Local Intelligence.

ON THE LOOK OUT.—Inspector McVeity will be on the look out for violators of the liquor law at the exhibition grounds. Offenders will need to be careful.

BASE BALL.—The base ball match between Montreal and Ottawa, postponed yesterday on account of the inclemency of the weather, will be played this afternoon.

CORRECTION.—The funeral service of the late Rev. S. Rivet will be sung at 9 a. m. on Wednesday, at the R. C. Cathedral, Sussex street, and not on *Tuesday*, as stated in the *Free Press*.

PATENTS OF INVENTION RAPIDLY PROCURED, and information gratuitously supplied, by Messrs. Gibbs and Coursolle, Victoria Chambers, Wellington Street, opposite the Western Block. 3949b6

NOT CORRECT.—The "Heney" and "Chaudiere" steam fire engines will not as reported compete during the exhibition as the former is away undergoing repairs, having been damaged at the Arnprior fire.

CITY COUNCIL.—Owing to the numerous and responsible duties necessarily devolving upon the gentlemen composing our City Government, during the Exhibition, there was no meeting of the City Council last evening.

ENTERTAINING GUESTS.—His Worship Mayor Featherston entertained the members of the Board of Arts and Agriculture, and other friends, last night, at O'Meara's Hotel. A very agreeable time was spent.

FRUIT.—Those desirous of procuring fruit for preserving or other purposes, will find it to their advantage by calling on J. E Shanley, Bedard's Block, York street; who has just received a large consignment of peaches, Bartlett pears, grapes, apples, &c.

THE GUARDS' BAND.—The officers of the Governor General's Foot Guards express considerable astonishment at the rumored action of the Board of Arts, by which their band will be debarred from competition to-morrow for the prizes offered for Bands of Music, as no intimation of any such intention had been communicated to the commanding officer.

TIMBER LIMITS.—The reader's attention is especially directed to a sale of timber limits announced elsewhere. They are of great extent, 100 square miles, and are covered with the best red and white pine, besides offering other advantages for the manufacture of saw logs. The limits are the property of Mr. A. W. Powell, of this city, and we are sure purchasers will be treated with great consideration. The manufacturer of lumber might see something to his advantage by interviewing either Mr. Powell himself, or Mr. Francis Clemow.

REMEMBER that Baskerville & Brothers, direct importers of general groceries, wines, liquors and provisions, cannot be competed with for low prices. Teas, coffees, sugars, wines, liquors, tobaccos and cigars, the most reliable qualities sold by them. All desiring to get the most value for their money will give them a call. Cheese, crackers, hams, pork, extra large bags salt, and Labrador herrings, sold low for cash. Remember, 36 Rideau street, Sussex street, north of Murray street, Duke street, and their wholesale, George street, second to none. 3948tf

THE WONDER OF THE DAY.—A Moose trotting in a sulky will be exhibited on the Mutchmor Park during Exhibition Week on the 22d and 23d inst., between the hours of 2 and 4 o'clock p.m. After many years trial the proprietor has at last succeeded in capturing, taming and training a beautiful large moose. The capturing and training of moose has been tried by different parties; but no one has ever before succeeded. What will most surprise the spectators will be to see such a wild animal so well trained and so kind. This will be the only chancy to see it as the proprietor has already made arrangements to cross to Europe with the animal, champion of the forest and quarest trot in the world. 394813

