a new lease of life. A year ago I suffered so from nervous exhaustion I was scarcely able to drag myself around. My appetite was gone I had no color or ambition and felt used up. One box of Ferrozone cured me back to health. I took a number of boxes and my health was completely restored. For men who are tired, pale, nervous and run down in health nothing compares with Ferrozone." 50c per box at all dealers.

Rod and Gun's Birthday Number.

With the issue for June "Rod and Gun and Motor Sports in Canada," published by W. J. Taylor at Woodstock, Ont., enters upon its tenth year and produces as a birthday number one that has not been surpassed by any of the five issues that have preceded it. The record-breaking moose head of Dr. W. L. Mulloy in New Brunswick, through which for the first time in the history of the Province, the record is held by an outsider, is rightly given a prominent position. Fishermen have their interests well looked after. In addition to a paper on Live Bait, How to Procure and Preserve the Same, a story of Herring Fishing in the Rideau, and one descriptive of a One Hundred Mile Canoe Trip in a Search After Bass, by C. E. Hooper, must secure attention from those who find their most enjoyable recreation in fishing. Judge Prince reminds us of old times in a delightfully reminiscent article on the Wayside Tavern and the Shooting Match. The scarcity of partridges, a subject of so much comment amongst sportsmen, is discussed, the conclusion arrived at being that in all probability the birds have been killed off by a disease which has been general in its character and results. Variety is given in an exploration paper entitled Fresh Fields in the Rockies. In a Boy's Camp in Temagami and others, such as My Experience in Chequoite, and a Review of Game and Outing.

Select Your Medicine with Care.

In debility and weakness medicine should be mild and far reaching. Many pills and purgatives are too harsh, are drastic instead of curative. Excessive action always followed by depression and knocking the life out of the patient. Dr. Hamilton devised his pill of Mandrake & Butternut so as to gently stimulate liver and bowels, each one thus earning the alternative tone and regulate the bowels. These are Dr. Hamilton's Pills, eliminate poisons from the body, restore cleanness to the skin, bring strength and that sweet relisher of health, sleep. Best for little to earth. 25c per box at all dealers.

TORONTO EXHIBITION

Prize List for 1908 Now Being Distributed.

The prize list of the Canadian National Exhibition, Toronto, Ont., Aug. 29 to Sept. 14, has come to hand. It has been thoroughly revised from beginning to end and in some respects presents a neater and more convenient appearance than formerly. Several important additions have been made, including an offer of $1,100.00, divided into six prizes, for the best floral design, to cover not more than 500 square feet of floor space. The Dominion Shorthorn Association give $2,000.00 and the Clydesdale Association $500.00 to the premiums offered for Shorthorns and Clydesdales. Several classes for horses and outfits used in business have been incorporated. Upwards of $700.00 has been added to the amount given in prizes in agricultural section. Altogether including medals and cups, the amount given in premiums reaches upwards of $50,000.00, by far the greater portion of which is devoted to live stock and agricultural products. A more than usually extensive art loan collection is promised by old-world masters, by special permission of H. M. the King the Band of the Royal Artillery, Woolwich, Eng., will play and take a leading part in a grand international military tattoo and spectacle representing "The Siege of Sebastopol." Each day will close with a display of fireworks on a scale hitherto unattempted. The usual cheap rates and excursions have been arranged for by all lines of travel. On application to J. O. Orr, Exhibition of fices, City Hall, Toronto, prize lists, entry blanks, and any information desired, will be forwarded on the instant.

DON'T USE GREASY LINIMENTS

A century ago they were popular. To-day people want something easy to apply, certain in results, and above all a clean liniment. When Nerveline is applied aches and pains disappear as the pores absorb its soothing healing properties. Nerveline penetrates to the core of the pain, eases instantly, and leaves no a bad smelling ointment behind. Good to take in capsule to rub on, and five times more powerful in destroying pain than any ordinary liniment. Don't fail to get a large 25c bottle.

Murderers Should Hang.

Stratford Beacon.

Just as everybody expected, John D. Tearse, who was sentenced to hang June 11th, for the murder of William Curry on Christmas Day, has been reprieved and his sentence changed to life imprisonment. It would be a great pity to hang a man in the fair county of Peel but murders are on the increase in this county and unless the law is enforced to the extent of a case a man's life is not the worth much, in a few years.

MI-O-NA MEANS STOMACH COMFORT

Its of Special Value to Many Here in Milton.

A notable discovery and one that appeals especially to many people in Milton is the combination of stomach help in the Mi-o-na treatment. This preparation works wonders in case of indigestion or weak stomach.

It acts directly upon the nerves of the stomach and bowels strengthening and stimulating them so that they readily take care of the food that is eaten without distress or suffering.

