The Mark Lane Express on the Corn Trade.

LONDON, Sept. 13.—The *Mark Lane Express*, in its review of the Corn trade for the past week, has the following:—There has been but little change in the Wheat Markets generally, which, with new produce, have only been moderately supplied, the best quality mostly maintaining its previous value, while inferior has tended downward. The general average now is within six pence of last year, though amounts then sold were double those now, but foreign imports with free, the country has been amply supplied at rather lower rates. Flour has recovered a franc in Paris, and fine old Wheat has risen one shilling per quarter. The French markets generally have been calm and unchanged, but in some of the country places there has been a further decline. Belgium and Holland have given way in new qualities about a shilling per quarter. In Germany the tendency from fineness of weather has been downward. The same is true in Hungary for inferior qualities, though the yield is scarcely an average one, but at Odessa holders maintain prices greatly to the detriment of export trade, in confidence that they will eventually be paid for their patience, as the season advances and the general deficiency is known. Still looking at the present yield as only an average one in quantity, and as from this a large deduction must be made for its general lightness in actual amount of flour produced, say on three-fourths of from 5 to 10 per cent. We may possibly count on a further deficiency of 750,000 quarters at a time when our population is mostly on the increase. We have no doubt that the imports will meet our necessities, but we expect as the season terminates it will be a close run.

Withdrawal of Gold.

The London evening *Globe* reports that gold to the amount of £27,000 sterling was withdrawn from the Bank to day.

FRANCE.

A Violent Gale.

PARIS, Sept. 13.—There was a violent gale yesterday in the Mediterranean and around its coast. The Cette Railway station was flooded, and railway traffic interrupted between that town and Beziers. Other parts of France were similarly visited on Saturday. Several of the rivers in South France were swollen to such an extent that they overflowed their banks. The rich plains of Vignobles between Beziers and Narbournes were inundated and the vines covered with water. Many houses were destroyed.

TURKEY.

The Insurrection.

CONSTANTINOPLE, Sept. 13.—Serious fighting occurred on Monday, Tuesday and Wednesday last, in which the Turks were defeated. This has resulted in a renewal of the siege of Treebiegne by the insurgents.

SERVIA.

BELGRADE, Sept. 13.—On account of the threatening concentration of Turkish troops on the frontier, the Servian Government has ordered the mobilization of six frontier brigades, aggregating 24,000 men. Each soldier must be supplied with 100 rounds of ammunition, and special precautions are to be taken during the night.

SPAIN.

A Policy of Peace.

MADRID, Sept. 13.—General Jovellar, the new Premier, has repeatedly stated that Spain's most urgent need is an end of civil war. The question of a new constitution should be left to the Cortes, and the efforts of the Ministry at present will be directed to the pacification of the Kingdom.

SAN FRANCISCO.

Collections.

SAN FRANCISCO, September 13.—Responses to enquiries this morning seem to indicate that while there is a feeling that collections are somewhat harder to day than on collection day two weeks ago. Nevertheless a general sentiment of confidence prevails, and no disaster is apprehended in commercial circles. In grocery and produce and dry goods lines a good state of affairs is reported, and most parties are able to collect largely in preparation for to day. A prominent grain dealer says the prospects are favorable for foreign collections in that business, and no fears are entertained of anyone being pushed to the wall. The same accommodating course pursued on last collection day will undoubtedly prevail today. The Bank of California people report affairs as progressing slowly but surely, with nothing new to remark as to the condition of the Bank.

NEW YORK.

The Temperance Union Vigilance Committee.

NEW YORK, Sept. 15.—The Temperance Union Vigilance Committee yesterday procured further evidence against the rum shops for violating the Sunday excise law.

A despatch to the London *Daily News* contradicts the New York *Herald* despatch of yesterday, that hostilities in Bosnia had broken out afresh and Turkish villages sacked and Turks massacred; on the contrary everything was quiet and so far as known the probabilities are in favour of peace.

Negotiating for the Black Hills.

A special to the *Tribune* from Red Cloud says Spotted Tail has consented to attend the council; Sitting Bull and Crazy Horse refuse to attend under any consideration. They announce their intention of making war this fall. Spotted Tail, in private council with his people yesterday, announced his price as six million dollars for the Black Hills, or an annuity of one hundred dollars a year for grown people, and twenty five dollars for squaws and children. Half of that would stick to white hands, and any such proposition will not be entertained by the commissioners.

Perished.

Eleven perished last night from poisonous gas, in Donnington Wood colliery, Shepshire.

AUBURN.

A Bloody Tragedy

AUBURN, Sept. 13.—A bloody tragedy occurred in the town of Venice, in this County, yesterday, at about 6 a.m. Harrison Andrews, aged about fifty years, went to the chamber of his son, aged nineteen years, and dealt him two murderous blows with a hatchet. The last crushed the skull and it is thought injured the brain. He then aroused his daughters, and shot Mary through the abdomen with a revolver, inflicting a severe, but not necessarily fatal, wound. The two girls escaped from the house and aroused the neighbours. Andrews then poured a quantity of oil on the carpet and set fire to the house afterwards committing suicide by shooting himself through the head. The son is not expected to recover. No motive for the deed is known. Deceased had a violent and ungovernable temper.

Fatal Results of an Explosion.

The boiler of the steam saw mill of Clotham Brothers, in Shaneatel, in Onindaga County, exploded this a.m., killing A. P. Clotham and son, and John Price and son, and fatally injuring a person unknown.

Money Market Excited and Unsettled.