NOVEL DOOR LOCKS.—The Provincial Exhibition could scarcely be said to be opened for the inspection of visitors yesterday. The disagreeable state of the weather had a discouraging effect; but the different buildings were being rapidly occupied, and there was, indeed, very much worth seeing in many of the departments. In the main octagonal building there is a stall occupied by "Griffith's Patent Lever Mortise Locks." They are entirely without springs, quite new in design, of excellent workmanship, and do not and cannot go out of order. Highly approved of, recommended and used by architects, contractors, builders, land surveyors, editors, hotel proprietors, bank managers, civil engineers and wholesale merchants, they are indisputably the best and cheapest lock ever invented for banks, public buildings, offices, warehouses, hotels, hall doors, and private dwellings. We repeat, a patent lever movement has been instituted for the old spring action in locks, and the new lock is protected by patents in England, the United States of America, and the Dominion of Canada. One great recommendation is that these locks will wear for years without any attention, and the knobs being secured to, and forming part of the lever, can neither drop off nor become loose. Messrs. Langley, Langley & Burke, architects in Toronto, say that they "are admirable in construction, calculated to bear almost any amount of wear, and especially adapted to public buildings, being also handsome in appearance, and very suitable to private buildings." Mr. Fisher, Manager of the Ontario Bank, Toronto, says: "Your lock works with great ease, and is at the same time perfectly secure." It is almost unnecessary to add that these locks received an extra prize at the Provincial Exhibition in 1874.

Provincial Exhibition.

THIRTIETH ANNUAL FAIR.

THE OPENING DAY.

Arrival of the Products.

Yesterday witnessed the opening day of the great Provincial Exposition of the Province of Ontario, and contrary to general expectations the day was wet and disagreeable and anything but favourable to the reception and arrangement of the products and other articles that were pouring into the great Fair. The disagreeable weather, however, did not in any way thwart the exertions of the many hundred exhibitors, who worked with the industry of bees to bring order out of the chaotic mass of stuff that lay scattered around the Crystal Palace, or in the Exhibition Grounds. As the day wore on the result of untiring energy soon manifested itself in the varied and well assorted collection of different articles brought to the ground, being placed in position, but not all of them, as it will take almost the whole of to-day yet, before the Judges can get to work. The machinery, which excels in number and variety that of any previous Exhibition, kept coming in all day, and was being put in the place allotted for it as fast as men could get it there. Mr. Bartley has his monster engine ready, and is waiting patiently to supply the motive power which is to propel the vast array of machinery which will soon be in position. The whole is expected to be ready by noon to-day, when it will be set in motion. The engine has a driving capacity of 50 horse power, and in addition to putting the ordinary machinery in motion it will feed the Blake force pump, which is designed to do duty as a protection against fire on the premises. Although a day almost exclusively for exhibitors, yet thousands visited the grounds and watched with intense interest the work that engrossed the attention of exhibitors and the officers of the Association Mr. A. McNab, President, Mr. Ira Morgan, Vice President, Mr. Hugh Thomson, Secretary, and Mr. Henry Anderson, Superintendent, were indefatigable in their endeavours to have things arranged and put in order for the judges. A strong detachment of police and special constables under the direction of ex Sergeant McVeity patrolled the grounds and Bank and Elgin streets, a fact which gives assurance for an ample protection from any breaches of the peace that may ensue. Exhibitors hail from the far west and from the Eastern provinces as well as from the United States. The refreshment booths are all filled with good things for supplying the wants of the inner man, and were to some extent liberally patronized. Without the grounds and all along down Bank street are an endless number of booths for vending drinks and eatables to the crowds that line this thoroughfare. Elgin street has also a number of similar booths, but nothing like the same number. The "Methodist Church Board and Lodging House" did not receive so much encouragement as might have been expected, owing to the bleak, dirty weather, which made the grounds and the roads approaching to them uncomfortable. The object of this Luncheon House, purchased chiefly through the instrumentality of Mr. Peter LeSueur was to raise additional funds in aid of the new Wesleyan church now in course of construction on Metcalfe street. Mr LeSueur was present himself doing duty, apparently, as Treasurer. It is certainly to be hoped that this effort to obtain money for the church will be successful. Notable amongst the visitors on the grounds yesterday were the Hon. Mr. Letellier, Minister of Agriculture; Hon. R. W. Scott, Secretary of State; Hon. David Christie, Speaker of the Senate; Hon. James Skead, Mr. J C Rykert, ex-M. P. P., Dr. Burnett, of Hamilton, and other prominent members of the Board of Arts. There was great rejoicing amongst carters and the general public at the removal of the tolls form the leading thoroughfares, as thereby a most grievous nuisance was averted.

