Invalids! Attention!
Dyspepsia, Derangement of the Digestive Organs, Dropsy, Diseases of the Skin, Affections of the Liver and Urinary Organs are positively cured by using the water for a few weeks.
Rheumatics! Read!
Hundreds of Rheumatics have been cured by the Sulphur Baths. Suffering is alleviated by the first, and cripples throw away their crutches after about half a dozen baths.
TESTIMONIALS.
"Montreal, 28th July, 1876.
"I hereby certify that I entertain a very favorable opinion of the Baths and Waters of the Caledonia Springs in many forms of disease, among which I would especially mention chronic Rheumatism, the stigmata of Gout, Neuralgia, some of the varieties of Cutaneous disease, Dyspepsia, Chlorosis, and in carefully selected cases, some of the diseases of the Kidney and Bladder.
(Signed) GEO. W. CAMPBELL, A.M., M.D.
Dean of the Medical Faculty, McGill College.
Dr. Wm. Robertson, of Montreal, wrote as follows, in 1859:—"But the disease above all in which the action of the water is most decided is Rheumatism. * * * I have known a few individuals who suffered much from improper use of mercury who were restored to health by the use of the waters.
ACCOMMODATIONS.
A magnificent new hotel, capable to accommodating 300 guests, will be opened on June 1st for the accommodation of visitors. The grounds have been improved and beautified, and every means for amusement and exercise provided. The trip thither by the Ottawa River is most enjoyable, and a railroad from the river to the Springs is in course of construction. Until the railroad is built, comfortable carriages will be in waiting at the wharf for the conveyance of visitors to the Springs. The distance of the Springs from Montreal and Ottawa respectively is 65 and 50 miles.
Mr. W. CHAMPENESS will open a good Livery Stable, providing good carriages, horses, saddles, &c. There is a good race-course on the property of the Company.
The PARAMAN WATERS of these Springs will yet make Caledonia the greatest resort in the world for health and pleasure seekers. Thousands of testimonials might be procured, but the reputation of the Springs renders it unnecessary to do so.

NOTICE.
NOTICE IS HEREBY GIVEN that the OTTAWA AGRICULTURAL INSURANCE COMPANY, has obtained from the Minister of Finance, a LICENSE dated 12th August 1875, to transact the business of FIRE INSURANCE in the Dominion of Canada.
JAMES BLACKBURN Secretary.
Head Office, Wellington Street, Ottawa, 13th August, 1875.

Hon. Mr. Huntington, President of the Council and Acting Minister of Public Works, has been detained during the past week at his country residence, Bolton Lodge, through severe indisposition.

A number of petitions have been made against recent elections to the Legislature of Quebec. Among those which will be contested are Hochelaga, Laprairie and Terrebone.

The body of Greenwood, the newspaper reporter, who accompanied Donaldson the aeronaut in his last balloon ascension, has been found on the beach of Lake Michigan. The body was identified by means of papers found upon it. This melancholy circumstance disposes of all theories relating to the possible safety of the unfortunate adventurers.

Sir Edward Watkin, M.P. for Hythe and chairman of the South Eastern, Metropolitan and Manchester, Sheffield and Lincolnshire Railways of England, and late President of the Grand Trunk Railway, who has undertaken to investigate the affairs of the Erie Railway, on behalf of the English share and bondholders, is, with his son, Mr. A. M. Watkin, the guests of Mr. Joseph Hickson, General Manager of the Grand Trunk Railway Company.

It was stated in a paragraph that appeared in yesterday morning's issue of this paper, on the authority of the Montreal *Herald*, that Mr. Cote of the Banque Jacques Cartier was found to have gone to New York. It has since been explained to us, by way of relieving Mr. Cote from a possible and unjust influence, that his going to New York was not to escape the possible consequences of irregularity in his management of the bank, but on the contrary a trip for relaxation with the knowledge and concurrence of all concerned with him in the affairs of the bank. We make this explanation with pleasure.

A Sea of Ice.

PERILOUS VOYAGES AT THIS SEASON ACROSS THE ATLANTIC.

The bark *Kate Crosby*, of Yarmouth, Nova Scotia, which arrived at this port last Monday morning, fifty-nine days from London, passed through an immense fleet of icebergs on her way hither. The bark, a very neatly built vessel of 696 tons, is now lying off Pigeon's wharf, at Hunter's Point. Her commander, Capt. Porter, has followed the sea for a good part of his life and has been on the *Kate Crosby* for the last four years. Never in all his experience, he says, has he passed such large floes of ice. On the morning of July 15, about seven o'clock, when in latitude 49 deg. 28 min. north, and longitude 47 deg. 47 min. west, being about 210 miles east northeast of Bonavista Point, the first iceberg was seen. A thick fog through which they had been sailing for the two previous days had just cleared away, and the thermometer had fallen. As the Captain said, "it was like a cool October day." No rain was falling and the sky was only slightly overcast. Soon the icebergs were reported, and the course of the vessel had to be changed. In a short time, from the deck, a great many more discovered. By nine o'clock twenty-seven icebergs could be counted from the deck, and from the topmast they could be seen covering the sea to the north as far as the eye could reach. Shortly after noon

THE NUMBER HAD REACHED SEVENTY-THREE.

The vessel sailed quite close to some of them.
