A. SUTHERLAND.
Post Office Inspector

Post Office Inspector's Office,
Toronto, March 25th, 1919.

Margaret Mann, a nine year old girl of Camilla, died last week from burns received by the explosion of aluminum paint.

EUGENIA

The friends and neighbors regret having to part with Mr. and Mrs. T. E. Fenwick and family, but wish them every success in their new home.

The Fenwick girls on leaving Eugenia school, gave a taffy party to their many girl friends, who will miss them very much, but wish them success in their new school.

Sproule on the premises who will show any persons over the premises. 17Oc

The Outstanding Product of a Large Manufacturing House

FOUR large factories and five distributing warehouses stand back of Brandram's Genuine B.B. White Lead.

Every step in its manufacture is closely watched by chemical engineers—nothing is left undone which would help to maintain the quality of the world's finest white lead.

Brandram's Genuine B.B. White Lead

is different from any other white lead. To begin with, it is corroded by several secret processes which are then merged into a pigment of marvellous smoothness. This pigment is ground no less than five times, first under huge stones, and finally between heavy steel rolls. In this grinding process, it is made into a pulp by being mixed with pure refined linseed oil made in our own linseed oil mills.

Whenever you paint, use Brandram's Genuine B.B. White Lead if you mix your own paint. If you want to save the labor of mixing, you can ensure the use of this quality pigment only by getting B-H "English" Paint.

ONTARIO WIND ENGINE & PUMP CO. LIMITED

TORONTO

Better Ensilage —and More of it

You *can't* have good ensilage without a good silo—air-tight and frost-proof.

Toronto Silos are of *wood*. Selected spruce staves DOUBLE tongued and grooved are impregnated with creosote. Air or frost cannot penetrate this barrier. Your ensilage is perfectly protected.

Then add the advantage of the Toronto Hip Roof—it gives you several tons greater capacity—enables you to tramp the ensilage right to the top of the staves.

You need an ensilage cutter of your own to have good ensilage. The Toronto Ensilage Cutter is designed to give you complete and efficient service without trouble. Light running and simple, it takes corn, alfalfa, clover, just as you put it in. No choking or jamming. Smooth action all the time.

Get more information on these two splendid Toronto Products. Our literature gives in word and picture the complete story. Write for the free Silo and Ensilage Cutter booklets.
