THE PRESBYTERIAN CHURCH OF CANADA.

On Friday, the 18th June, the discussion on the question of the union of churches was brought to a close by the adoption (by a vote of 116) of the following resolution, moved by Rev. Mr. Frazer:—

"The Synod approve of the articles drawn up by the Joint Committee of the two Churches, as embodying the views, on the important questions therein treated of, which this Church has always been anxious to uphold.

Further, the Synod, although embarrassed by the circumstance that the U. P. Synod have *not*, in their resolutions lately laid upon the table, expressed any opinion regarding the said articles; yet, being assured that they regard the action of the Joint Committees as having served a most important purpose, in preparing the way for the formation of a basis of Union, and that they desire the re-appointment of the Committee of this Church to co-operate with theirs in forming said basis, now re-appoint the Committee for that purpose, instructing them to take heed that the basis of union be in harmony with the principles set forth in the articles already framed by the Joint Committees, and now approved by this Synod; and also to give it frankly to be understood that this Church cannot, in consistency with its views of truth and duty, treat with unfettered forbearance all varieties of opinion on the relations of the Magistrate or of Civil Government to revealed Religion. But, finally, instruct the Committee to assure the Committee of the U. P. Synod, that this Church is not only willing, but sincerely desirous, to form, without any needless delay, a union with them on a basis, which, allowing forbearance on minor relations or applications of the question, shall distinctly assert the Headship of the Lord Jesus over the nations of the earth, and the duty of the Civil Magistrate to acknowledge and obey the revelation of God's authority in His inspired Word."—*Globe.*

FEARFUL TORNADO IN NEW YORK.—A fearful tornado visited our city yesterday afternoon, and though its duration was but half an hour its effects were visible in every quarter to an extent never before known after a storm of such short duration. The streets were completely inundated, and for a while the fierce wind made sad havoc with all moveable objects, starting trees, roofs, chimneys, signs, waggons, and objects of less note, whirling them like feathers about the streets. Among the more serious accidents in the city were the partial destruction of a church in Fifty-fourth street; the demolishing of the chimney of the Methodist Book Concern by which the roof of a neighboring house was broken in, and a woman badly injured; the unroofing of a dyeing establishment in Eighteenth-street, by which two men were seriously injured, and a horse killed; the unroofing of the stables of the Seventh avenue omnibus line, injuring one man, and the hostler of the stable being struck by lightning. Fortunately, so far as we can learn, there was no loss of life in the city, though the injuries of some of the wounded may possibly prove fatal. The damage to property, however, is excessive, and indeed more so than would seem credible from the limited time during which the storm continued. At Hunt's Point, Long Island, just above Greenpoint, the tornado was more disastrous. One wing of the large establishment of the American Flint Glass works was blown down, killing two of the employees instantly—the one an engineer and the other a foreman—and seriously injuring seven others. The total loss of property by this disaster is $80,000. We give elsewhere a very full detailed account of all these and other accidents, showing the progress of the tornado at Brooklyn, Jersey City, Gowanus, Flatbush, and elsewhere.—*New York Herald, June 22nd.*

DISCOVERY OF THE BODY OF MR. ROBARTS.—An inquest was held at Hopkins tavern, Front street, before Dr. Scott, Coroner, at half-past two o'clock on Monday afternoon, on the body of the late Henry Robarts, aged about 17 years (son of J. P. Robarts, Esq.) who was drowned on the 21st of May last, whilst sailing on the Bay in company with a son of the late Hon. Henry Sherwood, in a pleasure skiff. The body was very much decomposed, but was identified by the clothes, and a ring which had been presented to deceased a short time previous to his death by Mrs. Thomas Burgess, who seemed very much affected. A sailor, named Nicholas Graham, discovered the body at about half-past eleven P. M., yesterday, floating about half a mile out in the Bay, between this City and the Island, opposite Borst's Wharf. A reward of £10 was offered by Mr. Robarts, for the recovery of the body of his son, at the time of the death. A highly respectable jury, John McGann, Esq., foreman, after being duly sworn, retired to view the body of deceased, and after returning to their rooms, and hearing the evidence handed the Coroner a verdict of "Found Drowned."—*Leader.*

A dispatch from Memphis says, as far as ascertained, eighty-five cabin passengers and one hundred and twenty deck passengers have been saved from the burning of the steamer Pennsylvania, on the evening of Sunday week. This would leave the number of lost at fifteen cabin and eighty deck passengers, or a total of ninety-five.

