## TUBERCULOSIS SUNDAY

**Last year, as in years past, nearly every Clergyman and School Teacher in Ontario helped to spread the Gospel of Good Health on Tuberculosis Sunday and Tuberculosis Day in the Schools.**

**This year, under the auspices of the National Sanitarium Association, endorsed by the leading Clergymen of all Denominations and by the Department of Education, Sunday, November 25th, and Monday, November 26th, have been appointed for the annual observance of these days.**

**At no time in the history of the world has the necessity for physical fitness been so great as it is to-day. One has but to scan the reports of rejections for active service abroad to note the many that are unfit. "You have tuberculosis!" has been the pronouncement to thousands of young men in Canada and the United States during the past few months.**

**A thorough physical examination a year ago might have exposed the weakness and prevented the development of this dread disease; and yet, in spite of such a warning, thousands of men and women will continue to disregard the danger until they too have become victims of Consumption.**

**If you would avoid this disease, watch your health, avoid needless worry and over-work; see that your food is nourishing and that it is served at regular intervals. Above all—get out in the sunshine every minute you can spare; see that the windows in your place of business and in your home are open so that day and night you may be assured of a plentiful supply of pure, fresh air.**
