An independent newspaper, published every Thursday at the office, Collingwood Street, Flesherton. Subscription price $1 per annum when paid in advance ;$1.50 when not so paid Advertising rates on application. Circulation 1,100 weekly.

W H. Thurston- Editor

Parcel Postage to Soldiers

The Postoffice Department is in receipt of applications to have parcels addressed to our soldiers in France sent free or at reduced rates of postage, there evidently being an impression that the Department has control of these rates and could do as it wished, bus this is not the case, as the question of postage is fixed by international agreement, so that it is not in the power of the Canadian Postoffice Department to undertake to carry the parcels free or at a reduced rate of postage. Under international law provision is made for the free transmission of parcels for prisoners of war, but this privilege does not extend to parcels for troops engaged in active service, nor is it in the power of the Department to so extend it.

The rate of postage required on parcels addressed to the troops depends upon the location of the addressee. If the addressee is in England the rate on parcels for england applies, whic is 12c per pound ; whilst if he is in France, the parcels are subject to the rates applicable to parcels for France, which are as follows :

1 lb , 32c : 2lb., 40c ; 3lb., 48c ; 4lb., 64c ; 5lb., 72c ; 6lb., 80c ; 7lb., 88c ; 8lb., $1.02 ; 9lb., $1.10 ; 10lb., $1.18 ; 11lb., $1.26.

These are exactly the same charges which existed for years between Canada, England and France before the war, and are the result of an agreement or convention made between these countries and Canada, and as these countries have not agread to lower their rates between England and France, Canada has to pay them the same rates as before the war and must pay them the same postage.

In all cases parcels for troops must be addressed Army Post Office, London, England, but this does not in any way affect the rate of postage which depends entirely upon the location of the addressees.

Seasonable Hints

"The real test of the farmer is, perhaps, in his ability to make the most profitable use of the various products of his farm and his foresight in getting ready in every way practicable between harvest and seed time for the productive operations of the next season." Thus states Mr. J. H. Grisdale, Director, Dominion Experimental Farms, in presenting Seasonable Hints, No. 3, for November, December, January and February, to the farming public of Canada. A careful perusal of its sixteen pages will amply reward the stockman, the agriculturist, the horticulturist, the poultryman, the tobacco grower and those especially interested in bees. A feature in this third issue is the advice under the caption "Shelter the Implements". The enormity of the vast sum of money spent annually on farm machinery is impossible of realization. To equip an average farm with machinery costs about $1,000, which under ordinary conditions of treatment will not do good work for more than five years. To counteract this waste, for unsheltered implements means waste, shelters should be built. A working plan of a shed 25 by 47 feet outside measurements is given, with directions necessary for its construction. A careful study of this plan, which, as stated, is capable of many modifications, will be helpful to those intending to build. To those, therefore, who would have a compendium of information, which outlines many necessary fall and winter duties pertaining to agriculture in all its phases, Seasonable Hints, No. 3, is available on application to The Publication Branch, Department of Agriculture, Ottawa, Ontario.

High Constable Cook

(From the Durham Chronicle)

Because a police court reporter was disposed to say mean things about Constable Cook as the result of an alleged interview when he was in Detroit after Tom Mighton, is no reason why we should reproduce the article from the Detroit News. Mr. Cook brought his man home and deserves no censure in the discharge of that particular duty. If he lost him on the way and came home empty handed, then we might feel justified in poking a little fun at him. When he accomplished his purpose it seems mean to slap him in the face because some Detroit guy wanted to say some smart things about an official from Canada. It was a readable skit and reached us from two sources, but we decided its publication would weaken a good official rather than strengthen him in the public mind.

Will sell cheap to right man. For terms, etc , apply to the undersigned
—CHARLES WICKENS
1 Nov Kimberley P.O.

A rather sad unfortunate but rare case came before S. Tate J. P. on Monday morning, which on his suggestion was settled out of court. Mrs. Martin wife of a recent business man in town, entered action against him for non-support. From the woman's statement Mr. Tate advised them to have a separation bill drawn up, which they did. Mrs Martin alleged her husband drank and gambled, left her unprovided for, and wished to be clear of him. Unforunately for the woman she speaks but little English. She intends returning to Porcupine, New Ontario, where her brothers are in business. —Grand Valley Star.

An agreement was completed Tuesday by which the Wm. Kennedy and Sons Co., Owen Sound, take over the plant of the Northern Iron and Steel Co., formerly the Cramp Steel Co., of Collingwood. The plant is being taken under lease for a term of years, and will be used for manufacture of steel blanks for shells. Arrangements as to its operation have not been completed, but it will probably be in charge of a superintendent who will be responsible to the Owen Sound office. While some of the machinery now is available for use, some changes and additions will be necessary. But these will be made as rapidly as possible ; and it is expected that the plant will be ready for operation about the middle of January.—Advertiser.