So great are the goods that follow using the use of Mi-o-na that we cheerfully second by Hyperbedian Drug Co. and offer an absolute cure to refund the money at a trifle cost. A sweet box of Mi-o-na will be good the stomach nerves so that enjoy to make it do its own work.

Changed Accompaniment.

One can hardly be expected to have "music in his soul" when there is discord in his stomach.

Husband—What was that you were playing, my dear?

Wife—Did you like it?

"It was lovely—the melody divine, the harmony exquisite?"

"It is the very thing I played last evening, and you said it was horrid."

"Well, the steak was burned last evening."

Pretty Bad.

Boston Bill—I'm getting weary of this blase, nomadic, peripatetic existence. Aren't you, pal? Omaha Red (after recovering)—Why—er—you see, Bill it never struck me in dat light before Is it really as bad as all dat?

HOUSE WORK

Thousands of American women in our homes are daily sacrificing their lives to duty.

In order to keep the home neat and pretty, the children well dressed and tidy, women overdo. A female weakness or displacement is often brought on and they suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome the pains and aches which daily make life a burden.

It is to these faithful women that

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

comes as a boon and a blessing, as it did to Mrs. W. Barrett, of 602 Moreau St., Montreal, who writes to Mrs. Pinkham:

"For years I was a great sufferer from female weakness, and despite very remedy given me by doctors for this trouble, I grew worse.

"One day a friend advised me to try Lydia E. Pinkham's Vegetable Compound. I did so, and am thankful to say that it made me strong and well."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

STRANGE BIRD DUEL.

Battle Between an Aggressive Hawk and a Patient Heron.

There is apparently nothing in all birdland that is weaker and more helpless against a bird of prey than the common heron. With its long sharp bill it can punish worms and fish and even administer sound punishment to animals or beasts that come within the range of the beak. But the bird is so clumsy and its beak is so long that it seems as if almost any kind of a savage bird of prey could pounce down upon it and seize it by the neck or head.

Nevertheless the heron, like most other creatures, has some means of defense which we do not always appreciate. A few years ago while watching a good size heron wading in the water of a pond I was struck by its peculiar actions. Cocking its head on one side, it listened and glanced up into the air and then trembled all over. If it had taken fright at my appearance, why did it not fly away? I was wondering at this peculiar action when suddenly a hawk, circling in the air above, darted downward in one of its swoops. The terror stricken heron instead of flying away squatted down in the water and looked up helplessly at the descending hawk. But the hawk did not seize its prey, as I expected, but made a quick turn in the air and started to attack the heron from the other side. The latter merely turned its head around, always keeping its long beak directed full toward the approaching hawk. Once more the hawk flew upward and around and made another effort to outflank the enemy.

These tactics on the hawk's part were kept up for some time, while the heron squatted down and met the attacks with its beak always turned toward the enemy. It seemed a mystery to me why the hawk did not kill the heron without so much parleying. Had I been better instructed in the nature of the heron's beak and its ability to transfix an enemy with it I would not have thought so strange of the hawk's maneuvers. It had evidently been hurt in such an encounter before, and it endeavored to worry the heron so that it could be caught off its guard. But after ten minutes of fighting it looked as if the hawk would be the first one to get worn out with the bloodless conflict. It grew fiercer and more savage in its attacks, and finally it determined to make the attack in earnest. Rising to a considerable height, as if intending to fly away, it suddenly dropped as if shot from a cannon, hoping to take the heron off its guard by the unexpected and swift descent. But the heron was once more prepared for the conflict, and the terrible beak was pointed upward to receive the descending bird. The hawk realized its danger at the last moment and tried to check its headway, but its momentum was too great, and it plunged downward, but a little to one side, until it struck the spear-like beak ready to receive it. Fortunately for hawk and heron, the beak merely grazed the side of the hawk's body, ripping out a handful of feathers and inflicting a slight flesh wound. The hawk then tumbled with a splash into the water, and before it could regain its equilibrium again the heron had flown away. The hawk showed no particular desire to pursue its prey and flapped heavily to a nearby tree and sat there for an hour thinking the matter over. George Ethelbert Walsh in Outing Magazine.

BLACK FOREST CUSTOMS.

Youngest Son Inherits Property and Cares For the Old Folks.

The peasant farms of the Black forest are handed down from father to son in a direct line, often dating back 400 years, says Antiquary.

There is no division as in France. All falls to the heir, only here it is not the eldest, but the youngest son, who inherits. It is rare that a bur (peasant) dies as reigning head. When he gets on in years he abdicates in order to end his days in the leibgedinghaus (dower house), which stands beside each hof (steading).

