THIS is purely a Canadian Institution, and as such is deserving of the support of the Canadian public.

An Act for the Incorporation of this Company is now before the Parliament of the Dominion.

Over $100,000 of stock is already subscribed and it is the intention to deposit with the Government as a guarantee of our good faith, at least $50,000 as soon as an Act of Incorporation is procured (which will be a provision of our Incorporation.) It is unnecessary here to dilate upon the profits of money invested in Insurance Stock. Suffice it to say, that, at least in one instance 3335 per cent advance has been obtained on insurance stock, and that after the payment of princely dividends. In the meantime Subscriptions to Stock, in Ottawa may be made at the Ontario and Royal Canadian Banks, and a deposit of 10 per cent is requisite which will be deposited IN TRUST to be returned in case any subscriber is not satisfied with his investment up to one month after the Vice-Regal sanction to the Charter is obtained.

Ætna Life Insurance Company.

ESTABLISHED, A. D. 1820.

Capital and Assets, 1st Jan., 1867, $4,401,833.86

THIS MOST SUCCESSFUL LIFE INSURANCE COMPANY divides the *whole* of the Profits, every year, among the insured, reducing the cost to about one-hal the figures usually charged.
For instance, the annual payment, at the age of 30, in most Companies, to insure $2000 is, with profits, about $50, and without profits $43.90
In the Ætna, $2000, to a person 30 years of age, costs the first year 25.31
And each subsequent year 26.74
Which payment is subject to further reduction as the business of the Company increases.
Endowment policies on equally favorable terms.
The fact that the Ætna has, during the past 12 months, insured over 14,000 persons, from among the best business men of the Continent, is the best possible testimonial to the soundness of the Company, and the excellence of its method of doing business.

MISCELLANEOUS.

SEIZURE OF AN ILLICIT STILL.—The officers of the Inland Revenue Department in this city are by no means so lax in the performance of their important duties as some Upper Canadian papers would have it to be supposed. An instance of this recently came under our notice. A Mr. David Bourgeau residing at No. 24, St. Louis-st., has been illicitly "running" a still in a stable at the rear of his premises for some time past, and for a while did a roaring and profitable trade. His apparatus was very complete and calculated, as was subsequently ascertained by experiment, to "run" upwards of two hundred gallons of spirits every twenty-four hours. His consequent profits at 60 cents a gallon—excise duty—may be integred without any great stretch of imagination. Unfortunately, however, for Mr. Bourgeau and his future chances of a fortune at the expense of the Revenue, his proceedings, somehow, came under the cognizance of one of the Assistant Collectors of the Excise for this district, Mr. Scobell, who planned a seizure in such a timely manner that Mr. Bourgeau was caught in the act of "running" off a brew. His premises, we need scarcely add, were immediately put under seizure and proceedings will now be taken in the courts. We have reason to believe that Mr. Scobell is entitled to the thanks of the tax payers—who are all pecuniarily interested in the question of putting down the illicit manufacture of spirits—for the way in which he worked up the case and the conclusion it led to.—*Montreal Gazette.*

THE WONDERS OF THE MICROSCOPE.—We understand it is through the agency of this marvel viewing instrument that Dr. Ayer has at length succeeded in finding the Paludal Miasm and determinating its character. Of its effects we in this section have abundant evidence in the fever and ague which it alone produces when absorbed through the lungs into the blood. It has long been held to be a vapor or something in the vapor of war from decayed and decaying vegetation. Under a great magnifying power, the Doctor has found this vapor to contain distinct organisms or living bodies, corresponding precisely with these found in the blood of ague subjects. They are 13,000 times less than visible to the naked eye, but have distinct character and form. He thinks they are reproductive in decaying matter or in the blood, and hence their long continued life or the remote effects of them in the system. He maintains that they resemble in character the other fermentative poisons, or such as the virus of rabies or of a dead body, &c., all of which are known to reproduce themselves with great rapidity like yeast in moistened flour so that the slightest quantity impregnates the whole masse. Yeast through a powerful magnifier is seen to be a forest vegetation which grows, blossoms, and goes to seed in a short time. Miasm is not so distinctly vegetable but has more the appearance of animal life, although its motions cannot be perfectly distinguished. What the Doctor claims to have settled is that it is an organic substance and he has further found and embodied in his "Ague Cure" what will destroy it.—*Leader*, St. Louis, Mo.

ANOTHER FISHERY CASE.—Some small islands in the Dominion of Canada, and lying in Lake Erie, about eight miles from the mouth of the Detroit river, known as the "Hen and Chickens," have for some reasons been leased to an old man, who for several months has been greatly interfered with in his fishing by certain Americans, who came to the islands and set nets which brought into them a great number of the most splendid fish, and made the fishing of the lessee utterly valueless, as the operations of the intruders were carried on upon a far greater scale than were his, and took all the largest fish. Accordingly he procured the services of a magistrate and several constables, and on Tuesday night they made a raid upon the islands. The results were the capture of six men, three boats, and a large supply of nets and other fishing apparatus, together with about 1,000 large fish. The men were each fined $20 and costs by the magistrate, who constituted the island his court, and the boats and nets with all the fish were confiscated. This will probably have the effect of breaking up the operations of the band, who have, however, undoubtedly reaped a rich harvest from their fishing during the past summer, as the fish were caught in great numbers, of very superior quality, and were sold in large quantities in the Cleveland and Buffalo markets.—*Detroit Tribune, Nov. 20.*

CHARLES DICKENS.—This distinguished gentleman was a passenger in the steamer *Cuba*, which arrived at 3 o'clock yesterday morning from Liverpool. At 5 o'clock His Worship the Mayor, Chairman of the Committee appointed for the purpose, waited on Mr. Dickens on board the steamer, and was cordially received. His Worship communicated to Mr. Dickens the desire of the citizens of all classes that he should give one or more readings in this city. Mr. Dickens stated that he had received a similar invitation from the citizens of St. John, and, so far as he was personally concerned, it would give him great pleasure to
