The cap stone of the Northern Colonization Railroad Bridge was laid yesterday. The bridge is built upon three spans, two of them 150 feet, and the other of 200 feet, the piers being in 25 feet of water in a current of six miles per hour.

Fifty hogsheads of beer were placed on board the "Prince of Wales" at Lachine last Monday, to be taken to Ottawa, but owing to the stormy and cold weather that boat was unable to proceed on her voyage, and the beer had to be taken ashore again. Doubtless there are numerous dry throats at the Capital whose owners feel disappointed at the sudden closing of navigation.

The stock market yesterday was quiet and unchanged. Montreal 183½, closing at 183½ to 183¾; Merchants 121, closing at 121 to 121½; Commerce offered either to buy or sell at 136 to 136½.

PARIS, Nov. 28.—M. Thiers yesterday, in an interview accorded to a representative of *La France* newspaper, said that Italian unity was irrevocably accomplished, and if France wishes to preserve the friendship of Italy, she must recognise this fact and not adopt the clerical policy towards that country. In relation to France, M. Thiers said the country was neither Bonapartist nor Monarchical, but Republican, and this must be recognised by Marshal McMahon.

NEW YORK, Nov. 28.—As a result of the recent conviction of a German saloon keeper, for selling liquor without a license, the saloon keepers applied at the license bureau in such numbers that they formed in a line and waited their turn, and large numbers failed to receive attention. Two hundred licenses were issued, netting $14,000 to the city treasury.

The Outrages at Talequah.

Murphy, while quietly at work on a building, was shot in the breast and died soon after. Thos. Hanckett and Thos. Dilt, who were wounded by pistol shots, will probably recover. They are members of the National Council. The sheriff and his deputy have resigned, and the functions of guard have been suspended, as the murderers were both members of the guard. A sheriff from the Illinois district and a posse of mounted men are patrolling the police. Over one hundred warriors have come in, and others are on the way. The excitement is intense, and more trouble is anticipated.

Horrible Massacre of Whites in Labrador.

NEW YORK, Nov. 28.—A letter received in this city from the French island of St. Pierre Miquelon, off the southern coast of Newfoundland, dated Nov 22, gives the following particulars of a recent wholesale murder of white persons in a Labrador settlement, by a party of Esquimaux Indians. The writer says:—A terrible slaughter of human lives has perpetrated at the settlement of Indian Tickie, Labrador, on the night of the 15th inst., 2 whole families, with the exception of a young girl, being the victims. The names of the families are Wm. Morrison and his two sons, Thomas and Herbert; Robert Morrison and wife, and their sons, William, Charles and James. Their daughter Lizzie was the only one who has survived the catastrophe. It seems that latterly gangs of Esquimaux Indians have been committing robberies at the huts and stores of those who held large stocks of goods, and that after the capture of several of the Indians, they were publicly chastised by whipping. The revenge showed itself on the night of the 15th, when Mr. W. F. Morrison and his two sons were foully murdered in their rooms, their bodies being covered with dirk wounds, though they had been first wounded with bullets. Mrs. R. Morrison's throat was deeply cut in several places, and a bullet pierced her brain. William and Charles Morrison were stabbed in the heart, and also shot, but James the youngest seems to have struggled hard for his life, as his corpse was found on the staircase leading to the door near the corpse of an Esquimaux, whom he had shot. This is the first instance of troublesome conduct among the Esquimaux in Labrador in the memory of the oldest fisherman.

BERKELEY, Sept. 1873.—Gentlemen, I feel it a duty I owe to you to express my gratitude for the great benefit I have derived by taking "Norton's Camomile Pills." I applied to your agent, Mr. Bell, Berkeley, for the above named Pills, for wind in the stomach, from which I suffered excruciating pain for a length of time, having tried nearly every remedy prescribed, but without deriving any benefit at all. After taking two bottles of your valuable pills I was quite restored to my usual state of health. Please give this publicity for the benefit of those who may thus be afflicted.—I am, Sir, yours truly, HENRY ALLPASS.—To the Proprietors of NORTON'S CAMOMILE PILLS. 2935

ALLEN'S LUNG BALSAM.