That he does so in favor of his youngest son is very sensible. Were it the elder he would have no peace, for as soon as he married he would try to induce his parents to retire just at an age when power is sweetest and best exercised. For this reason the practical farmers of bygone generations decided to hand over the succession to the youngest, since when Benjamin is a full grown man father Jacob is old and glad to rest.

This law of inheritance goes by the name of vortel. Should the heir of his own free will desire to resign in favor of his elder brother the latter must buy the property from him. In such case the younger may be termed a kind of Esau.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy & Kennedy, as he had taken treatment from them himself and knew they were square and skillful. I wrote them and got THE NEW METHOD TREATMENT. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $12 a week in a machine shop before treatment, now I am earning $21 and never lose a day. I wish all sufferers knew of your valuable treatment."

CURED OF ITCHING PILES

Mr. C. V. Mutart is a Customs Broker and Insurance Agent at St. Catharines, Ont. He writes the Zam-Buk Co. as follows: "I have been a sufferer for years with itching piles. I have spent many dollars on advertised remedies for Piles but got no relief. A friend of mine advised me to try Zam-Buk. I had but little faith in any remedy to cure me, but tried one box and I got relief at once. I have used four boxes and am completely cured. I cannot thank you enough for such a wonderful curative salve. I have recommended Zam-Buk to my friends and they too were cured."

At WILSON'S SHOE STORE.

Important Notice to the General Public and the Farmers in Particular.

Our year ended on March 31st, and our business was increased in the past year beyond our most sanguine expectations. We have done nearly one-half more than we did the previous year. We attribute this increase to the low price that we have sold all lines of goods that we carry in stock during the past year, and the fair treatment we have extended to all our customers, but you can't sell goods cheap unless you buy them cheap. On account of the large quantity of shoes we sell we have succeeded in arranging with some of the largest manufacturers of Leather Boots and Shoes in Canada to supply us direct from their factories at wholesale prices, most of the lines that our trade requires. This saves us the jobbers' profit, and puts us in position to sell all kinds of leather goods at least 20 per cent. cheaper than others can sell them. We have arranged with one of the best makers of Patent Leather Shoes in Canada to supply us with all kinds of Patent Leather Shoes at prices that enable us to sell them fully 30 per cent. cheaper than other stores can sell them. We carry a full and complete stock of all kinds of Leather Boots and Shoes from the coarsest to the finest, suitable for the largest man to the smallest child. In Long Leather Boots and Felt Boots and Shoes of all kinds we carry at least three times as many as any store in the city, and sell them from 25 to 75 cents per pair cheaper than other stores sell them. We sell the following lines of Shoes at cost the year round: Men's Gaiters, 90 cents; Men's Red Harvest Ball., 95 cents; Boys' Split Ball., 80 cents; Youths' Split Ball., 70 cents; Women's Split Ball., 90 cents; Misses' Split Ball., 80 cents; Child's Split Ball., 65 cents. Please notice these several lines at cost. We do this to advertise our business.

Important Notice in Reference to all Kinds of Rubber Footwear

Last year we bought direct from the different rubber factories of Canada, ten thousand dollars worth of all kinds of Rubber Footwear at prices that we could and did undersell all other stores at least 30 per cent. This for next season's trade $15,000 worth of all kinds of rubber footwear at prices that we can next season undersell all other stores at least 30 per cent. Please bear this in mind until the rubber season comes. From April to October we will sell the following lines of Rubbers at cost: Men's One-buckle Lumbermen, $1.10, Men's Two-buckle Lumbermen, $1.20, Men's Rubber Boots, $3.25. At these prices these are cheaper for summer wear than Leather Shoes. We have the exclusive right in this locality to sell the J. H. ROEDDING Patent Rubber Sole and Heel for all kinds of Rubber Footwear. This is a new invention and will add about one-quarter to the wear of all kinds of Heavy Rubber Footwear.

Shoemakers please take notice of these Rubber Soles and Heels we have for sale, and if you want any write to us for prices, and directions how to apply them.

Lumbermen's Sox for Men, Boys and Youths.—We buy in large quantities direct from the manufacturers and save the middleman's profit and sell them fully 30 per cent. cheaper than others can sell them. We are the only store in the Dominion that deals extensively in Mismated Boots and Shoes, both in Leather and Rubber Footwear of all kinds. We buy these mismates all over the Dominion, mate them as best we can, and sell them for about one-half the price of perfect mated goods of same quality. They are great value. We can't get sufficient to supply the demand. We sell thousands of pairs yearly of them. We have a separate department for Mismated Boots and Shoes. At present we have a good supply of them on hand.

Ready Made Clothing of all Kinds for Men, Boys and Youths.