MEETING OF BOARD OF ARTS.

A meeting of the members of the Board of Arts and Local Exhibition Committee took place in the Council Hall, in rear of the Secretary's office, at 10 o'clock a. m. yesterday. Amongst those present were, Messrs. A. McNab, President; Ira Morgan, Vice President; Hugh C. Thompson, Secretary; Senator Christie, Dr. Burnett, Hamilton; Andrew Wilson, Maitland; E. L. Shipley, London; Chas. Rykert, St. Catherines; Geo. Graham, Treasurer, Sheriff Gibbons Goderich; I.B Alysworth, Newburgh; His Worship, the Mayor, Hon. James Skead, A. S. Woodburn and other members of the Local Committee.

MAYOR FEATHERSTON with a few appropriate remarks, handed over the buildings to the Association, which were accepted in a formal way by the President.

Senator CHRISTIE and other gentlemen spoke in the most flattering terms in regard to both the site of the exhibition grounds and general appearance of the buildings.

A vote of thanks was accorded the Mayor and Corporation and citizens of Ottawa generally for the great efforts put forth in the interest of the present Exhibition.

The offer of the Governor General's Foot Guards Band to play at the Inaugural of the Fair, this afternoon, for the sum of $60, was accepted, provided they would withdraw from the band competition on Wednesday.

Mr Ira Morgan, Vice President, and Treasurer Graham were named a committee, to distribute badges and tickets to those entitled to receive them.

The Secretary read a number of replies from prominent men in both the Dominion and the United States, to invitations extended them to visit the Exhibition, expressing regret at not being able to attend.

The Lieutenant Governors of Ontario and Quebec wrote to the effect that they would be present at the Exhibition.

The meeting then adjourned, in order to allow the various Committees to get to work.

LIVE STOCK.

Horses.—In this department there is a lively competition, a large number of entries having been made. There are 22 entries of blood horses, amongst which are some of the finest animals that perhaps ever graced the turf or took part in the hunt. Among the competitors we find the names of Messrs. A. F. Coleman, of this city, and Mr. Andrew Wilson, of Bearbrook, Russell. There are 87 entries for Roadster horses, many of which have not yet arrived. Amongst those to be seen yesterday were some very fine animals indeed. For carriage horses there are 63 entries, which is a very large number. In this class a number of competitors from this section are entered. Among them are Messrs. John Clark, Nepean; S Tucker & Son, Clarence; T. H. Murcott, Arnprior; Thos Scott, Dunsanville; Andrew Wilson, Bearbrook; Thos. Good, Nepean; Robert Brownlee, North Gower; Robert Lee, Gloucester; Patrick Buckley and Allan Gilmour, Ottawa; Wm. Rodden, Plantagenet; Sandford Fleming, Hon. Jas Skead, Alonzo Titus, S. Daniels, Ottawa; D. H. Williams, Billings Bridge. In agricultural horses there are 103 entries, and in this class most of the gentlemen above named are also competing, as well as others whose names we could not learn There are 109 entries in the heavy draught horses. The show of Clydesdales is large, and for the most part splendid animals are exhibited. Mr. John Clark, Nepean, has his celebrated horse, A 1, *King of the West* again on exhibition and he was greatly admired. There are some splendid heavy draught horses from Western Ontario. Mr. Wm. Eadie, Russell, exhibits his celebrated imported horse *Campsie Jock* for the first time at a Provincial Fair. Among those exhibiting younger animals, are the following from this district: Messrs M. Craig, North Gower; Nicholas Clark, Gloucester; Michael Rock, Nepean; Wm. Hurdman, John Paget, Wm. Fenton, Gloucester; Thos. Clark, Nepean; T. M. Clark, Ottawa and A. McKellar, Nepean. On the whole the exhibition of horses is good and said to be better than that of previous exhibitions.

