Gold Watches

W. A. ARMSTRONG. FLESHERTON

Kimberley

Harvesting is past and threshing is now progressing in this locality. Grain is turning out very fair. Farmers are therefore very busy with threshing and fruit. Fruit is a heavy crop, excepting plums, which are conspicuous by their absence. The fruit is not of the best quality being considerably destroyed by rust caused by excessive rains.

Mr. John McGowan has left town. The gristmill here, which did belong to Mr. D. Henderson, was left vacant by Mr. McGowan. He will be greatly missed as he is a good miller and gave excellent satisfaction to his customers, and he is also a genial citizen with whom we are sorry to part. He goes to Durham. The mill is idle at present except the chopper, which is run by Hugh Smith, but we hope to soon have an efficient miller as Mr. W. S. Bishop has purchased the mill. We understand the price was somewhere between $1500 and $2000.

Mr. T. B. Carruthers has nearly cleared out his stock. Mr. M. R. Hammond has bought out the store and we will henceforth have only one store in town. The price paid was about $450

A pretty wedding was celebrated on Wednesday evening last at the residence of the bride's parents, Mr. and Mrs. P. Harris, when their daughter, Bertha, was united in marriage to Mr. Henry Wallace of this place. The ceremony was performed by Rev. T. White in the presence of a large number of friends and relatives. The young couple will reside on a farm on the third line of Euphrasia, a few miles from here. We join with friends in wishing them a long and prosperous voyage through life.

Miss Mary Knott is visiting friends in Owen Sound at present She attended the wedding of her uncle, Mr. Ben Best, of that place on Wednesday last.

Born—On Wednesday, September 24, to Mr. and Mrs. Matthew Ferguson, a son.

Inspector Greir of Thornbury visited the school here Wednesday of last week and reports the progress as favorable

Mrs. F. Surbay (nee Miss Ada Barritt) of Toronto is spending a few days at the parental home here.

A few of the stock breeders of this vicinity took in the fair at Flesherton on Wednesday and carried off a number of prizes.

Mrs. C Kelly of Toronto is the guest of Mrs T. Abercrombie

Mrs. Melvin Harris has moved to join her husband in Collingwood.

A number of the people of this vicinity are slightly under the weather and some seriously ill. The infant son of Mr. and Mrs. Geo. Walter is very sick. Miss Lily Curry has what may prove to be a very serious case of knee trouble. For about a year she has been troubled with a slight pain in the knee. On Wednesday, October 1, she was at the Flesherton fair and got cold in the knee. Dr. Shultiz of Heathcote was consulted and he is afraid the bone is affected.

Revolution in Newfoundland

Since the introduction into Newfoundland of the new inhaler remedy, "Catarrhozone," the treatment of catarrhal diseases has been entirely revolutionized. The old-time snuff and internal medicines have been set aside and everyone is inhaling Catarrhozone; it clears the head and throat in two minutes, and is very agreeable and pleasant to use. Catarrhozone is a wonderful cure for coughs, colds, catarrh, asthma, bronchitis, lung troubles and deafness. It relieves quickly and cures permanently. We advise our readers to try Cotarrhozone. Price $1.00, trial size 25c. Druggists or Polson & Co., Kingston, Ont.

Rockvale.

From Our Own Correspondent.

Intended for last week.

Messrs. Sam and Charlie McKee of Nottawa are visiting at Mr. Jerry Thompson's.

Miss Emma Parke of Toronto is visiting at the parental home.

Mr. McComb of Collingwood is the guest of Mr. J English.

What might have proved a very serious accident occurred at a threshing in this neighborhood recently. One man threw a fork into the mow. Mr. John Britton was near the edge of the mow and the tines of the fork penetrated his face in two places Fortunately the damage was not as serious as it might have been,

Our teacher and pupils took possession of the new school on Monday of last week, and are now nicely and cosily settled.

Your cor. is glad to note that Mr. Jos. Sherwood is much improved in health and able to go to work once more.

Our school has rented an organ and are busily preparing for a concert to be held in the near future.

Stone Settlement

From Our Own Correspondent

The harvest which has been a very tedious one in this locality was finished last week, and people are now busy with their root crops. Potatoes in most cases are badly affected with rot, but in a few instances the crop is almost entirely free from disease.

