Kimberley

From Our Own Correspondent.

A very sudden death occurred here on Monday afternoon about four o'clock. Mr. Joseph Henderson was doing some repairing to a small bridge over a water course north of the grist mill, and when he was lifting a small stone he suddenly fell back apparently in a faint. As he fell he was caught by Mr. B. Smith and expired almost immediately, no expression of pain or any word escaping from his lips beyond a slight moan. Dr. Danard who was in the village, was immediately sent for and pronounced him dead. Affection of the heart was the cause of his death yet the deceased had not been seriously ill previously.

A very interesting meeting was held in the public hall on Monday night, when Mr. I. B. Lucas commenced his election campaign in this riding. Mr. J. M. Davis was present and was given a privilige to address the electors also. Other short speeches were made by some of the electors. The addresses were interspersed with selections rendered by a string band which accompanies Mr. Lucas on his tour.

Stones Settlement.

From Our Own Correspondent.

Seeding operations in this section are well under way, but some days will elapse before it is finished. This has been a good season for plowmen to show good work as the weather has not been hot enough to warp the furrows.

The framers have nearly completed the framing of Mr. Lyness' barn, but the masons are not expected for some days yet.

Several improvements have recently been made in our school house and grounds, a new clock now hangs on the wall (inside of course) several much needed repairs have been made, and about thirty shade trees have been planted, which if they do well, will add materially to the beauty of the Stone Settlement academy.

Johnnie Boyce has gone to the lower (colder we mean) settlements for the summer. Charley has re-engaged with the same man with whom he was engaged last year. Willie is turning the sod for somebody else, and pa is left to do the work on the two farms, alone.

The home of Mr. Henry Patterson was again the scene of joy, by the arrival there three weeks ago, of another bouncing boy.

Arbor day was observed in our P. S. on Friday last. We have not been to inspect the work, but presume it is O. K. as J. L. W. doeth all things well.

We noticed another new cabinet organ pass this way a day or two ago but we have not yet heard who is the purchaser.
