John Coutts of Egerton, met with a nasty accident on April 1 when a horse kicked him in the face. His lip was badly cut and required several stitches while his teeth were forced inward but not broken.

To Be Made In Canada

In the matter of vegetable parchment the German manufacturers are to be excluded from the Canadian market. This product for years came from Belgium, France and Germany. Since the outbreak of war there has been much difficulty encountered in getting it. A Belgian manufacturer, whose plant has been destroyed by German shell fire, is to undertake the production of vegetable parchment in Canada, his enterprise being financed by all paper manufacturers in the country taking stock. The location chosen is in New Brunswick as the salt water is necessary in producing the commodity. The government has waived its objections to alien labor coming to the country, so that the mechanics to be employed in the industry will be Belgians skilled in the secret of making vegetable parchment. New Brunswick will become a vast onion growing province, as it is from onion skin that the parchment is made. In a couple of years, or less, the product of this new Canadian industry should be on the market and with the tariff protection it will doubtless receive and should be able to exclude entirely the German product from Canada.

Premier Hearst introduced a bill to organize the resources of Ontario to help win the war

THE MARKETS.

Points to Consider When Purchasing a Railway Ticket

A Canadian Pacific Railway ticket does not represent merely a means of transportation between given points. It, in addition provides the traveller with every comfort and convenience, developed by modern railway science, "Safety First," with up-to-date equipment, unexcelled dining car service, palatial sleeping cars, in a word, everything that a railway can provide for the comfortable transportation of its passengers, including courtesy.

Special One Way Fares to Pacific Coast Points, Daily until April 14.

Those contemplating a trip to Pacific Coast points, including Victoria, B. C., Vancouver, B C., Seattle, Wash., Portland. Ore., should consult Canadian Pacific Ticket Agents for particulars of low fare in effect daily until April 14.

Production and Thrift

"TO win the war with the decisiveness which will ensure lasting peace, the Empire will require to put forth its full collective power in men and in money. From this viewpoint it is our true policy to augment our financial strength by multiplying our productive exertions and by exercising rigid economy, which reduces to the minimum all expenditures upon luxuries and non-essentials. Only in this way shall we be able to make good the loss caused by the withdrawal of so many of our workers from industrial activities, repair the wastage of the war, and find the funds for its continuance. It cannot be too frequently or too earnestly impressed upon our people that the heaviest burdens of the conflict still lie before us, and that industry and thrift are, for those who remain at home, supreme patriotic duties upon whose faithful fulfilment our success, and consequently our national safety, may ultimately depend."—*SIR THOMAS WHITE, Minister of Finance.*

PRODUCE MORE, SAVE MORE.
MAKE LABOUR EFFICIENT.
SAVE MATERIALS FROM WASTE.
SPEND MONEY WISELY.

LET US PRODUCE AND SAVE—

The war is now turning on a contest of all forces and resources—men, munitions, food, money. The call to all is to produce more and more. It may be necessary to work harder. The place of those who enlist must be taken by those at home, men and women, old and young. The more we produce the more we can save. Produce more on the farms and in the gardens. Save more and help to win the war.

LET US NOT WASTE OUR LABOUR—

In this war-time all labour should be directly productive or should be assisting in production. Make it as efficient as possible. If your labour is on something that can be postponed, put it off till after the war and make your labour tell now. Making war is the first business of all Canadians. Efficiency in labour is as important as efficiency in fighting.

LET US NOT WASTE MATERIALS—

Begin at home. The larger portion of salaries and wages is spent on the home—food, fuel, light, clothing. Are any of these things being wasted? $20.00 a year saved from waste in every home in Canada will more than pay the interest on a war debt of $500,000,000.

LET US SPEND OUR MONEY WISELY—

Are you spending your money to the best advantage? What do you think of extravagance in war time? Tens of thousands of Canadians are daily risking their lives for us at home. Is it not our duty to be careful and economical? Canadian dollars are an important part of the war equipment. Make them tell. Have a War Savings Account. Buy a War Bond.
