New York, Nov. 9.—Later returns of yesterday's election make the landslide even more disastrous to the Republicans than appeared late last night. It was a victory for lower tariff and for progressive government almost all along the line. The New York anti-Roosevelt papers exult over the defeat of Stimson, and prophesy the complete eclipse of the ex-President for the future.

AGAINST NAVY.

The by-election in the united counties of Drummond and Arthabaska, Que., resulted in an emphatic pronouncement against the Government's naval and military policy. At the last general election the Liberal candidate carried the united counties by a majority of 834. In the election of Thursday last an independent candidate, running in opposition to the Government's naval policy, defeated the Ministerial nominee by nearly 200.

It is admitted on all sides that the result was wholly due to a desire on the part of the electors of the riding to express their condemnation of the military and naval policy to which the Government has been committing the country. The Globe's despatch, the day after voting, said: "This is undoubtedly the result of the strong anti-naval campaign of the Nationalists. Nothing but the naval programme was talked."

The greatest surprise in connection with the event was the action of the English-speaking electors of the united counties. There are, The Globe despatch says, about 500 English-speaking electors in the riding. In the two recognized English-speaking divisions one gave a majority of only nine for the Ministerial candidate, while the other gave a majority of 26 against him.

After the result was announced, Mr. Lavergne, who was one of the leading speakers in the campaign against the Government, expressed the hope that the Liberal party "will now return to its old principles of government for the people and will understand that one way to save the Empire is by respecting the liberties and privileges of the colonies. In Canada," he added, "the best way to be a good Imperialist is to be a good Canadian." It was not, he went on, a fight against Great Britain or the Empire, but one for our country.

At a meeting of Toronto Conservatives Monday evening Mayor Geary said he would have preferred the election of the Laurier candidate, and W. K. McNaught, M.P.P., said some hard things of F. D. Monk, M.P., but Edmund Bristol, M.P., defended the Nationalists.

At the same meeting a resolution was passed against negotiating with the United States for reciprocity.

Ashgrove.

Nov. 7th, 1910.

Thanksgiving time is over and the visitors all have returned to their respective homes. Among those who were away from here were Miss G. B. Wrigglesworth, with friends in Hamilton, Miss Ada Nixon, with friends at Arthur, Mrs. Wm. Hood, with her son in Toronto, and those who visited here were Mrs. Coxe, of Toronto, with Mrs. Alexander, Miss Blanche Grant, of Toronto, with Mrs. W. Wrigglesworth, Miss Estella, of Toronto and Edgar Ruddell, of Hamilton, with their parents here.

Beef Ring No. 1 held their annual supper on Friday evening, Nov. 4th, at R. Graham's and it was a great success.

The farmers are busy at their plowing and fall work, which will end soon, for with

CURING CATARRH

Accept Our Advice and Try this Remedy at Our Risk.

Catarrh is a disease of the mucous membrane. The mucous membrane is, one may say, the interior lining of the body. Catarrh therefore may exist in any part of the system.

When the catarrhal poison attacks the mucous membrane, inflammation and congestion are produced and nature fails to throw off the accumulated poisons. The organ which has been afflicted ceases to perform its proper function as nature intended it should. The result is, complication upon complication, which may lead to other even more serious afflictions.

We honestly believe Rexall Mucu-Tone will do wonders toward overcoming catarrh. It is made from the prescription of an eminent physician who made a long study of catarrh, and his great success with this remedy was an enviable one.

We want you if you are a sufferer from catarrh in any form, to give Rexall Mucu-Tone a thorough trial. Use it with regularity and persistency for a reasonable time, then if you are not satisfied, come back and tell us, and without question or formality we will hand back to you every cent you paid us. This is certainly the fairest offer that any one could made and should attest our sincerity of purpose. It comes in two sizes, prices 50 cents and $1.00. Remember you can obtain it only at—The Rexall Store, Higginbotham Drug Co.

In washing woollens and flannels, the soft soap made from Lever's Dry Soap (a powder), will be found very satisfactory.

GOOD HEALTH FOR YOUNG GIRLS

What is Needed is the Rich, Red Blood Dr. Williams' Pink Pills Actually Make.

Perhaps you have already noticed that your daughter in her "teens" has developed a fitful temper, is restless and excitable. In that case remember that the march of years is leading her on to womanhood, and at this time a great responsibility rests upon you as parents. If your daughter is pale, complains of weakness and depression, feels "all tired out" after a little exertion; if she tells of headaches, or pain in the side, do not disregard these warnings. Your daughter needs help—for she is most probably anaemic—that is, bloodless.