NEW YORK, Sept. 13.—Money easy; sterling quoted at 481 and 484½. Gold opened at 16¼, closed at 16¼. Governments were firm; State bonds steady; Railroad's firm. The Stock Market opened firm, and advanced but on first call, became weak, and prices declined ¼ to 2 p.c. During the last hour of business the market was lower, but in final sales a steadier tone prevailed with a recovery in prices from 1-8 to ½ p. c. During the last hour of business the market was rather agitated by rumours of failures which in some cases gave names, but on inquiry it was found each rumour was wholly untrue. The president of the gold room shortly before the close of business publicly announced that the reported suspension of the house of Williams & Garon, which had been rumoured, was untrue. The most reckless use of names in gold standing was made this evening, and without doubt for the purpose of depressing the speculative shares.

MONTREAL.

Nominated as Reform Candidate—The Cotte Case—Forged Orders—Preliminary Exceptions—Suspended—Embezzlement by a Bank Teller—Bishop Bourget's Pastoral.

MONTREAL, Sept. 13.—The pastoral letter of Bishop Bourget read at the French Church yesterday is the general subject of comment. Some of its clauses are important. The following is all that refers directly to the burial—"It is for us our very dear brethren a necessity as well as a duty to raise our voices to-day to endeavour to appease a certain agitation which has taken hold of the minds, and which in fermenting from day to day, may lead us to some fatal catastrophe. We have not to recall to you the lamentable faith which has caused to you so bitter a grief, for its so well known to each of you and so strongly engraved with all its unhappy circumstances that it will transmit itself without doubt to latest posterity. What we are going to tell you of it is reduced to a very simple explanation, which we hope will suffice to calm your fears and dissipate certain prejudices by which it is sought to excite bad passions and no arm against each other those who have hitherto lived in peace and faithfully fulfilled the duties imposed by their religion and their country; to maintain the public peace and to live tranquilly in the bosom of their families; for that which hath roused you up in such large numbers is the fear that your graveyard, which you justly venerate as a holy place might be profaned by the burial of a man who died in disgrace and under the anathema of the Church. These tidings rightly alarmed the religious feeling of the Catholic population, and therefore was it why one felt himself obliged to a public but peaceable demonstration, to prevent the profanation of the sacred place where repose in peace our religious ancestors, waiting the great day of the resurrection. By this spontaneous demonstration, to which your heart alone has inspired you, you intended to testify to your religious feelings for the holy place which the Church has blessed, because after your decease your bodies will be laid there, beside those of your fathers, to peaceably await the sound of the terrible trumpet which will awaken the human race from the sleep of death to bring forth all men from the dust of the tomb. We had, dear brethren, to examine with care the religious conviction which attaches us to the cemetery as to a holy place. We have had at the same time to admire the calm and moderate conduct which you manifested at a moment when everything induced the fear lest some might come to blows, and lest blood might have been shed, which would have been considered by all parties as a very great calamity. For our part, we would have supremely regretted this calamitious conflict for many reasons which you can, dear brethren, divine and appreciate. Let it be sufficient for us to remark to you that this effusion of blood would have been a fresh profanation of a holy place, although we might have taken measures so far at least as was in our power to avoid this clamity; but if on the one hand we have managed all things so that the public peace was not troubled, we were on the other occupied by means to be taken so that the Honour of the Holy Church might be respected and that the Holy place should not be profaned; this was to declare in virtue of the divine power which we exercise in name of the Pastor of Pastors that the place where the body of this rebellious child of the church would be deposited should be made separate from the rest of the consecrated cemetery; without it would only be a profane place, for we do not need to prove to you that in the solemn fact of our consecration to God, full power was given to us to bind and to loose, to bless and to curse, to consecrate persons, places and temples, and to interdict them, to separate from the body of the church members who dishonour and outrage, to hand over to Satan those who hear not the church, in order that they may henceforth be considered as Pagans and Publicans, so long as they return not to God by sincere penitence. It is upon these incontestible and uncontested principles of this divine authority, that desiring to maintain in all its integrity the discipline of the Church concerning the burial of its children, and to prevent at the same time all disorder for the future, we declare by these presents in order that no one may be able to plead ignorance, that the part of the cemetery where the body of the late Joseph Guibord should be interred, if ever after this it is buried there, in any manner whatever, will *ipso facto* remain interdicted and separated from the rest of the cemetery. Such is, dear brethren, the declaration we have to make in order that you may not have to fear that in the present case your cemetery can lose its benediction, or that the sacred right which the Church has over places which she sanctifies and blesses, can be sacrificed and trodden under foot. It follows from this that there remains no pretext for any person to offer violent opposition to the body of this unfortunate brother being deposited in any part whatever of the cemetery since by the same, that part will become interdict and separated from the holy place. You can therefore dwell in peace our dear brethren, since you will be continued the bliss of having a consecrated cemetery, as in the past. After referring to their satisfaction in still having an unpolluted cemetery, he adds: But in sadly extending your regards towards the tomb of this brother whom death has taken from this world without giving him time to make his peace with the Church which he has so deeply afflicted by his disobedience, you will not fail to deplore his unhappy fate and penetrated with just fear you will form the generous resolution to do nothing which might draw upon you so terrible a punishment. In conclusion, he orders the letter to be read from the pulpits of all the churches of this city and of its environs in which public service is celebrated the first Sunday after its reception. This bending of the Bishop, however unwilling, is greeted with joy by all classes of liberal Catholics and Protestants generally. For the first time a hope is expressed that there will be no blood shed at the funeral, which, it is now believed, will take place next week under the auspices of the sheriff. On the letter being made known, the guard on the vault in the Protestant Cemetery was withdrawn.

Thomas Workman was nominated this morning as Reform candidate for Montreal West, and is considered a strong man.

H. Beaugrand, of the Bien public, has received a call to take charge of a French paper to be published shortly in Boston, Mass, under the title of La Republique.
