NOTICE TO MARINERS.
The following important notice to Navigators has been issued from the Colonial Office, Natal, in reference to a Light House, erected on the Bluff, at the South side of the entrance of the Port of Natal, to which the attention of all concerned is specially directed.
By command,
R. S. M. BOUCHETTE,
Commissioner of Customs.

GOVERNMENT NOTICE.
No. 122, 1866.
HIS EXCELLENCY the Administrator of the Government directs the publication, for general information, of the following Notice of the erection of a Light House on the Bluff, at the South side of the entrance of Port Natal.
By His Excellency's command,
D. ERSKINE,
Colonial Secretary.
Colonial Office,
Natal, 20th October, 1866.

NOTICE TO MARINERS.
A Light House has been erected on the Bluff, at the South side of the entrance of Port Natal, at an elevation of 292 feet above high water, a light from which will be exhibited on the 23rd January, 1867.
The Light House is in Latitude 29° 52' 50" S., and Longitude 31° 3' 35" E.
The building is an iron tower, in the form of a frustrum of a cone, 81 feet high, painted white; centre of light being 70 feet above the base, exhibiting a revolving white light of the second class (dioptric), attaining its greatest brilliancy once every minute.
It is visible in all directions from North (round by East and South), to S. 59° W.; and can be seen from a ship's deck 24 miles in clear weather.
The above light is not visible from the Aliwal Shoal, which is 25 miles S., 53° W., from the Light House: vessels should not, therefore, when coming from the Southward and Westward, approach the shore nearer than 4 miles, or shoal their water under 40 fathoms, using the lead freely until they make the light well out from the deck, when they may stand in until it bears N. 59 E., —which bearing will keep them outside all known danger—until they are abreast of the Umlan River, (about 9½ miles below the Light House), when they must keep it more to the Northward, as the land tends more to the Eastward, giving the shore a good berth of a mile, and when the light bears about E. N. E., they can haul in to the Northward for the anchorage: anchoring in 8½ to 10 fathoms, with the Light House bearing S. W. to S. W. ½ S., distant 1 mile.
W. E. ARCHDEACON,
Master R. N.,
337tf Admiralty Surveyor.
