The business of newspaper "personals" is getting on. One in the Markdale Standard this week reads:—"Miss Minnie Howard, a neat and tidy blonde, is the guest of Mrs. Horloo at present"—Stayner Sun.

An editor in a nearby town asks for proposals from the the merchants of the town to furnish him a pair of socks, a bushel of potatoes and five yards of calico, contract to be awarded to the lowest bidder. He says that is the way they do business with him when they want $2 worth of job work.

According to the newspapers very few persons merely "die." The banker merely "passes in his checks," the cashier "goes to his last account," the mugwump "joins the great majority," the cobbler "breathes his last," the saloon man" seeks the spirit land," the gambler "shuffles off," the stable man "kicks the bucket," the spiritualistic medium "gives up the ghost," the accountant "goes to his last reckoning."

A fine calf which is intended to provide meat for the Duke of Cornwall and York during a portion of his stay in Toronto, was purchased at the Toronto cattle market a few days ago, by Mr. Frank Hunnisett jr. It is 9 weeks old, weighs about 200 pounds, and is pronounced by cattle buyers an almost perfect animal. It was brought to Toronto by Mr. Henry Heal, of Mitchell, and gave evidence of having been well cared for during its short stay in the country. The careful handling will continue for another month, when the animal will be turned to a city butcher. It will probably be served up on the table of his Royal Highness, at Government House, in October.

An editor who is a deep thinker, has fixed a table of rates for publishing things "not as they seem," as follows;—"For calling a man a successful citizen when everyone knows he is lazier than a government mule, $2 72; referring to a deceased citizen as one who is sincerely mourned by the entire community, when we know he will only be missed by the poker circles, $1 08; referring to some gallivanting female as an estimable lady whom it is a pleasure to meet, when every business man in town had rather see the devil coming, hoof, horns and all, $3 19; calling an ordinary pulpit rounder an eminent divine, 90 cents; sending a tough sinner to heaven with poetry, $5."

According to the Toronto Telegram the the problem of extracting gas from peat has been so far solved that an engine has been working experimentally in the factory at Toronto Junction on gas produced from peat at an estimated cost of three cents per thousand feet. An inexhaustable supply of peat is far up on the list of Ontario's undeveloped resources, and any working commercial process of extracting fuel and illuminating gas from this peat will be worth millions to this country. Gas which could be manufactured and distributed at a net cost of twenty or twenty-five cents per thousand feet would virtually abolish the use of coal for generating heat, light and power, and change the whole face of industrial nature of Ontario.

The Chatsworth News says:—A horse thief by the name of Thomas Grigston of Tara, arrived here last Saturday morning with a young horse and buggy and spent until Monday noon driving around the village and trying to sell the horse. At the time it was known that the horse was stolen and as Grigston was in short pants, being in the neighborhood of 25 years of age, however, and did not attempt to conceal the horse, people were thrown off their guard. Mr. James McAvoy was well acquainted with him for some years and while here he stopped at Mr. McAvoy's house, where he was kindly treated, and right here is where young Grigston showed his thorough lack of principle by persistently trying to sell the horse to Mr. McAvoy, who finally bought the horse for $40, and Grigston took the noon train north. On Tuesday Constable Donlon received a card describing the stolen horse and Mr. McAvoy at once gave it up on being apprised of the facts. Constable Briggs came over yesterday and took the horse, which had been stolen from Gerolamy's field on Friday night. Grigston has since been arrested at Owen Sound.

Warts, Versus Moles

Are either a mark of beauty? This would be a suggestive topic for debating societies. For the information of such, let it be known that Putnam's Painless Corn Extractor removes painlessly warts in a very short time. Druggists who sell the best always sell Putnam's Painless Corn Extractor.