Cattle.—There is an apparent falling off in the number of entries of cattle this year, but of those entered there is a good show. The greatest number of entries is in the Durham or Short Horn class. This section of country contributes largely to this department Thos. Clark, Nepean, exhibits *Fawsley's Dipthong*, a splendid four year old Durham bull. J. & W. Thomson, Nepean, show *Royal Prince*, another fine animal of the same age. Messrs. S. Tucker & Son, Clarence, exhibit a fine three year old Durham bull. The Hon. James Skead exhibits his celebrated Durham cow *Marigold*. He has also entered a one year old and two year old Durham bull, and a six year old Galloway bull The Hamilton Bros. have brought a herd of Devons from their Gatineau farm, comprising a bull, three cows and two heifers. Mr. George W. Eaton, of Nepean, exhibits a fine herd of Ayrshires, nine in number. One of the lot is the three year old bull *Ottawa Chief*, which Mr. Eaton purchased from Mr. Rodden, of Montreal. This animal took a prize at the last Provincial Exhibition, and has taken several prizes at other shows. A seven month's calf was also an object of much interest to visitors. Mr. Wm. Rodden, of Montreal, exhibits two herds of Ayrshires, a young herd and an aged herd. Several of these animals have taken first prizes at previous shows. Some of them were imported from Ayrshire and the *Jersey Islands*, and the remainder were bred at Mr. Rodden's farm, Plantagenet Springs.

Sheep.—The pens in this department are pretty well filled up, but there are a great many more said to be on the road yet. The contributors are to a great extent from the West, the largest number being from Guelph, Brampton and Markham. Messrs. John Dawson, Nepean; and Albert Hagar, M.P., Plantagent, exhibit some fine Cotswolds. A few from this section have also entered into competition in the Leicester class. Beyond these, however, local entries are very limited. A better opportunity will be afforded to-day of speaking of the merits of the sheep.

Pigs.—There is a large number of entries in this department, and consist principally of "small breeds," "Berkshire," "Suffolks," "Essex" and "large breeds." They are pronounced by those who are competent to judge, to be a fine collection. As in the last there are a great number yet to come. Messrs. Nicholas Clark and Joseph Baskeville, Gloucester; Satchell Bros., Ottawa; G. W. Eaton, Nepean; and others contributed largely from this section in "Berkshires." The Satchell Bros. and Robert Johnston, Gloucester, also furnished a few of the different other breeds.

Poultry.—The poultry shed is situated at the extreme north end of the grounds, and as yet the coops are poorly filled. The intending competitors were, however, pouring in during the afternoon, and by noon to-day there will be a good display of the feathered tribe. Of those that were on exhibition the specimens were good, and it was pleasing to know that many of the contributors were from the Valley of the Ottawa We shall be able in another issue to do more justice to this Department.

AGRICULTURAL IMPLEMENTS.

It is quite impossible, at present, to notice satisfactorily the different agricultural implements and the machines on exhibition. There was nothing complete. Workmen were everywhere busily engaged placing and arranging goods, fixing on the wheels of the various carriages in the carriage department, and there was, in a word, more confusion than order everywhere. There were grain and seed drills, seed sowers, mowing and reaping machines, self-binding reapers, threshing machines, separators, smut machines, cultivators in iron and wood, steam ploughs, portable steam engines, ploughs of various descriptions, horse hoes, clod brushers, land presses, harrows of iron and wood, rollers, sulky horse rakes, pea harvesters, potato diggers, root cutting machines, carts, sleighs, brick making and flax pulling machines, grain tiles, shovels, grain scoops, cheese presses, churns and chopping axes, all of which will be fully noticed and their merits commented upon hereafter.

It may not be unworthy of remark that the room for carriages and sleighs, is in sufficient and that an addition to that part of the building, is absolutely necessary. Some of the carriages are very handsome.

HORTICULTURAL DEPARTMENT.

