The reeve of Euphrasia was recently approached with a request that Euphrasia council do something toward improving the north end of the valley road, now that Artemesia is expending so much on their portion. This individual, however, said it would not be done because they did not want the people of Euphrasia to go to Flesherton; they wanted them to go to Markdale to do business. If this is correctly reported to us we would like to ask the people of Euphrasia what they themselves think of such a narrow, contracted policy? Are they to be forced to buy and sell where this little Juggernaut says they must, or are they to have their markets extended as much as possible? We fancy the farmers of Euphrasia are a little more far-seeing than certain peanut politicians would give them credit for, and they should do a little towards asserting their rights in gaining access to competing markets. Flesherton is coming to the fore in this respect and farmers to the north should reap the advantage. Possibly a petition would do what individual request would not.

Robert Brown of Garafraxa prodded his horse with a pitchfork. The horse kicked and drove the fork handle into Brown's side, letting his wind out. It was thought that he would die, but is now recovering. That horse ought to have an extra dose of oats. Any man who would stick a fork into a horse to make him go deserves to have a few air holes in his anatomy to let his cruelty and folly out.

This country has great reason to be thankful for the bountiful crop which is now being reaped. From the Rocky mountains to the Atlantic ocean there is but one story—the grandest crop we have had for years. In this section peas only have been a comparative failure. From appearances this week the grain will all be housed in good condition. Straw is a heavy crop but the grain has also filled out well and roots are growing "out of sight." With the crop that is now being taken off properly housed the farming community will certainly have reason to feel a little gay.

The farmers down around Creemore are still buying broncbos.

R. H. Hannon of Badjeros recently sold to a Creemore buyer a bunch of fat cattle which netted him $1180.

Stone Settlement

From Our Own Correspondent

Berry picking season is nearly at a close for this year. There has been a very bountiful crop.

The weather is proving very favorable this week for the commencement of the harvest.

Messrs. Frank Cairns, sr., and Fred Wright left last Thursday for the North West. We hope they will enjoy the trip and have a good time.

Mr. Banks and his men shingled the new Sabbath school house last Thursday and did splendid work.

Mr. and Mrs. John Chard visited at Mr. H. Stone's last Monday.

Many congratulations, Richie, for success at the recent examinations.

Mr. and Mrs. Mitchell returned to their home in Buffalo last Thursday after a short visit among friends and acquaintances here.

That was a very interesting story Mr. Editor, which was in last week's issue, and we are waiting for the continued part in next issue. We hope to enjoy it as much as the last part.

Speedy Cure for Cramps and Colic

Mr. Benjamin Dillon, of Leeds, Ont., was cured of Muscular Rheumatism by Polson's Nerviline, and says: "I feel my duty is to proclaim Polson's Nerviline as an infallible for rheumatism; it cured me after 30 years suffering, and nothing I know of can equal its penetrating power. Nerviline simply has no equal in quickly relieving and curing rheumatism, neuralgia, sciatica, and lumbago. A trial will convince anyone. Price 25c.

Rev. L. W. Rutledge, of Woodstock, suddenly left his pulpit last Sunday morning before the sermon. He reappeared in a few minutes. "I hope," said he, when he arose to give out the next hymn, "that none of you were alarmed by my sudden departure from the pulpit. A collar button is a very little matter, but it assumes great importance when it happens to break when one is in the pulpit." The congregation tittered audibly.