Is the great modern remedy for Coughs, Colds, Consumption, Asthma, Croup and Bronchitis. It is recommended by Physicians everywhere, who are acquainted with its great usefulness. Dr. A. L. Sewell, of Cincinnati, Ohio, says:—"I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints, I believe it to be a certain cure; and if every family would keep it by them, ready to administer upon the first appearance of disease about the Lungs, there would be very few cases of fatal consumption. It causes the phlegm and matter to rise without irritating those delicate organs, lung, and without producing constipation of the bowels. It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state."

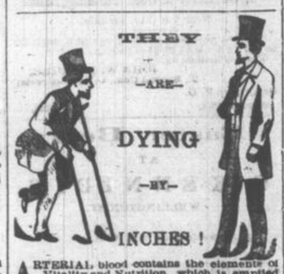
POND'S EXTRACT CURES

Rheumatism, Scalds, Lameness, Neuralgia, Burns, Soreness, Sore Throat, Boils, Wounds, Hoarseness, Ulcers, Bruises, Headache, Piles, Sprains, Toothache, Colic, Old Sores, All Hemorrhages, Diarrhœa, etc.

POND'S EXTRACT



ARTERIAL blood contains the elements of Vitality and Nutrition, which is emptied into the capillary system and, after supplying the required nourishment, is sucked up by the minute branches of the venous system and carried back to the lungs for vital recuperation. By reason of much that is wrong in living and medical treatment, this stream of blood flowing through the body is not always pure or free from inflammatory particles, which may pass off by insensible perspiration through the skin or with the waste matter through the skin or with the waste matter through the intestines, but cold or wet may stop their outward escape, and the internal drainage may become inactive, when the corrupt particles are apt to coagulate, causing pestules, scalp eruptions or running sores, bronchitis &c. They may locate about a nerve, causing neuralgia, and by attaching themselves to the arterial tubes and veins, large or small, and inflaming them by their corrosive influence, cause those intensely painful sensations called Rheumatism. Nature struggles to drench out or dislodge if possible these corrosive particles, and the parts become very red from the congestion or pressure of blood therein. This is called Inflammatory Rheumatism or Rheumatic Gout. If nature does not succeed in washing out these acremonious atoms she withdraws the undue supply of blood from such parts, ceases to contend, and performs circulation as best she can; however, the passage of the blood through the affected channels still continues painful. This is Chronic Rheumatism, which may exist without its usual antecedant the Acute kind.

The above only true theory points out the correct treatment of this and other distressing maladies. Dissolve these corrupt particles that have lodged in the afflicted parts, so that in the circulation they may be carried off externally or internally, and having thus removed the cause the effect ceases.

The experiment of twenty years in the London Hospital, England, has demonstrated to the Medical Faculty of Europe, that the only Medicine having control over this class of diseases is the

DIAMOND RHEUMATIC CURE!

It is the result of a lifetime of scientific study and is now or the first time offered to the Canadian public, prepared by a careful, experienced and conscientious physician, in obedience to the desire of numberless friends in the profession, in the trade and among the people. Every bottle is warranted to contain the full strength of the medicine in its highest state of purity and development, and is superior to any medicine ever compounded for this terrible complaint.

A BLESSING TO THE POLICE.

MONTREAL, 18th June, 1864.

DEVINS & BOLTON:

GENTLEMEN,—Having been one of the many martyrs of rheumatism that I meet on my every day rounds. I was induced to try the celebrated DIAMOND RHEUMATIC CURE. I had suffered the last five or six weeks the most terrible acute pains across my loins and back, so severe indeed that I could hardly walk with the help of a stick. I commenced the diamond Remedy—following the directions carefully. Relief came immediately with the first bottle, improved rapidly with the second, completely cured and freed from pain after finishing my fifth small bottle. You are at perfect liberty either to refer to me privately or publicly, as I feel very thankful for the relief, and sympathize with my fellow sufferers from rheumatism.

Yours respectfully,
J. B. CARDINAL,
Sanitary Police Officer,
51 Labelle street.

In simple cases, sometimes one or two doses suffice. In the more chronic cases it is sure to give way by the use of two or three bottles. By this efficient and simple remedy hundreds of dollars are saved to those who can least afford to throw it away, as surely it is by the purchase of useless prescriptions.

This medicine is for sale at all Druggists throughout Canada. If it happens that your Druggist has not got it in stock, ask him to send for it to

NORTHRUP & LYMAN,
Agents for the Province of Ontario,
Scott Street, Toronto.
Or to DEVINS & BOLTON,