The Horticultural department promises well. The roots were excellent and there were some fine specimens of the tomato. A fountain played in the centre of the tables over which the decorator, Mr. T. Lambkin, had placed, with much taste, festoons of flowers. The room, however, was not by any means filled up. One long table was wholly unoccupied, and another table only contained some fine cauliflowers, blue egg plants, and pumpkins. All this will be remedied before the grand opening day and it is to be hoped, as is fully believed, the Exhibition in all respects will be a complete success.

THE INTERIOR OF THE PRINCIPAL BUILDING.

Yesterday the inside of the main building presented a most chaotic appearance; articles for exhibition kept arriving every moment, carpenters were at work, spectators were bustling to and fro, and to a considerable extent interfering with the operations of both workmen and exhibitors. A considerable quantity of stuff was sent in, but the task of getting it into position was no easy one. The ladies appeared to be the most assiduous in placing articles of fancy work on view, and that department appeared to be the most advanced of all. Some excellent specimens of needle work were shown, and Miss Hislop, of Toronto, superintended the arrangement of the display. One thing noticeable in this section was some handsome wax flowers, made by Mrs. James Hickey; another fine specimen of the artificial florist's art was shown by Mrs. Duncan, and the taste displayed by both ladies is most creditable. In the fine art's department nothing had been done toward hanging the pictures, and Mr. Laird, of Toronto, with his Manager, Mr. Jackman, who have charge of that particular portion of the Exhibition were in despair over the non-arrival of about half a dozen cases of valuable paintings and engravings, which by some unaccountable means or other have been delayed on the road from the West. However, Mr. Cresswell's handsome water colour and oil paintings are ready for hanging, and some of Mr. Forbes' arrived just as the gates of the grounds were closing. Mr. Verner, also of Toronto, has some well executed portraits, but it was next to impossible to judge of their merits, inasmuch as they were mingled with landscapes and figure drawings. To-day will give a better opportunity for visitors to obtain such a view of the productions of the various artists, as will enable them to form a pretty good idea as to their attainments in the limners art. Musical instruments appeared to be scarce, but probably to-day will see a large increase in their number. Saddlery, harness and all kinds of horse equipments, began to come in rapidly about half past five o'clock, and the portion of the building set apart for that, was about the best filled up of the whole structure. The hardware department was pretty well supplied and some extremely handsome stoves and bedsteads were shown by Mr. H. Meadows, of Sussex street. Nothing, however, was completely settled into its proper place, but by noon to-day something like a system will be arranged. By the way, a suggestion was made by a well known judge of art, that the picture gallery has been located in the worst possible position, inasmuch as all the paintings will have a side light instead of one from the roof—a skylight over one of the wings would have answered the purpose most admirably. Some most elaborately got up coffins attracted a great deal of attention; some were covered with blue velvet, with silver handles and plates; others were of iron, lined in the most luxurious manner, white satin, down pillows, and all the various furnishings which tend to rob King Death of his terrors, that is, so far as the dismal trappings are concerned. There are some very fine specimens of the house painters and cabinet maker's trade, of which further mention will be made so soon as the whole of the specimens are placed on exhibition. Some painted doors from the establishment of Mr. J. Kimber, of Montreal, were greatly admired, as was also some very tastefully executed specimens of sign writing and panelling. Mr. W. G. Rawbone, of Toronto, exhibits a most ingenious little implement for creasing and charging cartridges; and also some handsome and well finished rifles and fowling pieces. There was, at six o'clock, a cheering prospect of order ruling to-day, and the various departments being ready for the inspection of the public.

OTTAWA TEACHER'S ASSOCIATION.

The regular meeting of the Ottawa Teacher's Association was held in Central School East on Saturday, the 11th inst. The chair was taken at 2:30 p.m., by the President, Mr. Archibald Lee.

The order of business for the day was the election of officers, and the following members were elected:—

President, Mr. Archibald Smirl; 1st. Vice President, Mr. J. W. McDowall; 2nd Vice President, Miss Stenoy; Secretary, Miss J McMaster; Assistant Secretary, Miss A. M. Living; Treasurer, Mr D. Robertson; Librarian, Mr. E. D. Parlow; Editor School Master's Journal, Mr. A. Lee; Directors, Messrs. J. McMillan, W. A. Duncan, J. Martin, and Misses L. Bothwell and W. E. Butterworth.

