Brave Manitowaning Girl

The following clipping from the New York Times refers to a daughter of the late Thomas Ferguson of Manitowaning, and a niece of Mr. T. A. M. Ferguson, of Priceville :

Miss Ida M. Ferguson of the Army Nurse Reserve Corps on duty at Field Hospital No. 12, displayed great courage at Choppy, France, on Oct. 8th, 1918, when the hospital was shelled for an entire day. Miss Ferguson remained constantly at her post of duty in the operating room, which was repeatedly showered with fragments of bursting shells. By this bravery, risking her own life, she aided in saving the lives of several wounded men."

Ida Ferguson is a Manitowaning girl and a graduate of the N. Y. Post Graduate Hospital. She went overseas with the P. G. Unit to Base Hospital No. 8, in 1917. Miss Ferguson comes of a good "strain" being a niece of that good patriot, Mr. Geo. Strain of Gordon,—Gore Bay Recorder.

A four hundred pound Montreal woman could not be placed in the cells without a block and tackle, so they let her go.

To Solve Canada's Employment Problem

EVERYONE in Canada should understand just what the Government is doing to solve the unemployment problems that may arise through the demobilization of our fighting forces.

(1) Employment Offices.

So that everyone—male or female, soldier or civilian—can get quickly such jobs as are available the Government is co-operating with the Provinces in establishing a chain of Public Employment Offices. Employers are being urged to make use of these offices to secure any help they need. Farmers, for example, who need hired men should apply to the nearest office. There will be a Public Employment Office in every town of 10,000 people—and wherever the need for one exists. There will be 60 different offices in all—one-half are already in operation.

(2) Employment Opportunities.

The war held up much work that will now be carried on at once. Public works, shipbuilding, roadbuilding, railway work—construction of bridges, improvement of road-bed, making of new equipment—these will provide new opportunities for employment. In addition, the Government has sent a Trade Mission overseas to secure for Canada a share in the business of providing materials and products required for reconstruction work in Europe. It has also set aside the large sum of $25,000,000 to be loaned through the Provinces to encourage the building of workmen's houses. This will mean much new work in the spring.

(3) Land and Loans for Soldiers

To help soldiers become farmers the Government has developed a programme that includes the providing of land, the granting of loans, and the training and supervision of those inexperienced in farming. At present, the soldier is granted, free, in addition to his ordinary homestead right, one quarter-section of Dominion lands. He also receives a loan up to the maximum of $2,500.

These original plans are now being broadened. If Parliament passes the new proposals during this session, the Soldier Settlement Board will be able to buy suitable land and re-sell it to the soldier at cost.

Land up to the value of $5,000 may be bought by this plan—the money to be repaid in 20 years. The low interest rate of 5 per cent. will be charged. These new proposals will also permit the Soldier Settlement Board to loan the soldier-farmer up to $2,500 for purchasing equipment, etc., in addition to $5,000 loan on his farm.