The British loss in storming Lucknow was 70 officers and 1,100 men, killed and wounded—that of the Sepoys is computed to have exceeded 4,000 killed. The Sepoys can more easily lose ten thousand men than the British one thousand. The war is not yet ended.

The farmers of Tama county, Iowa, held a meeting recently, resolving that all difficulties shall be settled among themselves, by arbitration, and to nominate no man for office unless he is a laboring man. Office-seekers will please make a note of it.

EMIGRATION TO VANCOUVER'S ISLAND.—A number of gentlemen interested in the colonisation of Vancouver's Island met on Friday at the Rossin House. A committee was appointed, consisting of Mr. Ruttan of Cobourg, Mr. Dennis, and several other gentlemen, who were instructed to open a subscription list with the view of raising funds to defray the expenses of an exploring party from this country, in order to ascertain and report upon the adaptability of Vancouver's Island as a field for Canadian emigration. A gentleman present stated he had learned from a reliable source that the British Government propose shortly to annul the jurisdiction of the Hudson's Bay Company over a part of the main land adjacent to Vancouver's Island, embracing the newly discovered gold fields on Fraser's and Thompson's River, and annex it to that colony. In order to further the colonization movement another meeting is to be held at the Rossin House during the course of the present week.

GOLD IN KANSAS.—The Lecompton correspondent of the N. Y. *Tribune* writes under date May 31st:—"The gold fever is still pretty general, and parties are still starting out in quest of the Kansas placers. They fit up here in parties of four or five to a horse team, with provisions for six months and mining implements. The out fitting expense per man is from $100 to $150. Various descriptions are given of the gold regions by parties who have been there during the winter or last fall. Some describe it as "lying in the valleys like wheat." Others, that it is in the quartz also, to be obtained by washing. Some Delaware Indians who were there last fall brought back specimens. Mr. Conant, a merchant here, gave one of these Indians a half-dollar for a small piece imbedded in a portion of quartz rock. He sent it off and obtained $2 50 for it. A great many other account are given of the abundance of the gold. There can be little question but the discovery brings to light the fact that are valuable gold diggings in Kansas on the eastern slopes of the Rocky Mountains. The explorations of gold in that direction this summer will bring to light all the advantages of that comparatively unknown portion of our country.

A GOOD EXAMPLE FOR PUBLIC MEN.—Sir Benjamin Hall, the late Chief Commissioner of Her Majesty's Works during the two years he was in office appointed fifty seven men who had served in the late wars to places as park keepers, park, constables, and other somewhat similar offices, admitting those only who could produce with their discharge the most unexceptional reference from their commanding officers; and these fifty-seven gallant fellows wear upon their breasts forty nine Crimean medals, six Indian medals, one Kaffir war medal, one China medal, one Baltic medal, four medals for distinguished services on the field, nine good conduct medals one French good conduct and long service medal, one French war medal, and one Sardinian medal. They have also 139 clasp declaratory of the actions in which they have been engaged; three of them wear the Legion of Honour, and three others have that most noble of all distinctions, the Victoria Cross, making a total of 129 marks of honour possessed by these fifty-seven men. Of those who had won the Victoria Cross, one has the China medals, the French war medal, and the Crimean medal, with three clasps, and he now occupies a new lodge at Holyrood Palace. Another has the Ghuznee medal, and Crimean medal with three clasps, and he lives at the new lodge at the Marble Arch. The third has the Crimean medal with two clasps, and is Chevalier of the Legion of Honour; he also occupies a lodge which has recently been built in the long walk of Regent's Park.