Mr. McMillan gave notice that he would introduce as a subject for discussion at the next meeting, the question of admitting reporters to the meetings of the Council of Public Instruction.

After passing some accounts the Association was adjourned.

FRUIT GROWERS' MEETING.—The regular annual meeting of the Fruit Growers' Association, of Ontario, takes place this evening in the Court House, at 7 o'clock, p.m.

PLYING ON THE CANAL.—The following steamers ran between the Canal Basin and the Show Grounds yesterday:—*Louise, Como, Mac, Marquis of Lorne*, and *City of Kingston*. They seemed to all do a thriving trade, particularly in the afternoon.

THE STABBING CASE.—The man Duggan who was stabbed on York street, one night last week, in a souffle, is said to be out of danger, and that his recovery is no longer a matter of doubt. It is thought he will be able by the end of the week to appear in the Police Court to give evidence touching the recent row on Clarence street.

ON TRIAL.—On Saturday afternoon last the lads Conce, Bochon and LaSalle, were summarily tried before Judge Ross. Conce was found guilty on two counts, and discharged on a third; Bochon was found guilty of stealing a harmonium, and LaSalle of stealing a coat from Francis Rouleau. Sentence in the case of each was deferred until to-day.

DR. PIERCE'S Pleasant Purgative Pellets are so compounded from concentrated principles, extracted from roots and herbs, as to combine in each small granule, *scarcely larger than a mustard seed*, as much cathartic power as is contained in any larger pills for sale in drug stores. They are not only pleasant to take, but their operation is easy—unattended with any griping pain. They operate without producing any constitutional disturbance. Unlike other cathartics, they do not render the bowels costive after operation, but, on the contrary, they establish a permanently healthy action. *Being entirely vegetable*, no particular care is required while using them. $500 Reward is offered by the proprietor to any one who will detect in these Pellets any calomel or other form of mercury, mineral poison, or injurious drug. They are sold by druggists.

NOTICE

Morson's Effectual Remedies

Are sold by Chemists and Druggists throughout the world.

PEPSINE—The popular and professional medicine for indigestion is Morson's Pepsine, the active principle of the gastric juice. Sold in Powder, Lozenges, Globules; and in Wine in ½ and 1 pint bottles.

CHLORODYNE is of such celebrity that it can scarcely be considered a specialty, its composition being known to practitioners. Many of the Chlorodyne being unequal in strength, Morson & Son have prepared this. Sold in 1 oz., ½ oz., and 5 oz. bottles.

GELATINE—The purest preparation is Morson's.

Carefully packed and shipped. Orders made payable in England.

Borthwick Springs.

A limited number of boarders can be accommodated at the Borthwick Springs. Invalids wishing to avail themselves of the benefits to be derived from the use of the best Mineral Water on the Continent, and parties wishing to spend a few weeks in the country should visit these springs.

Comfortable quarters at moderate charges, fitted with all necessary requirements for

SHOWER AND OTHER BATHS.

Pure country air and freedom from excitement give the patient the benefit of hygienic results impossible to be obtained elsewhere. The attention of the reader is particularly directed to the fact that this Mineral water loses none of its virtues by keeping or transportation, and that when freely taken by those in good health, health continues. By invalids who cannot visit the Springs the water can be as well used in their own houses, whilst its low cost places it within the reach of all.

Delivered to all parts of the city in 8 gallon jars, at 10 cts per gallon, in 50 gallon barrels at $2.50 each, barrels extra. For conveyance to the Springs and other information, apply to

Burnett's Extracts

The superiority of these Extracts consists in their perfect purity and great strength. They are warranted free from the poisonous oils and acids which enter into the composition of many of the factitious fruit flavors now in the market. They are not only true to their names, but are prepared from fruits of the best quality, and are so highly concentrated that a comparatively small quantity only need be used.