Should you notice any of these signs, lose no time, but procure Dr. Williams' Pink Pills, for her unhealthy girlhood is bound to lead to unhealthy womanhood. Dr. Williams' Pink Pills enrich impoverished blood and by doing so they repair waste and prevent disease. They give to sickly, drooping girls, health, brightness and charm, with color in the cheeks, bright eyes, a lightness of step and high spirits. A case typical of thousands cured through the use of Dr. Williams' Pink Pills is that of Miss Grace Cunningham, Winnipeg, Man., who says: "I really cannot say enough in praise of Dr. Williams' Pink Pills, as they have made me feel like a new girl. I was pale and almost bloodless and think that on an average I missed at least three school sessions a week, because I felt like a broken down person, and too weak to do anything. The doctor's medicine I took did little more than keep me in hope; it certainly did not cure me. Then I was advised to take Dr. Williams' Pink Pills, and they soon made me feel like a new person. Day by day I gained strength and color, and I have your medicine to thank for it."

Dr. Williams' Pink Pills are sold by all medicine dealers or may be had by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

LAST OF GOLDEN EAGLES

The Species Once Numerous in the Black Hills is Now Extinct

When the pioneers entered the Black Hills 35 years ago golden eagles were as common as are English sparrows at present, but with the death of Old Sentinel, that occurred several days ago, it is believed that the birds have become extinct. Unlike eagles of other sections of the country, the golden eagles were much larger, fiercer, swifter of flight and of a different color. The feathers and plumage of the back were almost yellow, hence the name.

In the early days of the hills the birds were so numerous that they were considerable of a menace to the settlers. Frequently they would swoop down into the ranch lots, pick up a lamb or a small pig and fly away to some crag, where they would devour the catch or carry it to their young. Many stories are told of golden eagles having attacked small children.

Recently E. M. Norman, Rapid City, went to Deadwood, S.D., determined if possible to capture the golden eagle alive. He realized that Old Sentinel was the last one of his race in the hills and that in his capture he would secure a prize well worth effort. Going out to the Ragged Top range with a small party of friends, he was told that Old Sentinel, that had occupied the peak for years, had not been seen for more than a month.

Mr. Norman concluded that a trip to the lofty home of the eagle was worth the trouble, and climbed to the top of the mountain. There, covering a space of more than 20 feet square, were the bones of almost all kinds of small domestic animals lying about in heaps.

Down in a crevice of the rocks, some 20 feet below, was the body of the eagle. Ropes were put on one of the men and he was lowered and pulled back, bringing with him the prize, not alive, but a dead eagle. Making an examination, Mr. Norman became convinced that the eagle must have been fully 100 years old and that his death was due to age. The body was taken down and brought to Deadwood, where the skin will be mounted and probably become the property of the Historical Society of South Dakota.

The measurements of Old Sentinel prove that he was one of the largest of the birds of North America.

IMPATIENT AGE

Primate on Mania for "Snort Cuts"—The Perils of Hurry

The Archbishop of Canterbury, preaching at Lambeth Parish Church, where the mayor and corporation of the borough paid their annual visit in state, said that though the world was better than it was, present-day faults were great impatience and hurry. Were what we saw good, he thought, spurred from every side. In every department of life people were striving for what in common talk were called "short cuts" towards the solutions they wanted to reach. Anxious problems were being faced in a spirit which was surely a bad spirit and a dangerous one—a spirit of hot impatience. It was wholesome to be both intolerant of wrong, but intolerance or impatience of wrong could not usually solve even its applications by itself. Patience had a foremost place in sustained effort for the good cause; things, to-day's temptation was speed rather than thoroughness.

REAL ECONOMY

On Lord Dufferin's estate, near Belfast, there once stood a historic ruin, a castle which had been a stronghold of the O'Neils. One day Lord Dufferin visited it with his steward, Dan Mulligan, and drew a line with his stick round it, telling Mulligan that he was to build a protecting wall on that line. And then he went off to India, feeling secure as to the preservation of the great historic building.

When he returned to Ireland he hastened to visit the castle. It was gone. He rubbed his eyes and looked again. Yes, gone it certainly was, leaving not a trace behind it. He sent for Dan and inquired:

"Where's the castle?"

"The castle, my lord? That old thing? Sure, I pulled it down to build the wall wid."

BRIDEGROOM AT 81

The bridegroom at a Leeds wedding, Mr. Henry Foster, was 81 and his bride a few years younger.

Mr. Foster had been three times married previously. He wore grey trousers and a sort of slouch hat, and was apparently beaming with happiness. The bride wore a white silk dress and a black hat. There were many showers of confetti.

Lord Morley will resign his position as Secretary of State for Indian.

Dr. Crippen has been granted a reprieve until November 23.

Curling.

The curling and skating rink was not sold at last Saturday's auction. Only one bid was received and it was lower than the reserve bid. It is expected that the rink will soon change hands, however, by private sale, and the annual meeting of the curling club will be held to-morrow evening at the reading room, town hall, at 8 o'clock. Officers will be elected and the prospective arrangement for ice with the rink owners will be discussed.

A CREDIT TO CANADA.

Canada can boast of many great enterprises, but the one in particular that all Canada is proud of is that great weekly printed in Montreal, The Family Herald and Weekly Star. With its 28 and 32 pages every week of the best reading matter, it certainly is a big dollar's worth, and then again every subscriber for 1911 has an opportunity to win a Free Trip to the Old Country next June. Anyone who is not already a reader of that great weekly should lose no time in sending in an order. The price is only one dollar.