FINALE OF THE NEW ORLEANS FARCE.—Of all recorded failures it would be hard to find one more total and complete than that of the New Orleans Vigilance Committee. One great occasion for organizing it was said to be the number of unpunished homicides committed in New Orleans. The occupation by the Vigilants of the Arsenal resulted in eleven inquests held within their entrenchments upon persons of their own party, slain by the Vigilants themselves, several of them belonging to a scouting party sent out from the camp, and who, on their return, were fired upon with muskets and grape-shot, on the supposition that they were assailants. Besides the killed, a large number were wounded. Another complaint was the inefficient administration of justice, to remedy which the Vigilants took possession of the Sixth District Court, refused to deliver the records to the officers for safe keeping, used them apparently for lighting their cigars, and at their dispersion left them in a mutilated condition. The only additional proof they have furnished of their disposition and capacity to put things in order, is the shocking filthy condition in which they left the public offices on which they had seized. This, together with breaking up the pavements and the interruption of the business of the city for two or three days, makes the sum of all which they accomplished. The whole thing was appropriately wound up, so soon as as the result of the election was known, by a stealthy midnight flight, leaving their cannon still pointed down the thoroughfares, and loaded arms scattered about in every direction. The only indemnity yet forth-coming for all the damage done is the sixty bales of cotton employed for barricades, and upon which the Clerk of Sixth District Court has levied an attachment with the view of holding it to answer the damages done to public and private property. It is to be hoped, however, that all the active leaders in this operation will be held to a strict pecuniary and criminal responsibility. While we send armies to Utah to punish the treason and rebellion of the Mormons, we trust that an insurrectionary attempt to seize by force and terror the government of one of our principal cities will not pass without both inquiry and punishment.—*N. Y. Tribune, June 27.*

SIR BULWER LYTTON.—The representation of Hertfordshire is not, after all, to be contested this time; and the newly appointed Secretary for the Colonies is to be re-elected, we are told, without question or trouble. Sir Bulwer Lytton's turn of political fortune has been, perhaps, in the opinion of his friends, slow in coming, but apparently it has set in at last with the sudden flush of midsummer.—*Daily News.*

TORONTO MARKETS.

Sheepskins 6s 3d wool skins.
Hides $5 per cwt.
Cord Wood 15s a 17 7d per load, 22s 6d per cord.—*Leader.*

Special Notices.

GRAVEL AND STONE.

By this we understand a collection of sand-like substance having been lodged in the passage of the urine. When the system is in a healthy state this substance is carried off by the natural passage of the body; but when there is a weakness of the organ, especially the kidneys, urethra, or the bladder, causing great inflammation to these organs, and great pains and swelling, and great difficulty in voiding urine. It has been admitted by many physicians, that Morse's Indian Root Pills are made out of some particular plants which have a wonderful charming influence in dissolving the substance which has clogged the passage, and by their cooling properties, they expel all inflammation, and leave the water passage in an active and healthy state. From three to four of these Pills night and morning, from one to two weeks, will decide how this dreadful disease is to be treated, and as they remove the cause of every kind of disease, it is utterly impossible for them to fail in curing the gravel, as they unclog the passage, and leave the parts in a healthy and lively condition.

Dr. Morse's Indian Root Pills are sold by all dealers in Medicines.

THE Mind and the Body have that close connection, that it has been aptly said, that when one is diseased the other is delicate. Equally true is it, that when any of the digestory and digestive organs are diseased, even the most incipient form, we find the mind distracted and perturbed, and the bowels are then clogged with unhealthy secretions. The only safe remedy for this mental and bodily condition is or the patient to take a regular dose alternately of the Lite Pills and Phœnix Bitters. Sold by W. B. MOFFAT, 335 Broadway, N.Y., and his Agents.