While we haven't room to carry as large a stock as some others carry, we carry all we have room for and sell all lines in ready-made cheaper than others do. If we haven't got what our customers want in Ready-made Clothes we are within a few minutes' walk of the wholesale house, where we take our customers and get them anything in ready-made clothing much cheaper than they can buy elsewhere. It will pay you to see us for all kinds of Ready-made Clothing.

Gents' Furnishings.—We carry a fair stock in Hats, Caps, Shirts of all kinds. Underwear of all kinds, and a large stock of all kinds of Gloves and Mittens. Gloves and Mittens we sell much cheaper than others do. We have many other lines in Gents' Furnishings not named here. Hosiery of all kinds, all of which we sell much cheaper than others do.

In Ladies' Wear.—We carry Waterproof Coats, Winter Coats, Fur Coats of all kinds, Skirts, Blouses, Wrappers, Underwear and Hosiery of all kinds, all of which we sell at least 20 per cent. cheaper than other stores sell them. We make Ladies' Clothing of all kinds to order.

Remnants of Cloth.—We carry a large stock of Scotch, English and Canadian Double Fold Cloth, suitable for all kinds of Clothing for men's, boys', youths', women's, misses' and children's clothing of all kinds. We buy these remnants for less than half price; we sell them for about half the wholesale price. They are great value, especially for those who can make their own clothing. You should see them.

Yard Goods of all kinds. We carry as many as we have room to carry, consisting of most of the staple lines. While we haven't room to carry as large a stock as others do, what we do carry we sell from two to ten cents per yard cheaper than others sell them. It will pay you to see us for yard goods of all kinds.

We sell all kinds of Fur Goods at least 30 per cent. cheaper than others. We repair all kinds of Fur Goods. It will pay you to come to us for all kinds of Fur goods and repairs of all kinds of Fur Goods.

We carry a large stock of Horse Blankets, Sweat Pads, Horse Covers, Knee Rugs and Robes. It will pay you to come to us for above lines, as we sell them fully 20 per cent. cheaper than others sell them.

Groceries.—We haven't room to carry a complete stock. We sell Redpath's Best Granulated Sugar 10 lbs. for 50c., 20 lbs. for $1.00, 100 lb. bags for $4.95. Imperial Fruit Jars, pints, per doz. 68c., quarts 73c., ½ gallon 90c. Black and Green Tea 20c. per lb. Brooms 25c. Comfort and Surprise Soap, 7 bars for 25c. Lard, 20 lb. pails 12c. lb., 5 lb. pails 13c. Best Manitoba Flour, per bag $2.40, ½ bag $1.20, ¼ bag 60c. 100 lbs. fine salt 60c. We carry several other lines in groceries and will add others. Prices subject to change without notice.

For every dollar's worth of goods you buy from us, if you ask for it, we will give you an order on another store for the same amount of all kinds of Groceries, Tinware, Graniteware, Chinaware and Hardware to buy at cost. This will save you at least 10 per cent.

You will notice that we claim to sell goods cheaper than others do. You will ask how we can do this. We will give you a few of the reasons why we can and do sell cheaper than others do. First, we are located where rent is not one-quarter what it is in the centre of the city. Second, we do our own buying, and have the name of being very close buyers. Many stores trust this important matter to others. We buy for cash and sell for cash, and have no debts to lose. We are satisfied to work and to live as farmers having the same amount of capital are forced to live. We don't think that because we keep store that we are entitled to a fine city residence and a house at the Beach, and servants to wait on us. Can farmers afford to live such a life? If not, why should we expect it. We keep our store open every day except Sunday, about the same hours that farmers are forced to work. Many stores open at 8 and close at 5 p. m. Why should we be entitled to shorter hours and better pay than the farmer, who represents in number and wealth about nine-tenths of the civilized world. There are still many other reasons why we can and do sell cheaper than others, but these should be sufficient.

To charitable homes, and widows having small children depending on them for support, we sell all lines of goods we carry in stock at cost. It affords us pleasure to do so. We mark all our goods in plain figures; practice no deception; sell on small profits for cash only.

E. MARCHAND,

JEWELER, MILTON

Canada Must Expensive.

In a forceful speech at Boston recently before the Intercolonial Club of that city, Prof. Andrew McPhail of McGill University told of the stagnation in the Maritime Provinces, and pointed out the need of a new policy. Among other things he said:

"Canada is to-day the most expensive place in the world in which to live. In Toronto the prices of necessaries advanced 67 per cent. between 1897 and 1906; in Ottawa 45 per cent in the last five years, and, in Montreal, 36 per cent.

"The ultimate cause of the stagnation in the Maritime Provinces is that the people are denied access to their natural markets for purposes either for purchase or for sale."