Notwithstanding the number of steam threshers in the county, it appears to be a difficult matter to procure their services on this line for some time yet, Mr. R. Whittaker being the only one in this neighborhood who has threshed. A good yield reported.

Mr. and Mrs. E. Sewell of Owen Sound, have been spending the last two or three weeks with the latter's mother, Mrs. J. Hazard. The former is under the Dr's care, but the latter never looked better than at present.

The new building for our Sabbath school is now beginning to look respectable. Mr. Banks' men are putting on the dressed siding.

If some of the horses of the present day were endowed with the power of Baalam's ass of old, there would certainly be many complaints made to the S. P. C. A.

Mr. Ben Stone has gone to his occupation of taking out ship timber and not with the threshing machine, as erroneously stated in former items.

What some people would like to know, viz:—Who is the correspondent for the section? When that road job will be commenced which should have been finished on the 13th of July? Whether that authograph quilt will be finished in time for the world's fair at Priceville? When peace will be proclaimed between those billigerent knights of the trowel? Whether prohibition will protect our orchards from nocturnal marauders? Whether the large amount of sunflowers which may be seen growing on this line will furnish light during the obscurity of the moon in the total eclipse? Whether the scarcity of coal in the city will diminish the supply of gas of the anti-prohibitionists? Whether our singing school will be re-organized this season, and lastly but leastly, how many hurricanes will be required to fill the tires of Bobbie's old bike?

Elmwood, Sept. 27.—James Russel of this village committed suicide by hanging himself on an apple tree near his own house. Russel got up at 5 a. m., and asked his wife where the key of the door was, stating he wanted to go out into the fresh air. After unlocking the door he went out This was the last seen of him alive. About half an hour afterwards Mrs. Russel went out to gather apples, and was horrified to see her husband, with a piece of clothesline about his neck, hanging from the tree. The limb from which he was hanging was only about five and a half feet from the ground, and when found his feet were resting on, and his knees almost touching, the ground. Mr Russel was fireman in Goodfellow & Howson's saw mill, where he worked until about two weeks ago, when the mill closed down. A widow, a daughter, and three sons survive him.

In view of the prospective coal famine the following despatch to a daily newspaper will be doubly interesting: Christopher Inglis, a farmer of Sullivan, near Chesley, while digging post holes found what looked and burned like anthracite, and some Chesley business men are investigating the matter.

Cause of Splitting Headache

Poisons accumulate in the blood and spread every moment to all parts of the body. The brain becomes conjested, nerves irritated, and the result is that awful headache.

Ferrozone is nature's own remedy for headaches; it is a blood strengthener and purifier of uncommon merit, a lasting potent tonic, and the greatest invigorant and health maker known. Headaches never bother people that take Ferrozone after each meal. Buy a box from your druggist for 50c. By mail from Polson & Co., Kingston, Ont.

Form III—N. McDinnon, Alice McDougall, D. McLean, Lizzie Mather, Will Cameron, Neil McKinnon, Maggie Heighes, Will Tryon, Auther Patton. John McLean, Charlie Matheson.

S. M. EASTMAN, Teacher.

After a good deal of study and worry we have at last "figgered" out why so many country editors gets rich Here is the secret of their success. A child is born in the neighborhood; the attending physician gets $10, the editor gives the loud-lunged youngster and the "happy parent" a send off and gets $00. It is christened and the minister gets $5 and the editor gets $0. It grows up and marries; the editor publishes another long winded, flowery article and tells a dozen lies about the "beautiful and accomplished' bride The minister gets $10 and a piece of cake, and the editor gets $000. In the course of time it dies; the doctor gets from $5 to $100; the minister perhaps gets another $5; the undertaker gets from $25 to $50, the editor publishes a a notice of the death, an obituary two colums long, lodge and society resolutions, a lot of poetry and a free card of thanks, and gets $0000 No wonder so many country editors get rich.

New and Charming Materials For Shirt Waists.

A season or two ago when silks were in the lead of popularity we didn't believe—nobody believed either—that silk and wool could be so exquisitely patterned as to almost supplant silks for waists, yet this has been accomplished. The soft, woollen fabrics, some of them with a dash of silk combined, are taking first place for waist making. Among this new and varied assortment just in of waist materials all the leading shades are to be seen, some with stripes worked of silk, others with patterns worked of silk. 2½ yards sufficient for a waist at 50 and 75 cts. per yard.

23c. DRESS GOODS FOR 16½c.