DARLING & AITCHISON'S
FIRST PREMIUM
CANADIAN MOWERS AND REAPERS
WE would call the attention of farmers to our Combined REAPER, and MOWERS which we are manufacturing for the coming harvest. We now offer it as one of the most perfect Machines now in use; it is substantially built of wrought iron, without weight on the horses necks, *and entirely free from side draught*; cuts with equal ease in Grass, Wheat Oats and Barley, and about coggings and can be raised to any convenient height, by a screw in front, without any change of knife or gearing. We were awarded the first Prize and also a Diploma at the trial of Machines, held at Brantford, at the Provincial Exhibition. We would solicit Farmers to call and examine our Combined Machines, as it may be said with safety, that they have two perfect Machines in one.

☞ LOOK AT THIS! ☜
ALMOST EVERYBODY is ordering the *PLOUGH, LOOM* and *ANVIL.* That they must be as wise, and possess themselves of what we are bound—at any cost to ourselves—to make the Leading Industrial Journal of the time:—the best for the Farmer, the Mechanic, and the Family Circle—we make the following unprecedented liberal offer:—
Our Eleventh Volume will commence with January, 1858—will run to January, 1859—and contain 768 large octavo pages, on fine paper, with new type. It will be issued within the first week of each month, in numbers of 64 pages each, done up in the best magazine style.
To all who will forward the money for this volume, as single subscribers or in clubs, we will send gratuitously, the numbers of the current volume, from the time of their forwarding, and one month previous, thus giving in two, three, or four numbers, according to the time, to all who subscribe before January.
TERMS:—$2 a year, in advance; $1 50 to clubs of four and upwards; $1 for six months. Advertising, ten cents a line. For giving publicity to improved stock, agricultural implements, mechanical improvements, and like matters of general interest, there is no other medium good at the price.
Liberal terms to persons disposed to act as agents for this work. Let us hear from us
J. A. NASH,
M. P. PARISH,
7 Beekman Street.
New York, October 22, 1857.

NOTICE.
VALUABLE PROPERTY
IN THE
Flourishing Village
OF
BUTTONVILLE,
IN THE
Township of MARKHAM,
☞ FOR SALE. ☜
CONSISTING of Three Village Lots, with suitable Buildings, with a fourth part of an acre of Land attached to each. One is a small Cottage suitable for a small family. The second is a New House, adapted for a Mechanic of any kind or Doctor, (as there is no Doctor in the neighbourhood). The third is a Large House, with all the accomodations for a Tavern, with a never failing Well of Water. Also, good, suitable out-buildings, consisting of driving-house, large shed, wood-shed, granary and stable, together with some choice Fruit Trees, comprising plums, pears, currants, and the black tartarian cherry.
BUTTONVILLE is situated on a pleasant rise of ground, on the 4th Concession of Markham. There is an established Post-Office together with a Grist and Saw Mill, Store, with Mechanics of different kinds.
Terms easy, apply to the Proprietor on the premises, or by Letter, post-paid to Buttonville. Possession will be given on the 1st of April, or if needed, the 1st of January.
☞ Title indisputable. ☜
WILLIAM MORRISON
Buttonville, Oct. 28, 1857. g22-tf

APOTHECARIES' HALL
KING STREET, Toronto, 2nd door east of Church Street, opposite the Cathedral. W. T. ATKINSON & Co., Late of King street West, now offer at their new establishment,
Genuine English Drugs, Patent Medicines, French and English Perfumery, Oils, Paints, Colours, Dye-Woods, Combs Brushes &c.,
At such moderate prices as cannot fail to secure custom.
W. T. A. & Co. having considerable experience in the Drug business in various parts of England, have no hesitation in saying, that a great many of their Manufactured Articles will be found very superior. Medicines used in compounding Prescriptions, Family Receipts, Horse and Cattle Medecines, &c., are of the very best quality, direct from the principal English Drug Houses. W. T. A & Co. beg to call attention to their Celebrated Preparation for the Teeth,
Atkinson's Parisian Tooth Paste.
Also their much admired Perfume
THE ENGLISH NOSEGAY.
Soda Water bottled and from the fountain; St. Catherines Mineral Water, and the Plantagenet Water, celebrated for their healthy properties.
April 22, 1858. t46 3
